**The Pont du Gard,
a Roman vestige**

**Limestone cliffs
in Étretat, Normandy**

Paris tourism has lost €750 million since terror attacks

The future of french tourism

A photograph of the Eiffel Tower in Paris, France, taken from a low angle. The tower's intricate iron lattice structure is the central focus, with its base arching over a view of the city. In the background, the Paris skyline is visible under a clear, bright sky. The foreground shows a park area with trees and a small structure. The overall scene is bathed in a warm, golden light, suggesting late afternoon or early morning.
