# View, edit, create and share your documents

OfficeSuite brings the power and capability of a desktop app to the iPhone and iPad like never before!

This is the perfect tool for effortlessly viewing, editing, creating and sharing Microsoft Word, Excel, PowerPoint  and PDF documents.

Convert PDFs to Word/Excel, make changes, insert notes and comments, then save as a new PDF with custom formatting.

**Localized languages** – English, Dutch, French, German, Italian, Spanish, Russian, Portuguese, Japanese, Chinese, Thai, and Hindi.
