First sales for professional clubs.

We have no boundaries

Team Work

Infographics - Idea Concept

01 Collect as many biometric parameters as possible for further analysis and prediction of the athlete's capabilities.

02 With more than 100 analytical parameters to investigate human abilities at an early age. Predict its growth opportunities.

03 The ability for coaches to create reports themselves, taking into account the factors that they need.

04 To give the opportunity to create and find dependencies between the displayed parameters and, given their correlation, produce a result.

Maximum Effect from Training

Project Steps

No one step back

Our Goal

To increase the potential and capabilities of athletes. Correct load distribution to prevent damage.

Give an opportunity to identify at an early age who has the highest potential and in what position.

Maximum Effect from Training
