

WINTER INFOGRAPHICS

Here begins this template

Winter infographics

01

Jupiter

Jupiter is the fifth planet from the Sun and the biggest one

02

Venus

Venus is the second planet from the Sun. It has a beautiful name

03

Neptune

Planet Neptune is the eighth and farthest object from the Sun

04

Mercury

Mercury is the smallest and innermost planet of them all

Winter infographics

30%

Mars

Despite being red, Mars is a cold and chill place

50%

Jupiter

Jupiter is a gas giant and the biggest planet

70%

Saturn

Saturn is a gas giant made of hydrogen

90%

Neptune

Neptune is the farthest planet from the Sun

Winter infographics

Mars

Despite being red,
Mars is a cold place

Jupiter

Jupiter the biggest
planet of them all

Saturn

Saturn is a gas giant
and has rings

Winter infographics

70%

Neptune

Neptune is the farthest planet from the Sun and a gas giant

40%

Mercury

Mercury is the closest planet to the Sun and the smallest one

90%

Mars

Despite being red, Mars is a cold place full of iron oxide dust

70%

Venus

Venus has a beautiful name, but it is even hotter than Mercury

Winter infographics

Gift

Despite being red,
Mars is a cold place

Candy

Jupiter is a gas giant
and the biggest planet

Kids

Saturn is a gas giant
and has rings

Winter infographics

Neptune

Neptune is the farthest planet from the Sun

Saturn

Saturn is a gas giant and has rings

Mars

Despite being red, Mars is a cold place

Jupiter

Jupiter is a gas giant and the biggest planet

Winter infographics

Mars

Despite being red, planet Mars is a very cold place

Jupiter

Jupiter is a gas giant and the biggest planet

Saturn

Saturn is a gas giant and the ringed planet

Pluto

Pluto is now considered a dwarf planet

Winter infographics

01

2020

Jupiter is a gas giant and the biggest

2021

Mercury is the smallest planet of them all

02

03

2022

Venus has a nice name, but it's very hot

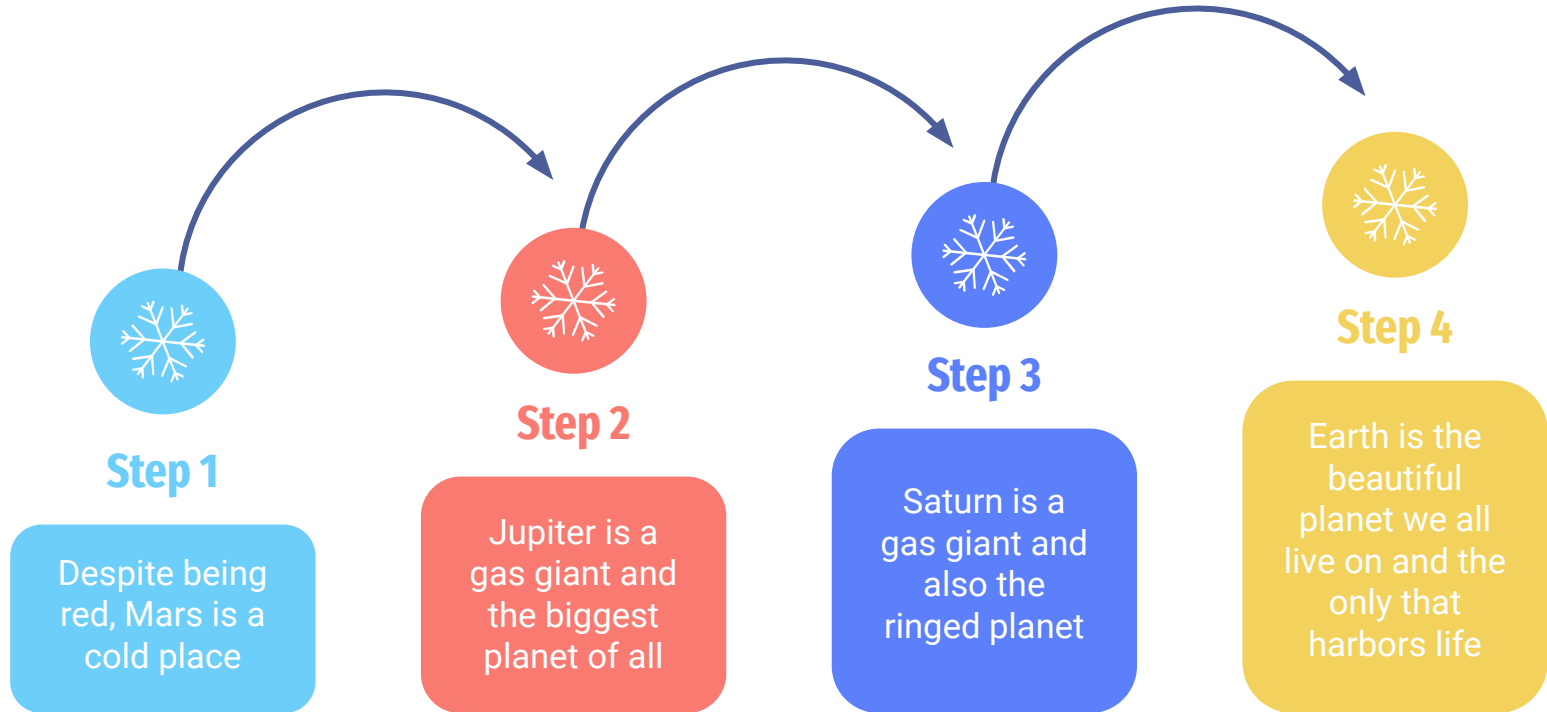

2023

Saturn is made of hydrogen and helium

04

Winter infographics

Winter infographics

Day 1

Despite being red, Mars is a cold place

Day 2

Jupiter is a gas giant and the biggest planet

Day 3

Saturn is a gas giant and the ringed planet

Day 4

Neptune is the farthest planet from the Sun

Winter infographics

January

Jupiter is the fifth planet from the Sun and the biggest one

February

Venus is the second planet from the Sun. It has a beautiful name

March

Planet Neptune is the eighth and farthest object from the Sun

April

Mercury is the smallest and innermost planet of them all

Mars

Despite being red, Mars is a cold and chill place

Jupiter

Jupiter is a gas giant and the biggest planet

Neptune

Neptune is the farthest planet from the Sun

Saturn

Saturn is a gas giant and the ringed planet

Winter infographics

January

Despite being red, Mars is a cold place

February

Mercury is the closest planet to the Sun

March

Jupiter is the biggest planet of them all

April

Saturn is a gas giant and the ringed planet

Winter infographics

Jupiter

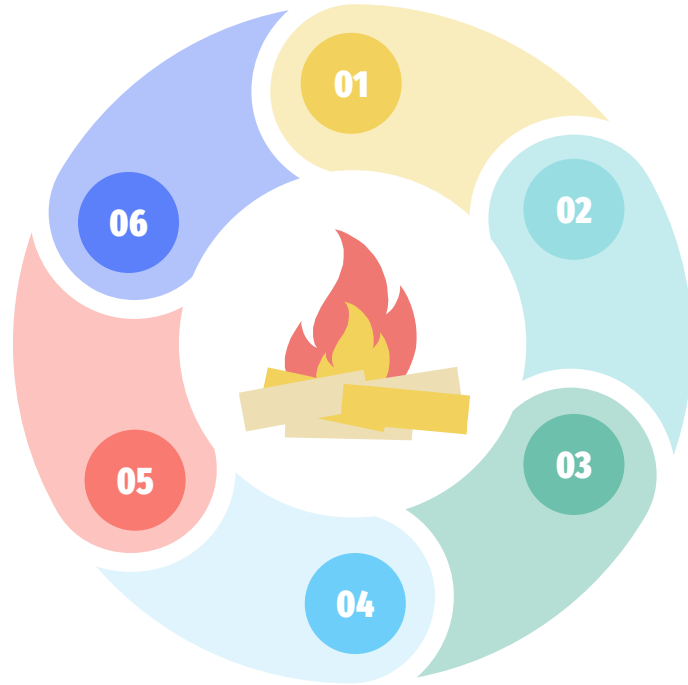

Jupiter is a gas giant and the biggest planet

Mars

Despite being red, Mars is a cold place

Neptune

Neptune is the farthest planet from the Sun

Mercury

Mercury is the closest planet to the Sun

Venus

Venus has a beautiful name, but it's hot

Saturn

Saturn is a gas giant and the ringed planet

Winter infographics

Mercury

Mercury is the smallest planet

Mars

Despite being red, Mars is a cold place

Jupiter

Jupiter is a gas giant and the biggest planet

Winter infographics

Dad

Jupiter is a gas giant and the biggest planet

Sister

Neptune is the farthest planet from the Sun

Mom

Despite being red, Mars is a cold place

Brother

Mercury is the closest planet to the Sun

Winter infographics

Neptune

Neptune is the farthest planet from the Sun and a gas giant

\$1

\$3

Earth

Earth is the third planet from the Sun and the one with life

Mercury

Mercury is the closest planet to the Sun and the smallest one

\$2

\$4

Mars

Despite being red, Mars is a cold place full of iron oxide dust

Winter infographics

Mars

Despite being red,
Mars is a cold and
chill place

Mercury

Mercury is the closest planet to the Sun

Jupiter

It's the biggest planet of the Solar System

Venus

Venus has a beautiful name, but it's hot

Winter infographics

Weekly Planner	Mon	Tue	Wed	Thu	Fri
08.00-09.00	Party	Warm milk	Skating	Snow	Socks
09.00-10.00	Snowman	Coffee	Ski	Sledding	Jacket
10.00-11.00	Fishing	Tea	Walking	Cider	Hat
11.00-12.00	Chocolate	Juice	Egg	Reindeer	Pencil

Winter infographics

01

Mercury

Mercury is the closest planet to the Sun

02

Mars

Despite being red, Mars is actually a cold place

03

Neptune

Neptune is the farthest planet from the Sun

Winter infographics

Despite being red, Mars is actually a cold place. It's full of iron oxide dust

Venus has a beautiful name and is the second planet from the Sun. It's very hot

Mercury is the closest planet to the Sun and the smallest of them all

Winter infographics

MARS

Despite being red, Mars is a cold place

Mercury

Mercury is the closest planet to the Sun

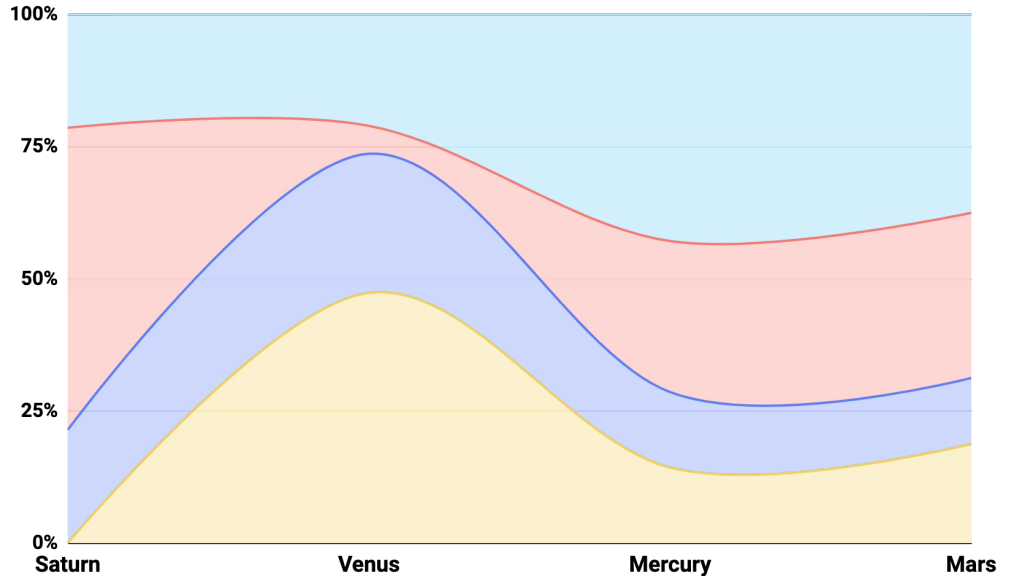

Venus

Venus has a beautiful name, but it's hot

Saturn

Saturn is a gas giant and the ringed planet

If you want to modify this graph, click on it follow the link, change the data and replace it

Winter infographics

Venus

Venus has a beautiful name, but it's terribly hot

01

Mars

Despite being red, Mars is actually a cold place

02

Jupiter

It's a gas giant and the biggest planet in the Solar System

03

Mercury

Mercury is the closest planet to the Sun

04

Winter infographics

Jupiter

Jupiter is a gas giant and the biggest planet

Neptune

Neptune is the farthest planet from the Sun

Mercury

Mercury is the closest planet to the Sun

Venus

Venus has a nice name, but it's very hot

Mars

Mars is a cold place full of iron oxide dust

Winter infographics

01

\$100

Venus has a beautiful name, but it's terribly hot

02

\$124

Despite being red, Mars is actually a cold place

03

\$235

It's a gas giant and the biggest planet in the Solar System

04

\$553

Mercury is the closest planet to the Sun and the smallest

05

\$109

It's composed mostly of hydrogen and helium

infographics

You can add and edit some **infographics** to your presentation to present your data in a visual way.

- Choose your favourite infographic and insert it in your presentation using Ctrl C + Ctrl V or Cmd C + Cmd V in Mac.
- Select one of the parts and **ungroup** it by right-clicking and choosing “Ungroup”.
- **Change the color** by clicking on the paint bucket.
- Then **resize** the element by clicking and dragging one of the square-shaped points of its bounding box (the cursor should look like a double-headed arrow). Remember to hold Shift while dragging to keep the proportions.
- **Group** the elements again by selecting them, right-clicking and choosing “Group”.
- Repeat the steps above with the other parts and when you’re done editing, copy the end result and paste it into your presentation.
- Remember to choose the “**Keep source formatting**” option so that it keeps the design. For more info, please visit [Slidesgo School](#).
