***There is , there are*** u yerda bor degan ma'noni bildirib, biror joyda biror nima borligini bildiradi.

Masalan: *There is an apple in the fridge.* Xolodilnikda olma bor.

*There is/are* ni *have/has* dan farqi, *have/has* biror shaxsda yoki predmetda biror nima borligini bildirsa, *there is/are* esa biror yerda biror nima borligini bildiradi.

Oldingi mavzuimizda o'tganimizda, biz sizga “**is**” ni birlik “**are**”ni esa ko'plik uchun ishlatilishini aytib o'tgandik, xuddi shunday ‘ **there is** – birlikdagi otni, **there are** esa ko'plikdagi otlarni borligini ko'rsatish uchun qo'llaniladi.

Masalan:

**There is** a pen on the table. (stol ustida ruchka bor)

**There are** two pens on the the table. (stol ustida ikkita ruchkalar bor)

Biz **there is/are** dan inkor gap yasaganimizda **to be fe'li** (is/are) dan keyin **not** yuklamasi qo'yiladi va u yerda yo'q deb tarjima qilinadi.

Masalan: *There is not a pen in my bag.* Mening sumkamda ruchka yo'q.

*There are not five flowers in the classroom.* Sinfxonada beshta gullar yo'q.

Biz **there is/are** dan so'roq shaklini yasaganimizda esa **to be fe'li** (is/are) egadan oldinga qo'yiladi va u yerda bormi deb tarjima qilinadi.

Masalan: **Is there** a cat in your home? Sizning uyingizda mushuk bormi?

**Are there** two copybooks in your bag? Sumkangizda ikkita daftaringiz bormi?

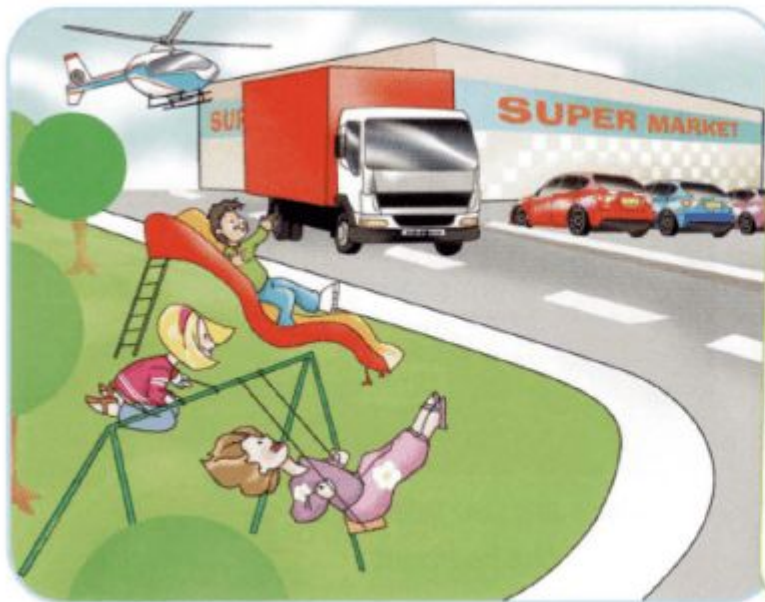

Ingliz tilida ko'pincha to be fe'lini qisqartmalaridan foydalaniladi. There is/are ni quyidagicha qisqartirib foydalanish mumkin.

there is = there's

there is not = there isn't
