

Цитология

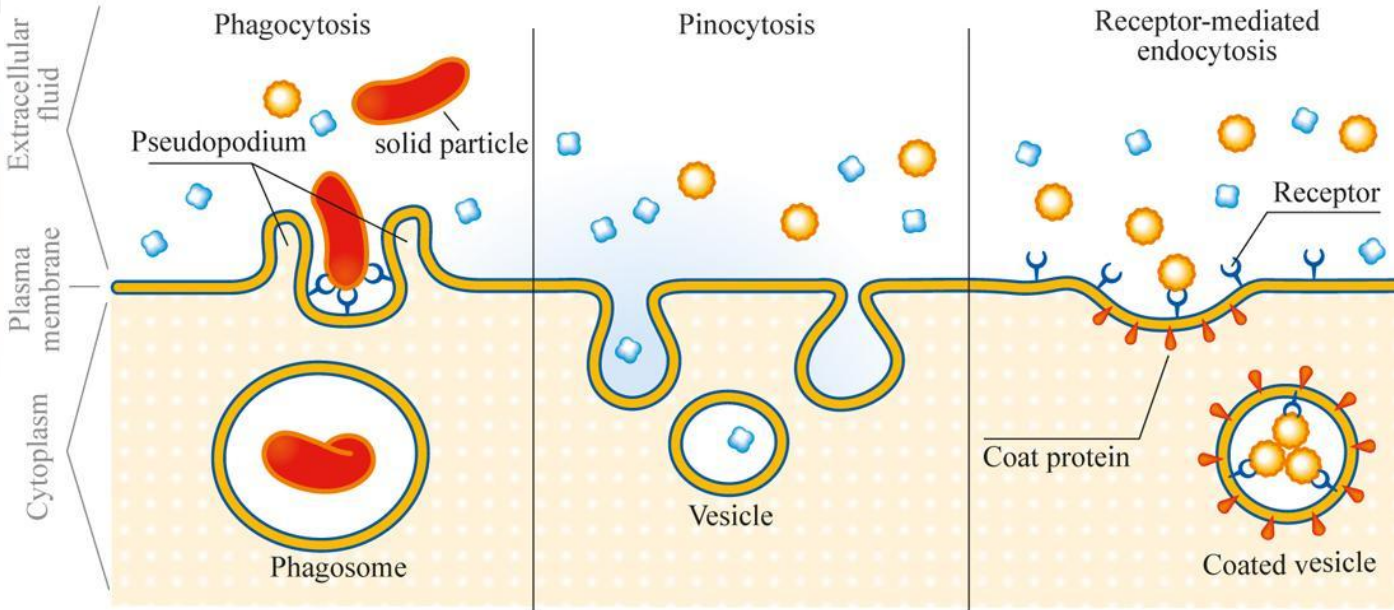

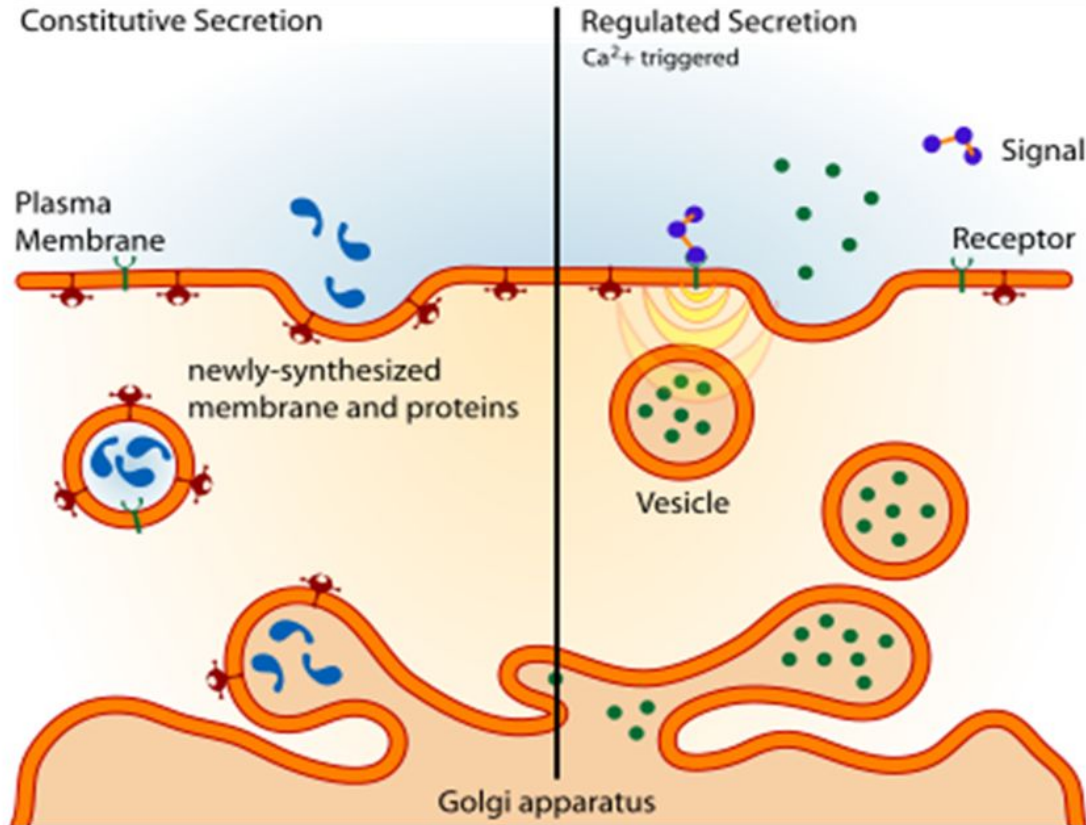

Клеточная мембрана

Строение клеточной мембраны (схема)

Экзоцитоз и эндоцитоз

Exocytosis secretes substances

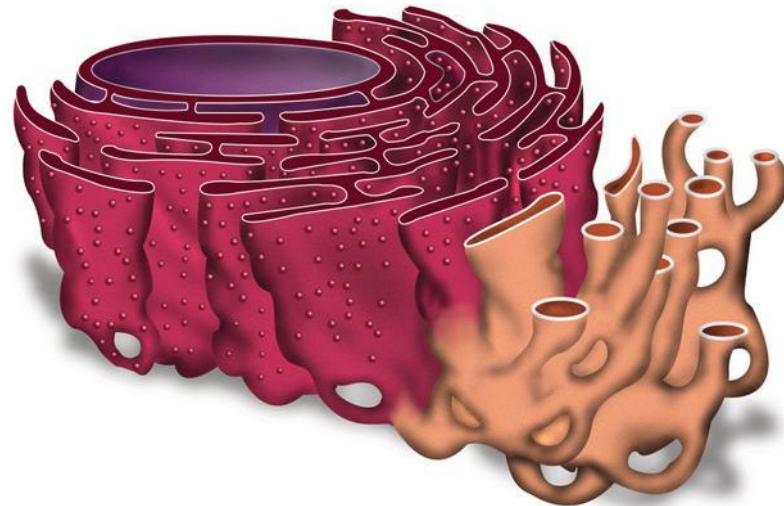

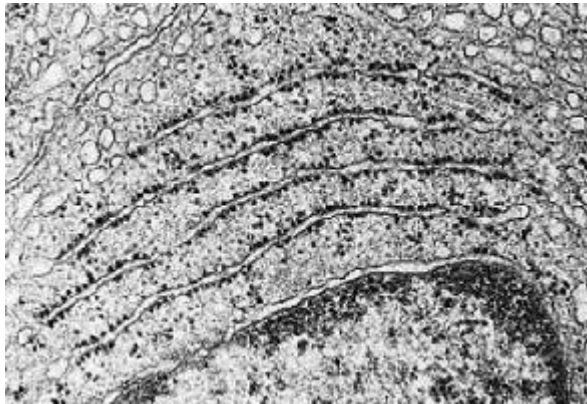

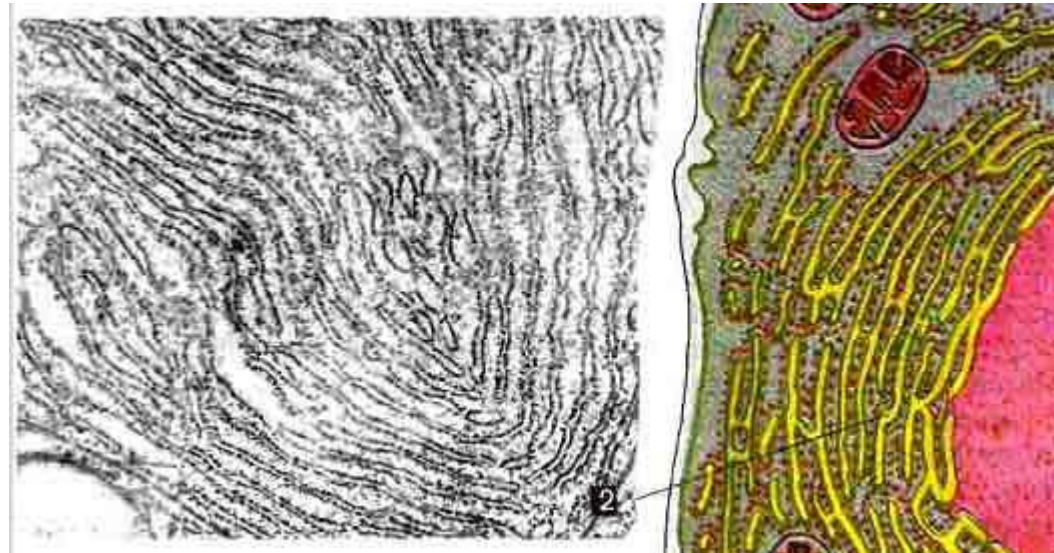

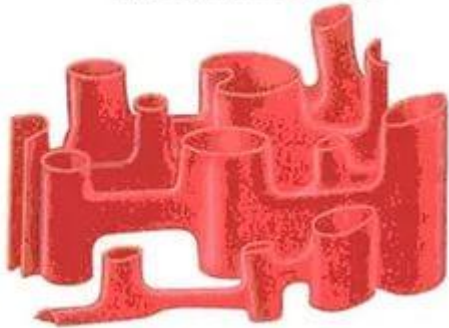

ЭПС

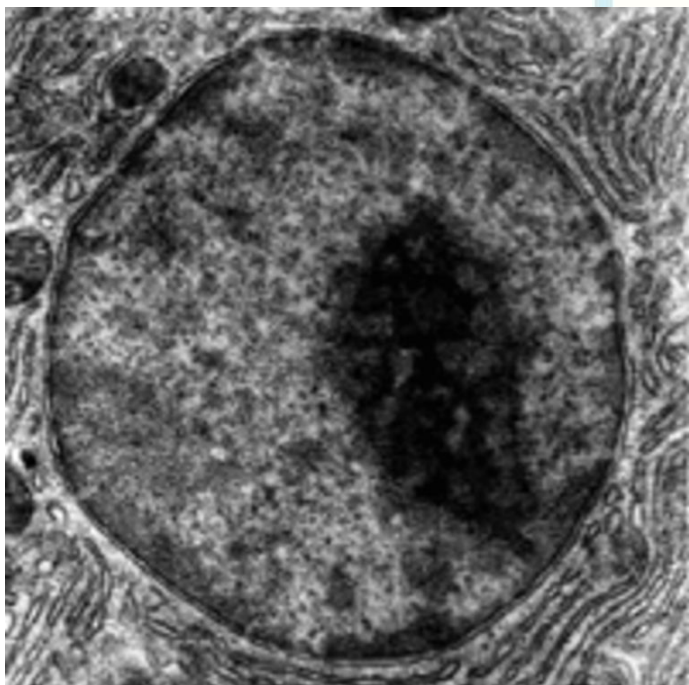

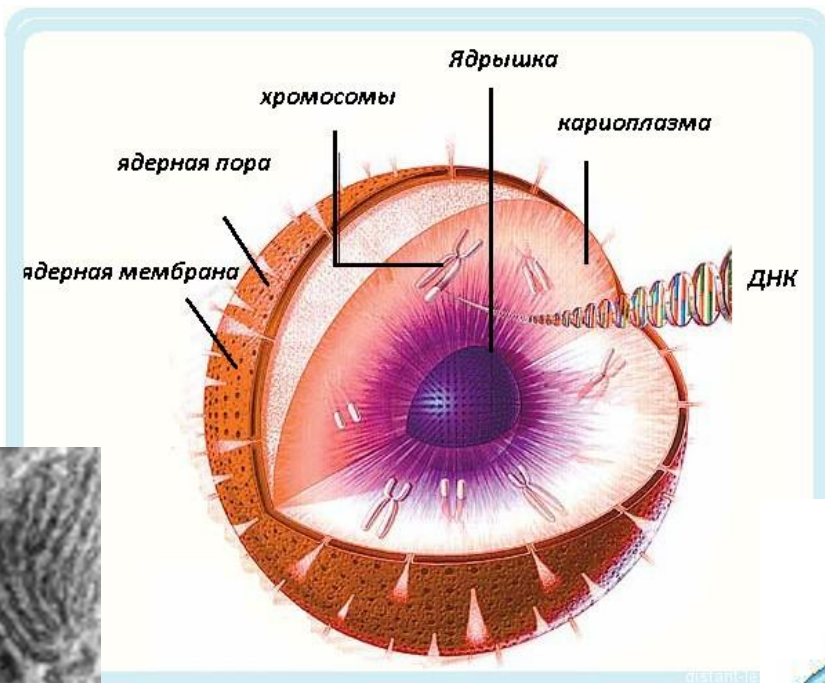

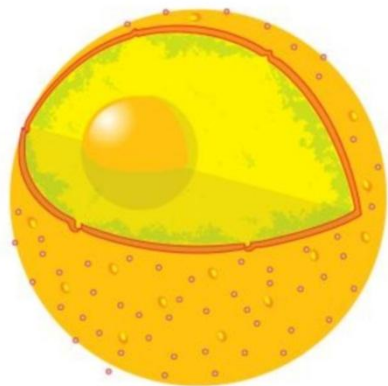

Шероховатая
эндоплазматическая сеть

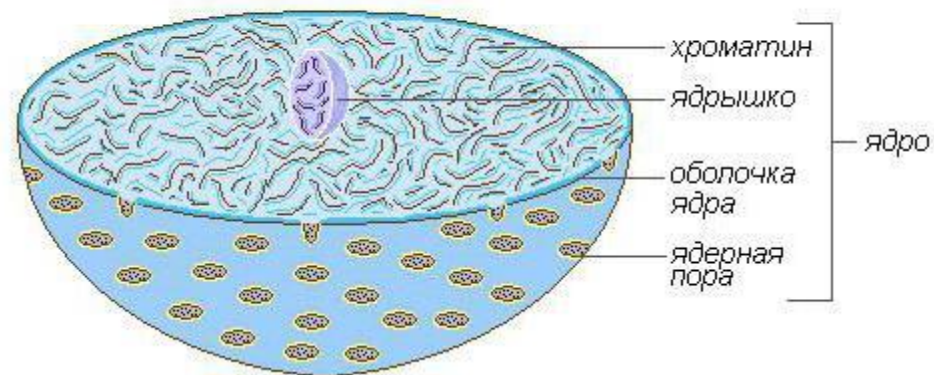

Гладкая
эндоплазматическая сеть

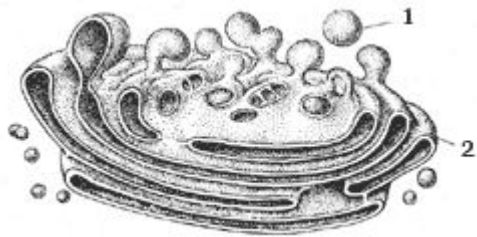

Ядро

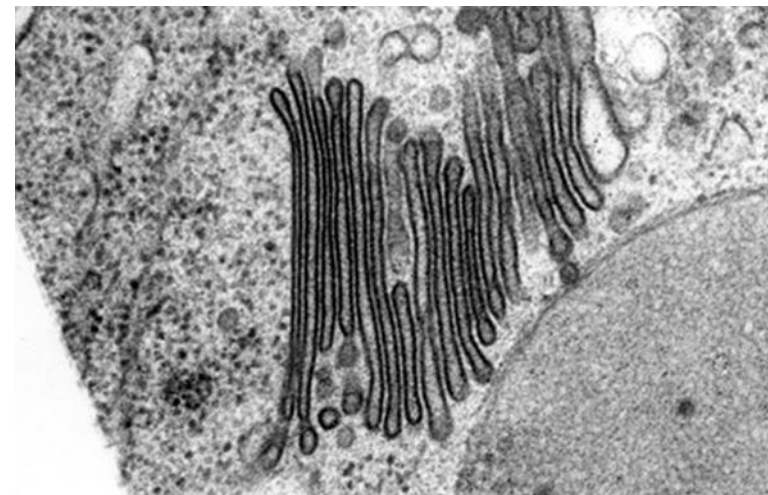

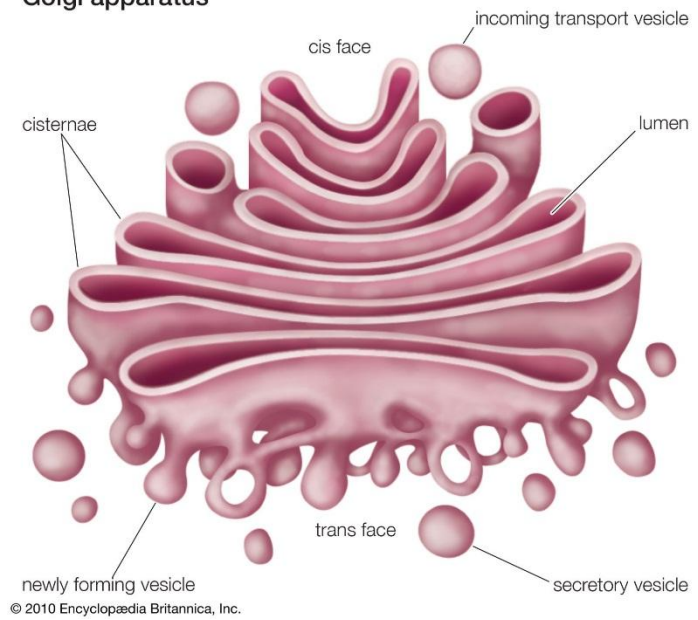

Строение ядра

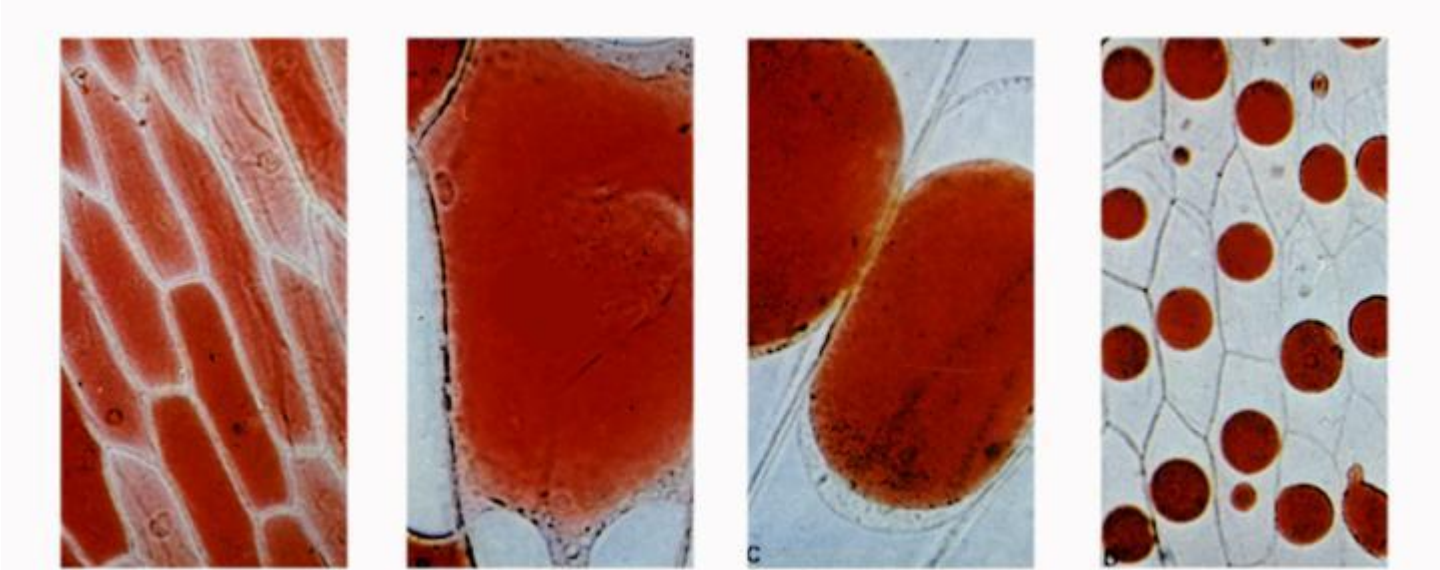

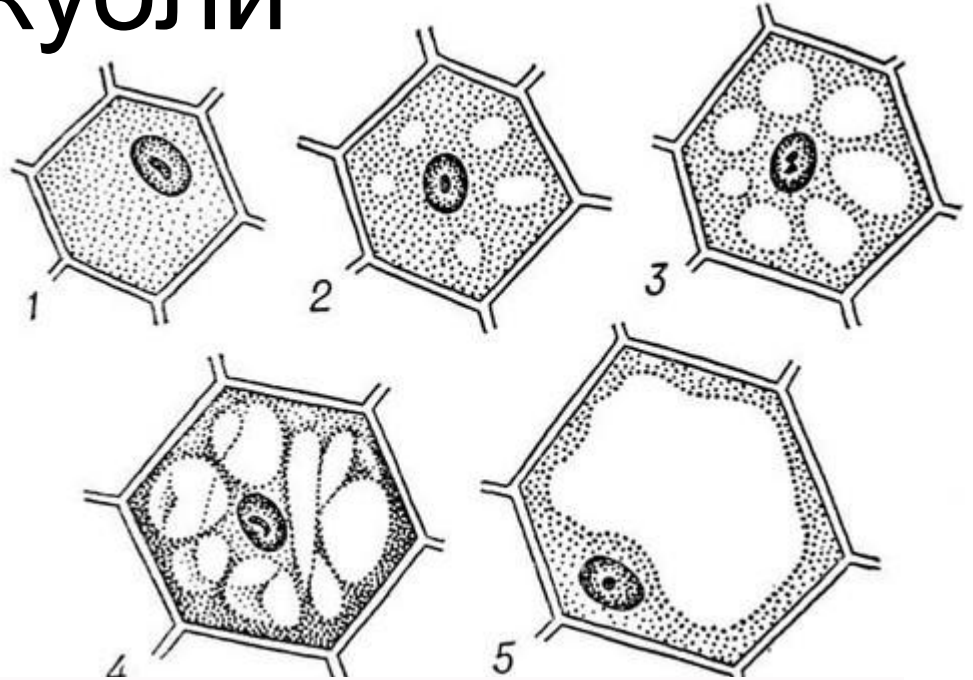

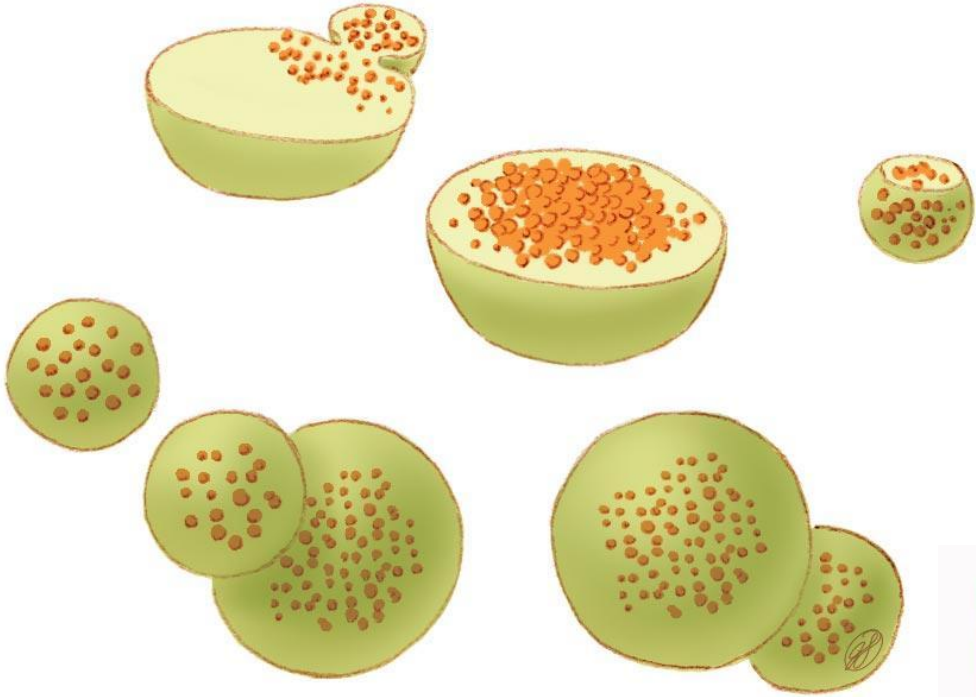

Аппарат Гольджи

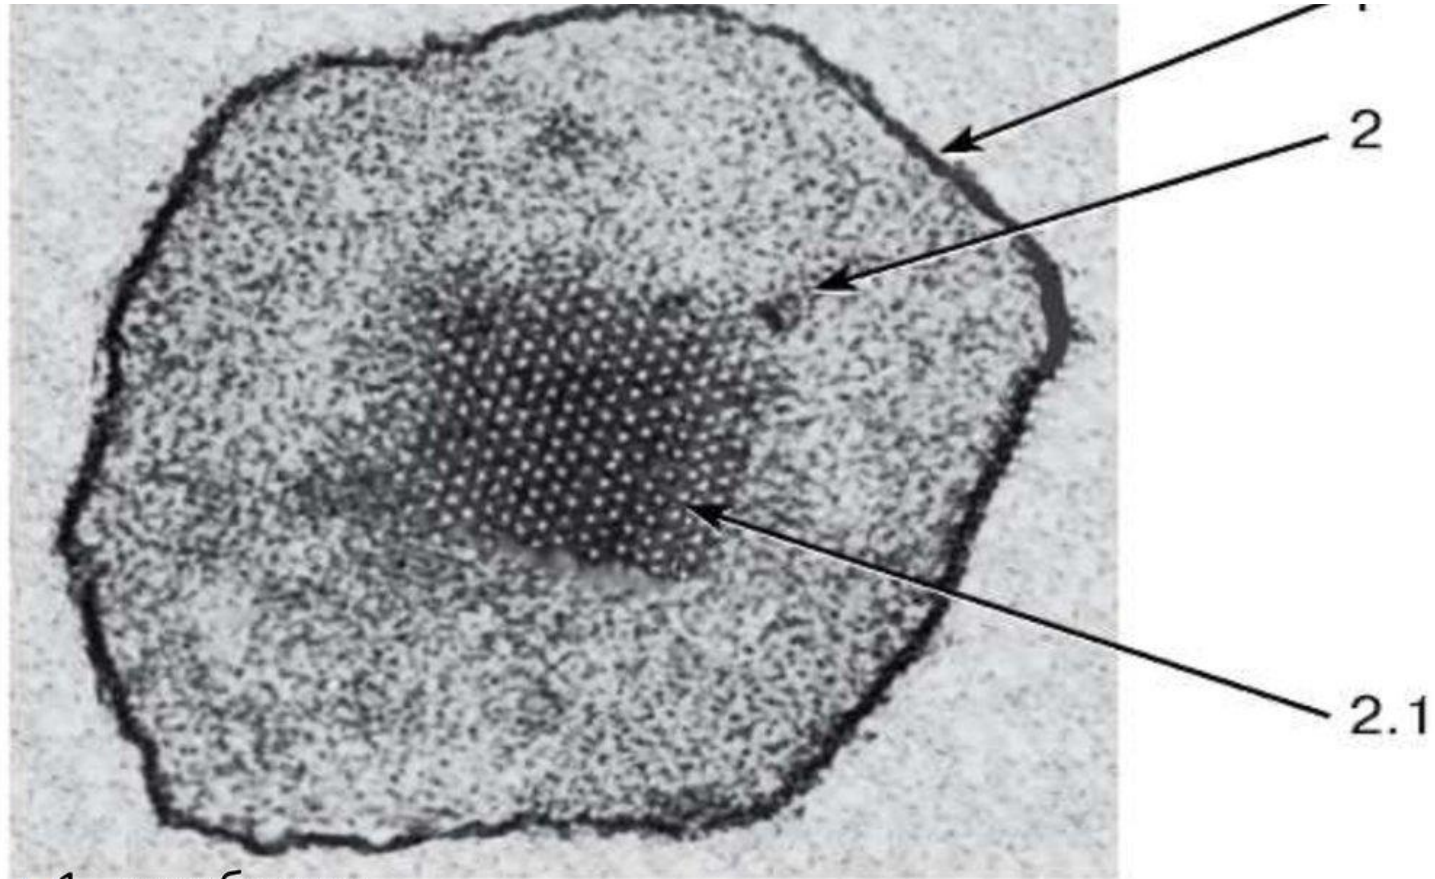

Golgi apparatus

Лизосомы, везикулы, вакуоли

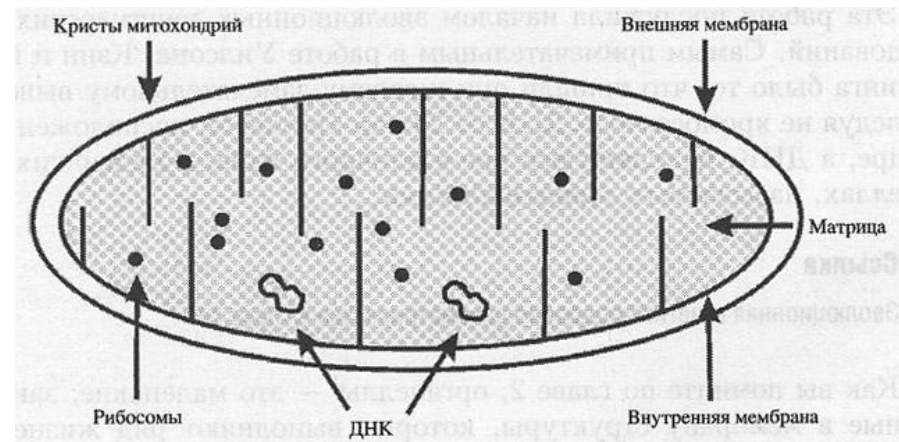

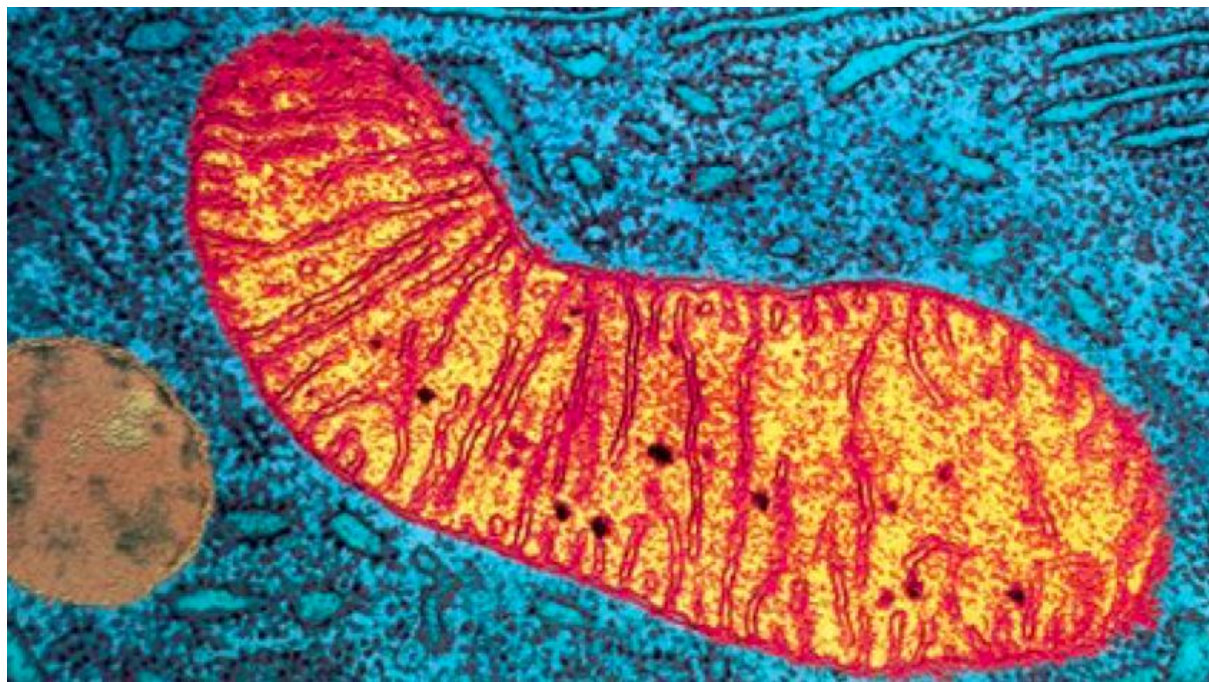

Пероксисомы

□1 - мембрана;

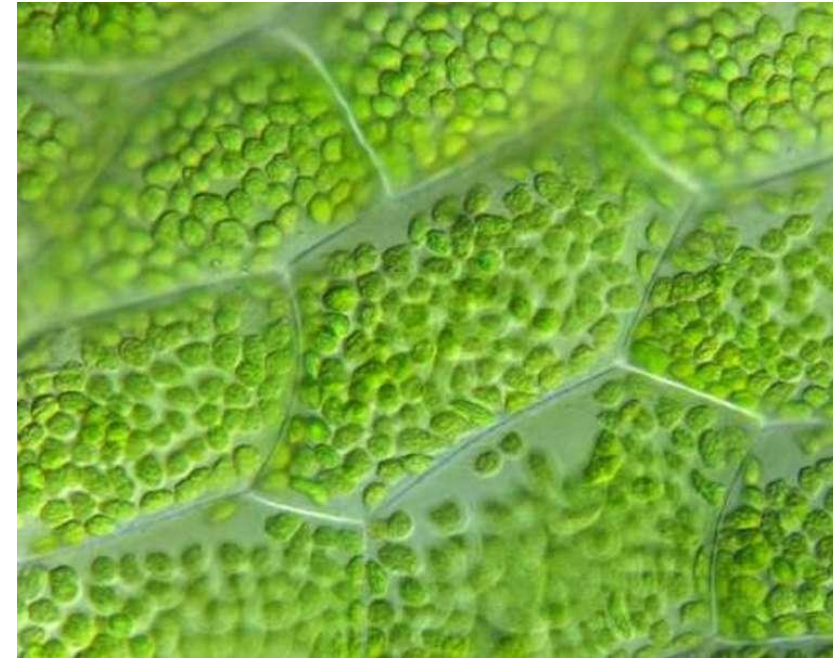

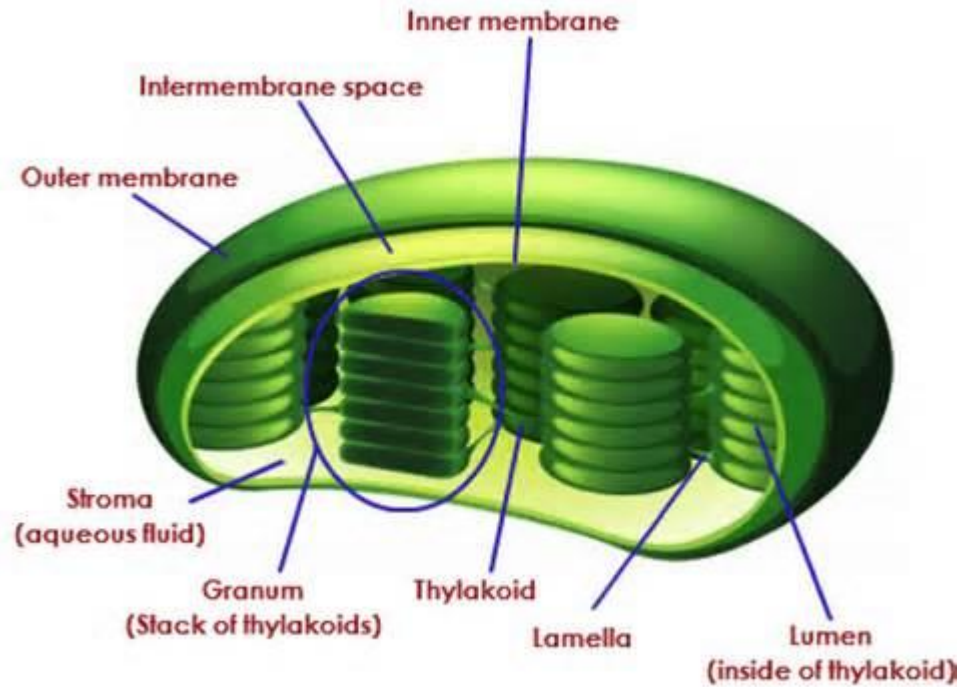

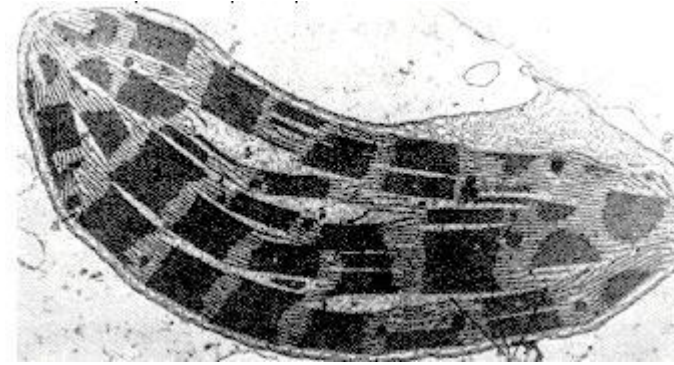

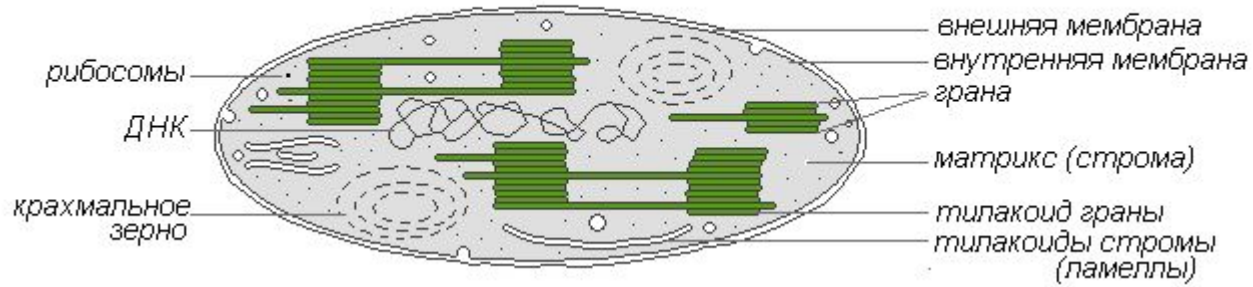

□2 - матрикс: 2.1 - кристаллоидная сердцевина (нуклеоид).

Митохондрии

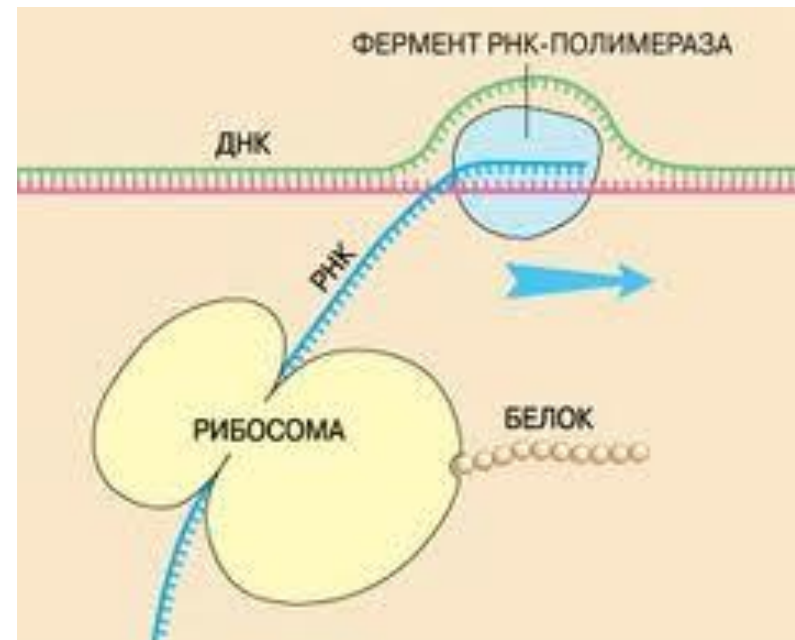

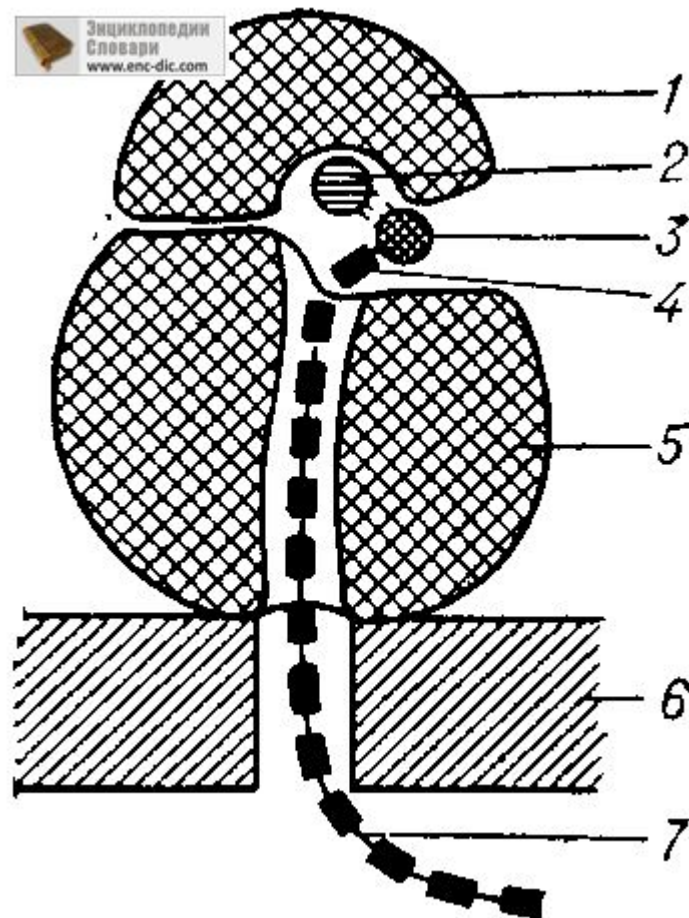

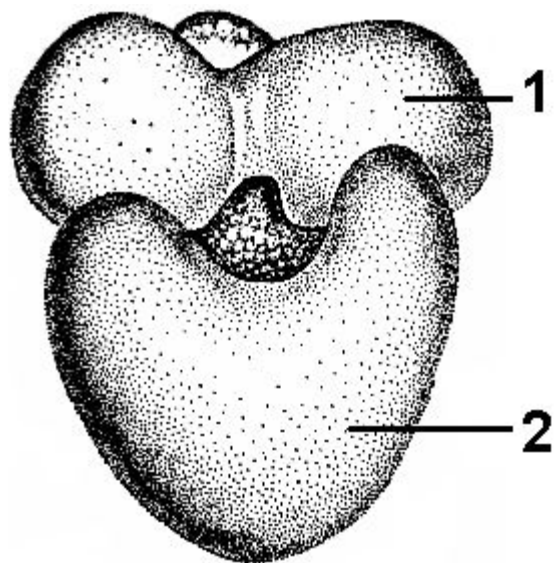

Пластиды

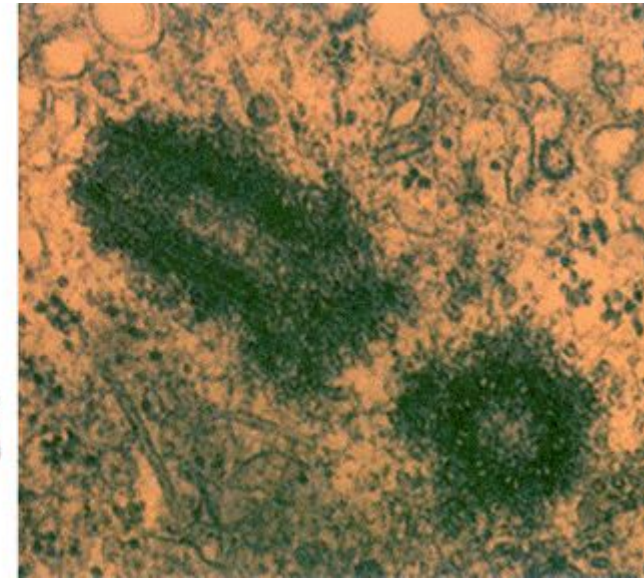

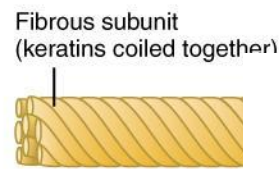

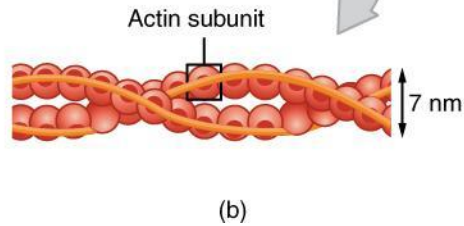

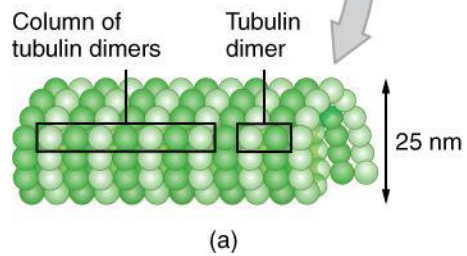

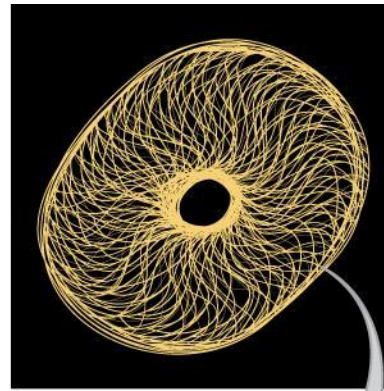

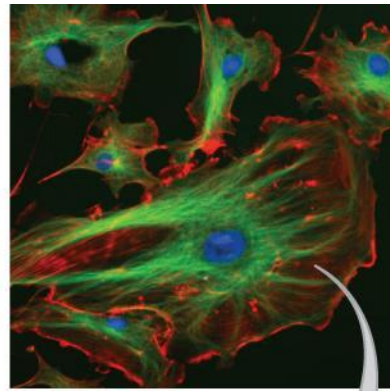

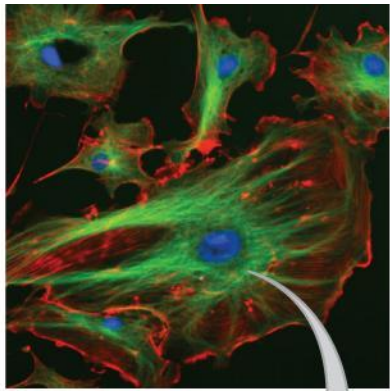

Строение хлоропласта

Рибосома

Цитоскелет и клеточный центр

Жгутики и реснички
