

General Layout – Option 1. IRE 2

Refurbishment in Tver

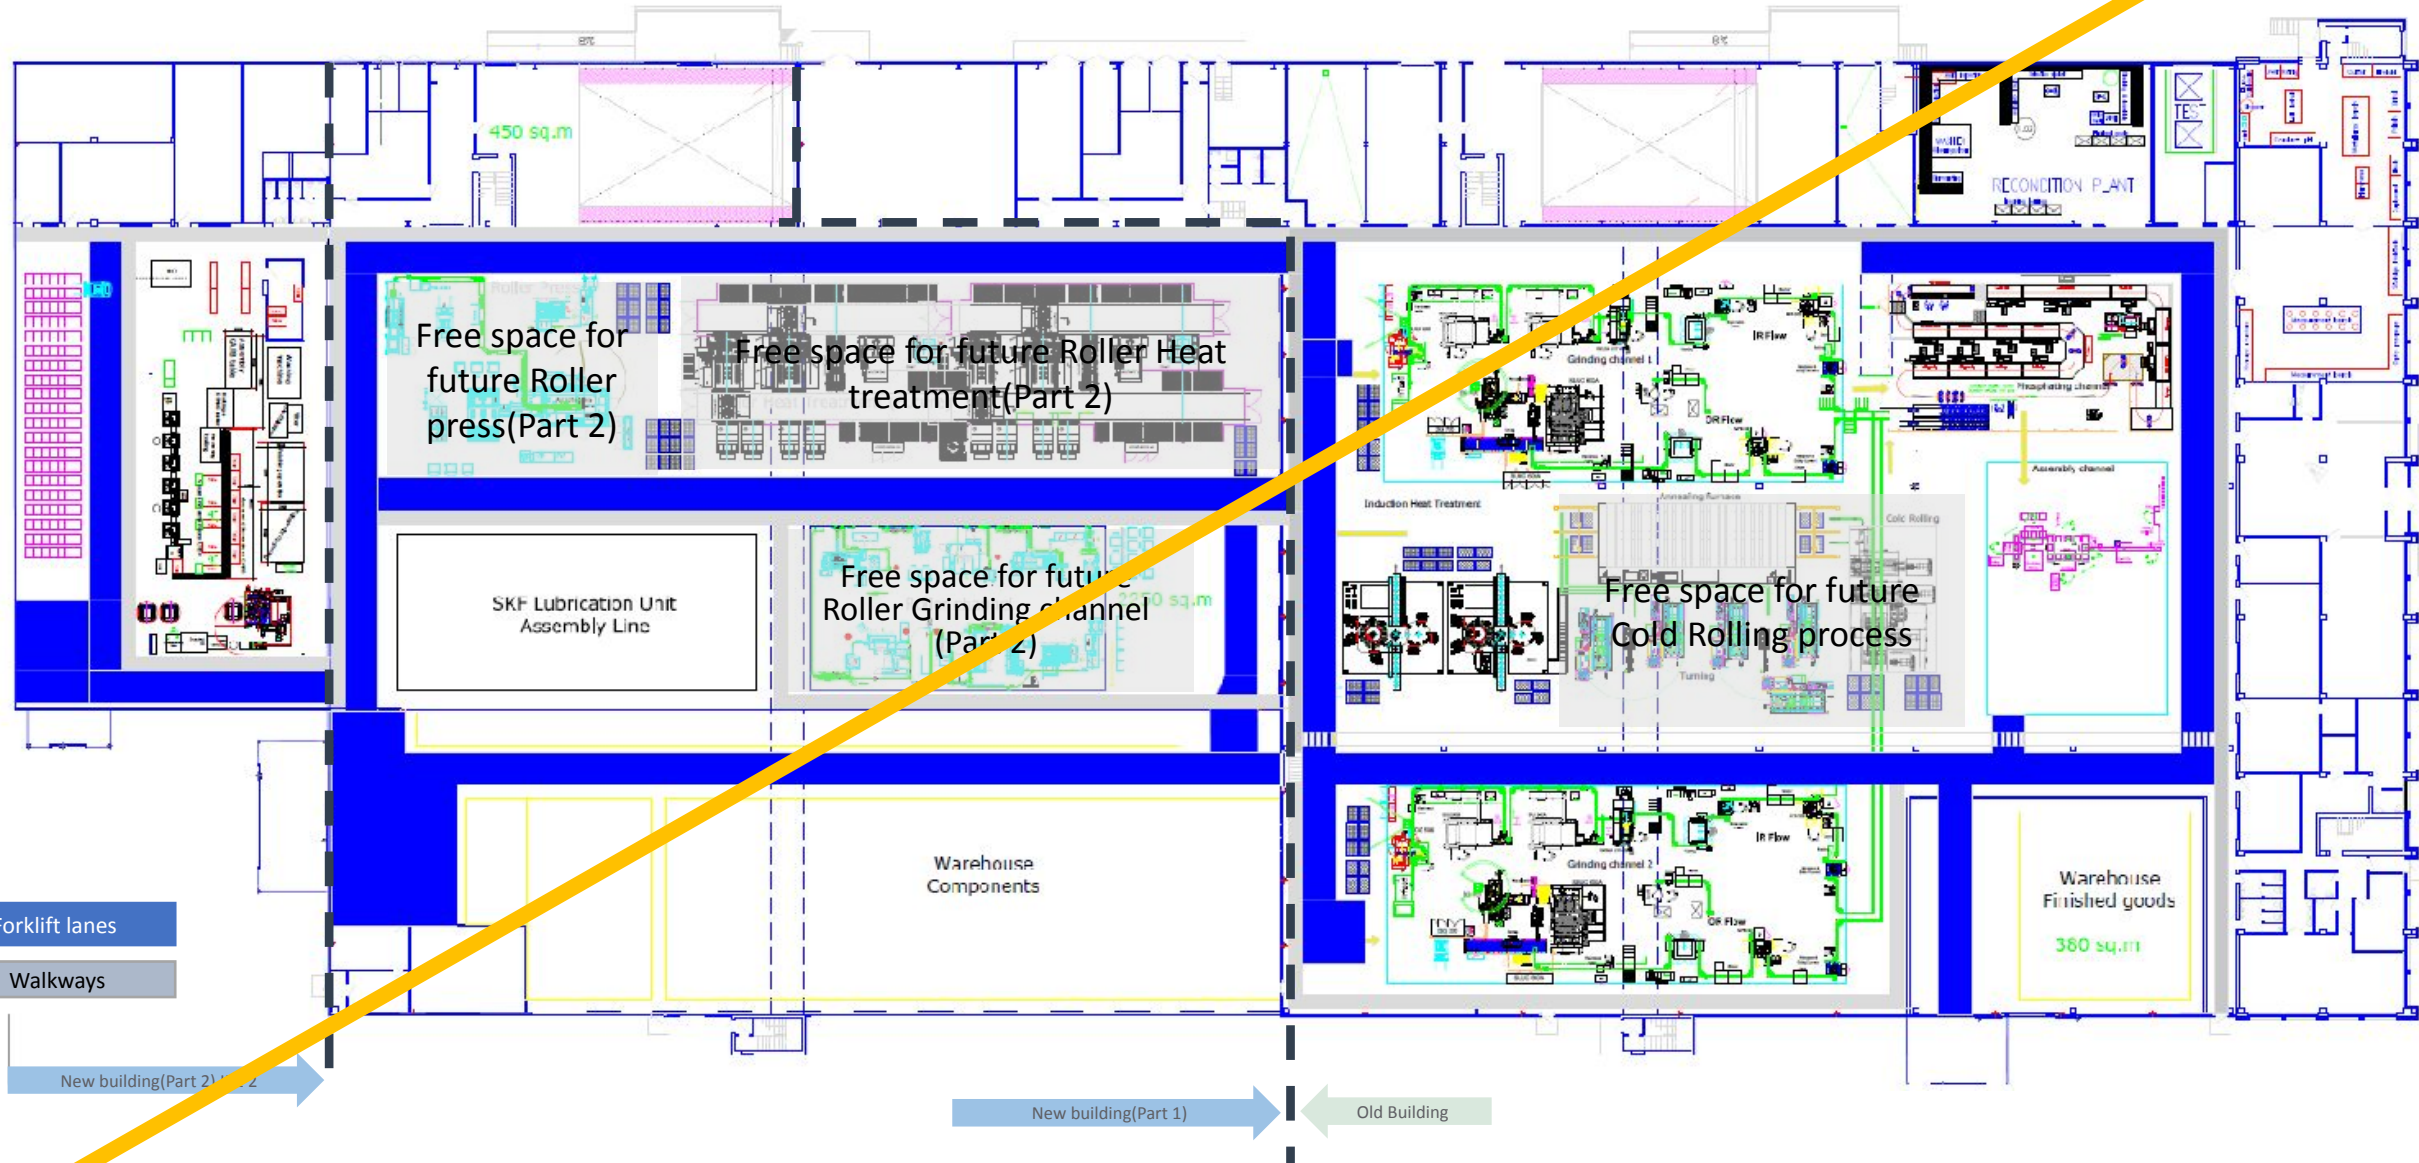

Increasing the capacity

- IRE 1 – Locomotive Project: Installation of 2-nd Grinding channel, creating space for Rollers production, new warehouse.
- IRE 2 – Refurbish Tver project

Factory Layout – IRE 1 + IRE 2

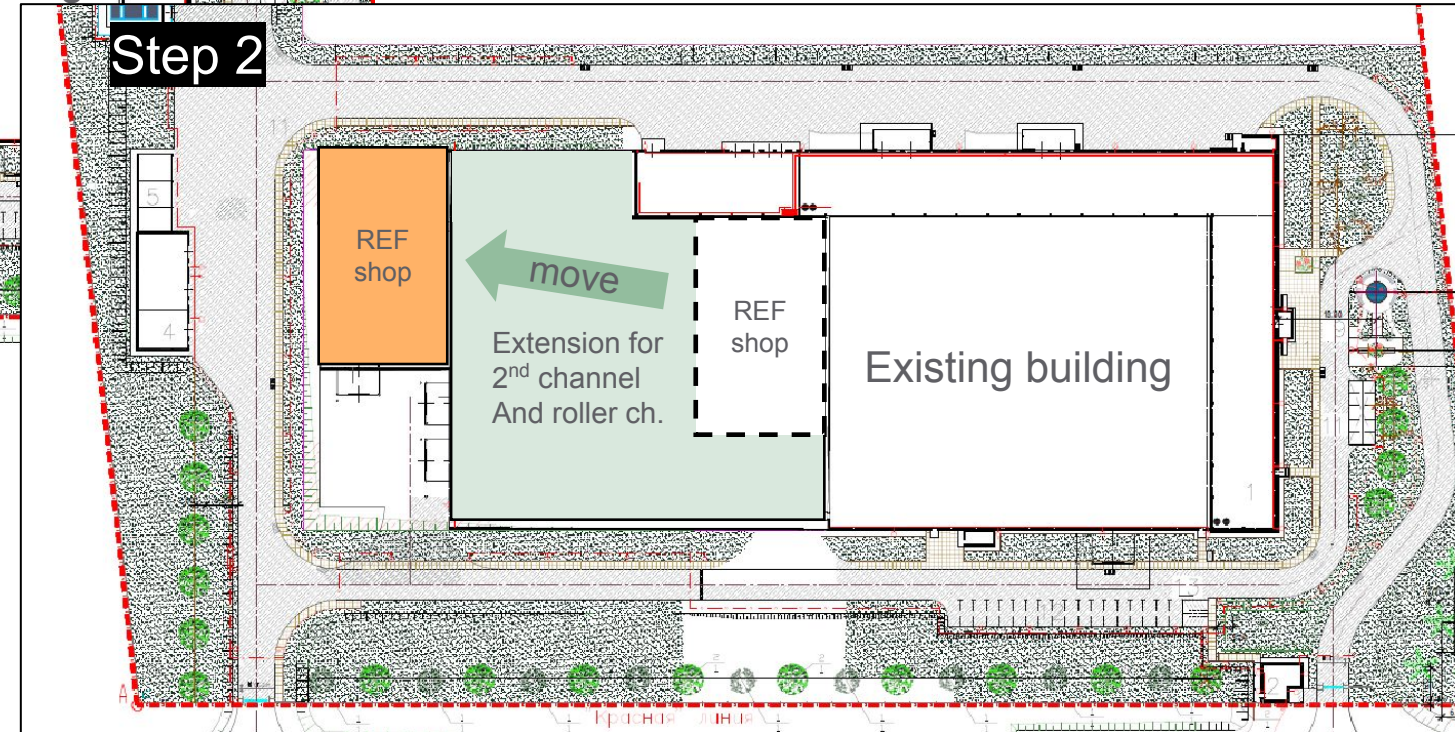

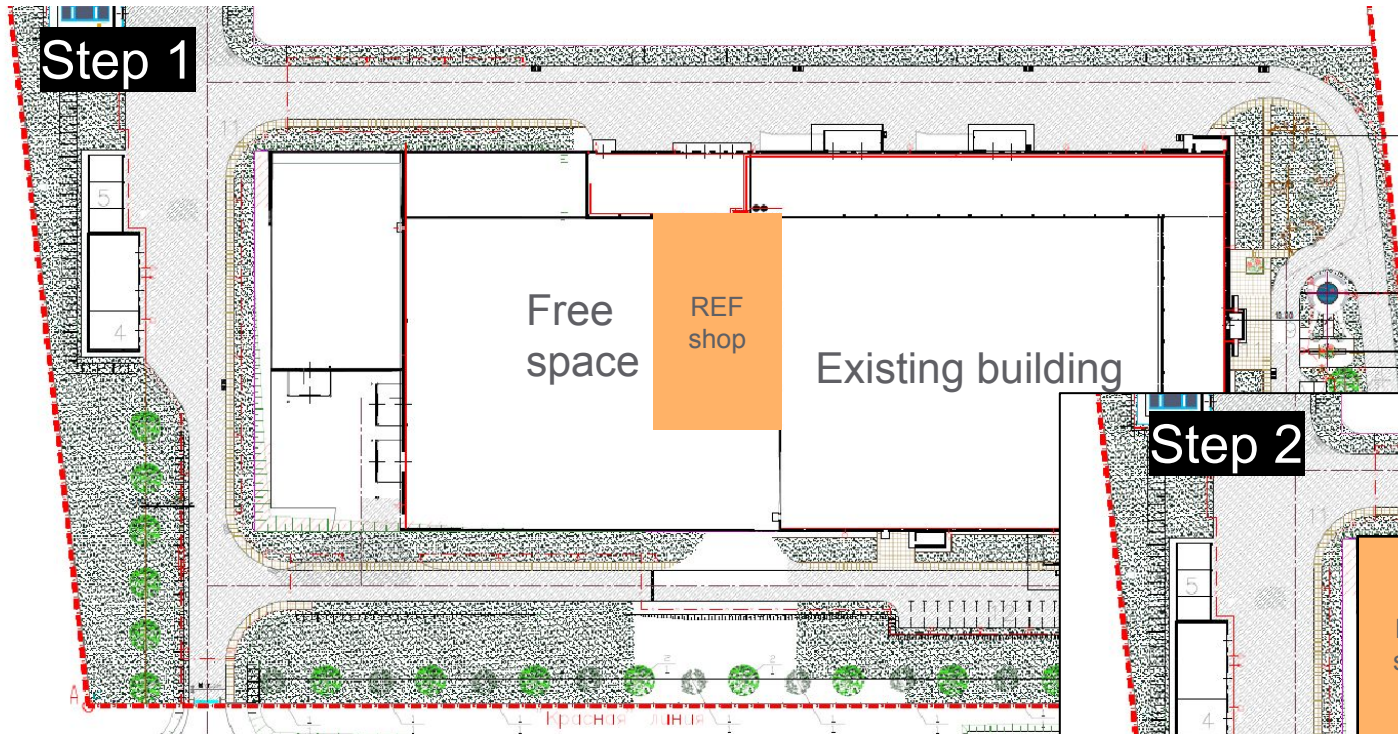

Refurbishment in Tver
Increasing the capacity

No conflict with future plans

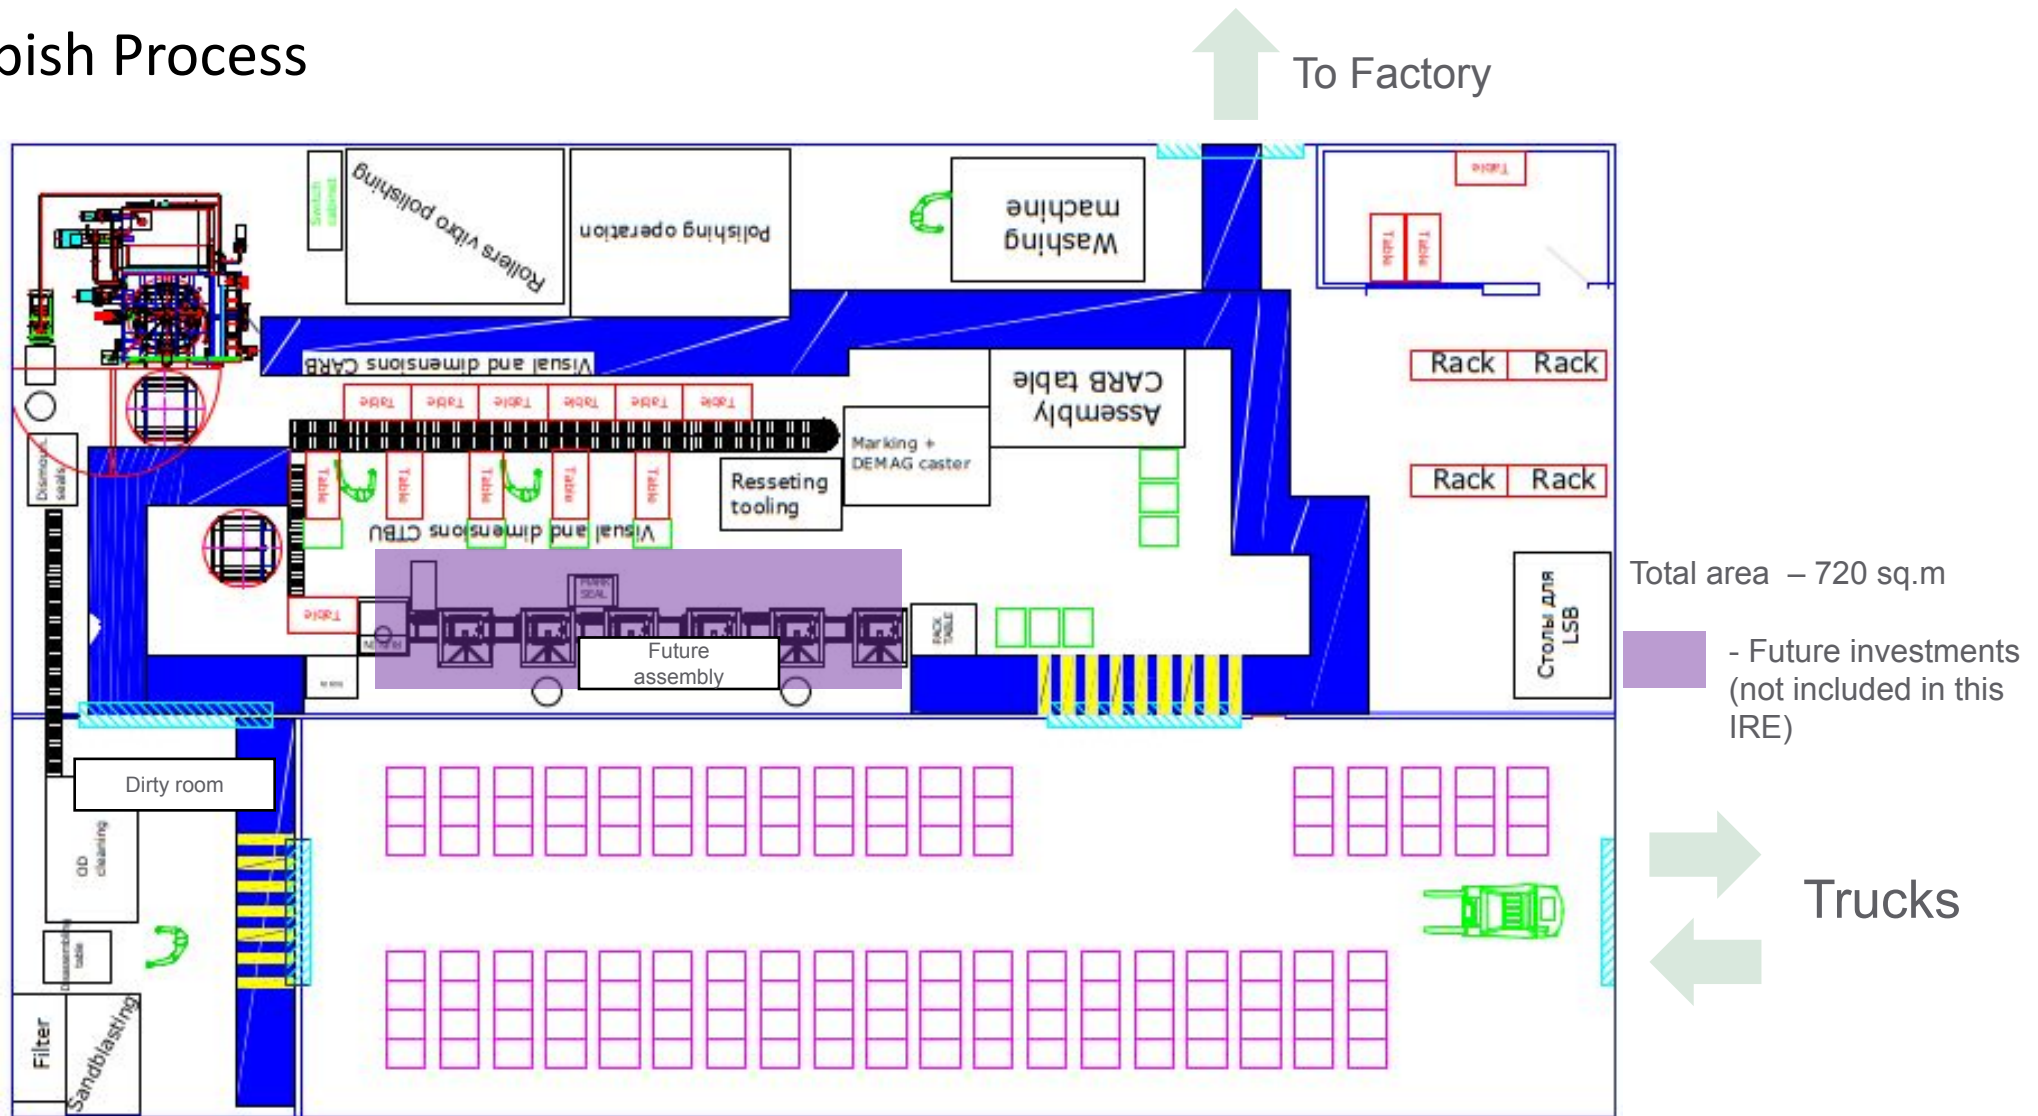

Refurbishment in Tver

Increasing the capacity

All valuable elements of Step1
(foundation, walls etc) will give value
during Step 2, only minor waste.

Tver New Refurbish Process

Factory Layout - Step 1
