

**SHANXI, CHINA
CITY BUILT IN THE MOUNTAINS OF
SHAN**

**This is amazing
and we have to wonder how,
why and when did they do this.
From where & how do they get
water...power....sewer.....?**

How did they build all this??

And why, way "up there"!!

**My best guess is that this is a Buddhist Monestary -
They are noted for building in the most extreme,
inaccessible, but scenicly speaking, some of the most
beautiful places there is.**

A man wearing a black cap, a plaid shirt, and dark pants stands on a wooden walkway, holding a camera to his eye. The walkway is built along a massive, layered rock cliffside. A yellow metal railing runs along the edge of the path. The background shows a deep, narrow gorge with a similar rock face on the opposite side.
