

HUSHME

ONE OF THE BEST UKRAINIAN STARTUP IN 2017
ONE OF THE WORST GADGET IN THE WORLD

THE STARTUP THAT WILL CHANGE THE WORLD!

(PROBABLY NOT)

- Hushme's product - a hi-tech voice mask with a muzzle design - muffles the user's voice by allowing the overlay of masking sounds on to the voice.
- World's first voice mask for mobile phones
- On a phone call at your open-plan office or a public space, and don't want people nearby to overhear the conversation? Ukrainian startup Hushme, as the name suggests, does just that.

DEVICE THAT THRILLED THE WORLD!

And its creator - Roman Sakun

Device itself, without the genius

Wind

Ocean

Rain

Birds

Monkey

Squirrel

Darth Vader

R2D2

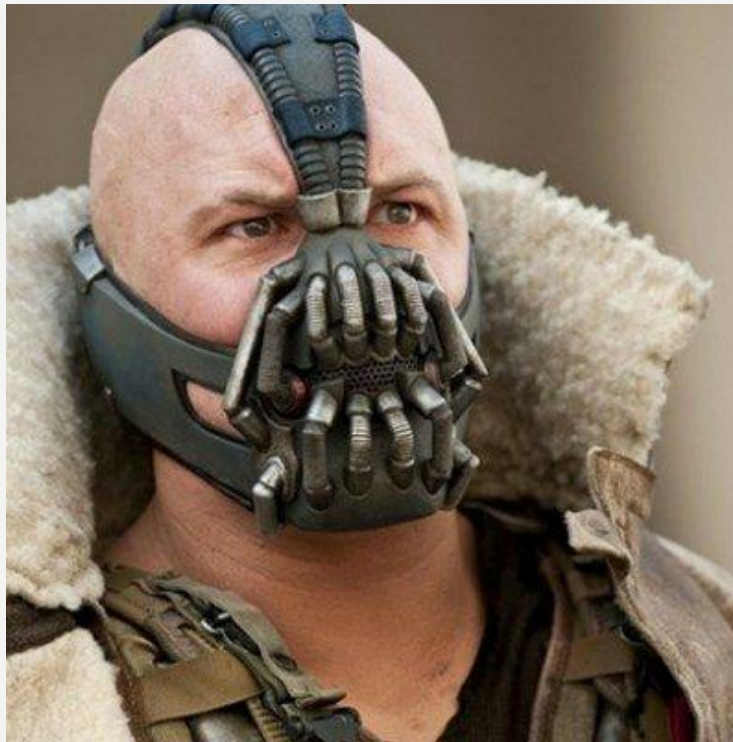

Minion

The list of noises it makes on the outside speakers, to keep you quiet

The worst gadgets of 2017

So many bad ideas. So many.

*Want to look like Bane while making an important business call? You might want to get the **Hushme***
