

SHANXI, CHINA CITY BUILT IN THE MOUNTAINS OF SHAN

**This is amazing
and we have to wonder how,
why and when did they do this.
From where & how do they get
water...power....sewer.....?**

How did they build all this??

And why, way "up there"!!

**My best guess is that this is a Buddhist Monestary -
They are noted for building in the most extreme,
inaccessable, but scenicly speaking, some of the most
beautiful places there is.**

A man wearing a black cap, a plaid shirt, and dark pants is standing on a wooden walkway, holding a camera to his eye and taking a photograph. The walkway is built along a steep, layered rock cliff. A yellow metal railing runs along the edge of the path. The cliff face is composed of horizontal rock strata. The sky is overcast and grey.
