

General Layout – Option 1. IRE 2

- IRE 1 – Locomotive Project: Installation of 2-nd Grinding channel, creating space for Rollers production, new warehouse.
- IRE 2 – Refurbish Tver project

Factory Layout – IRE 1 + IRE 2

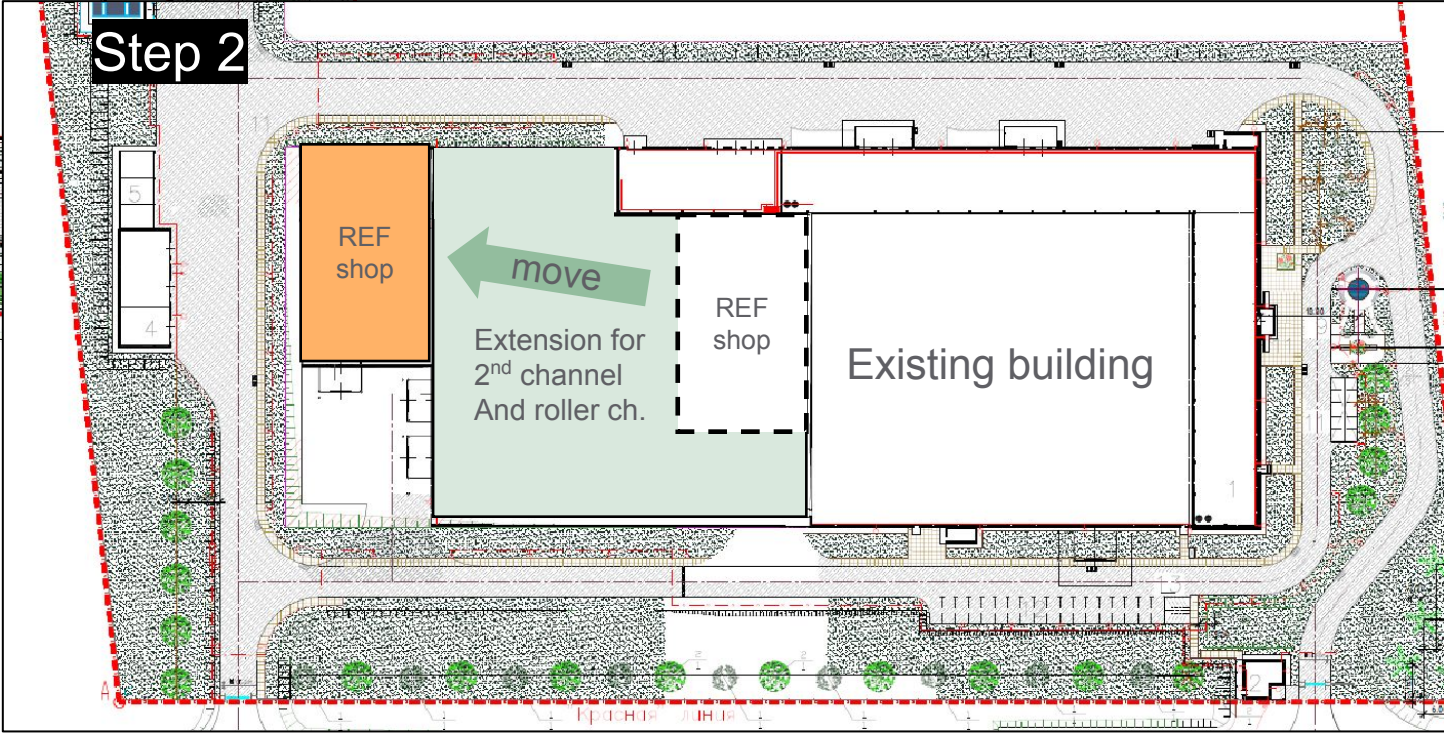

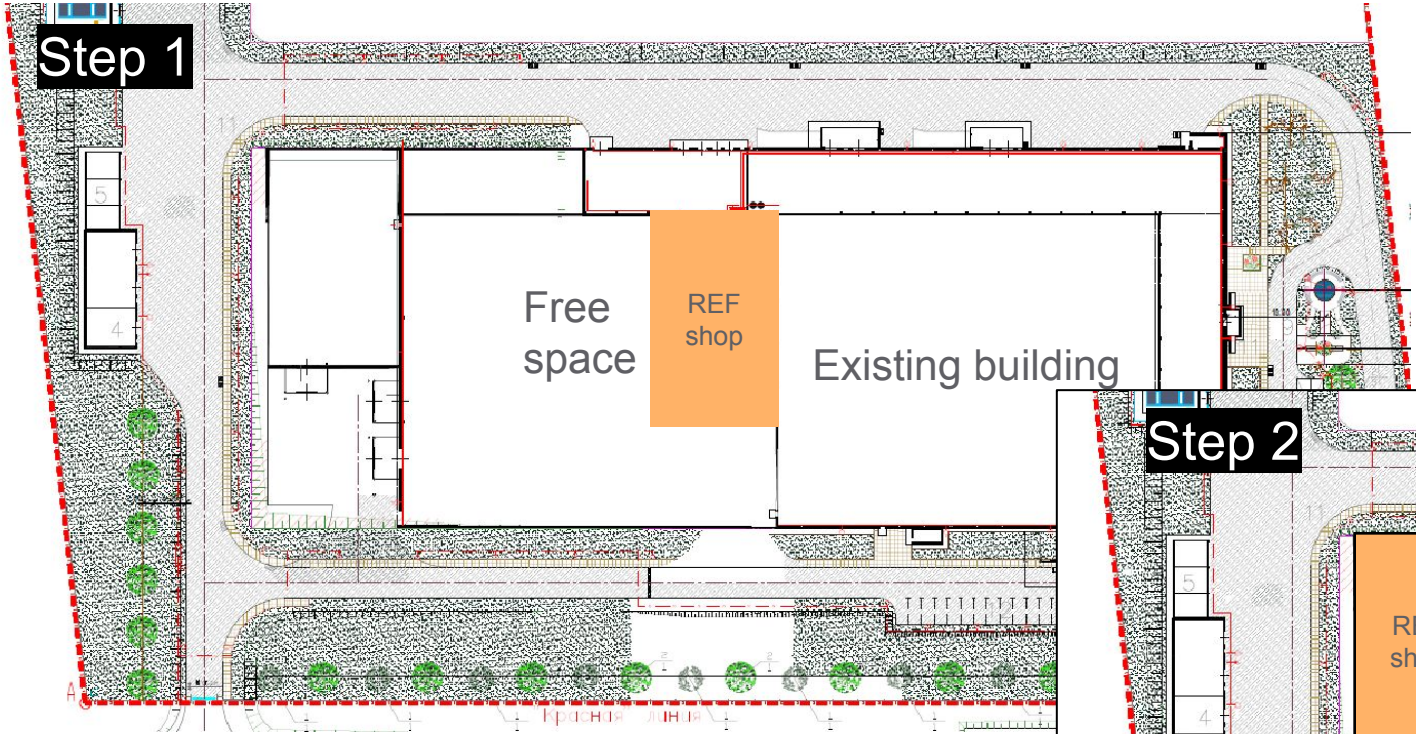

Forklift lanes
Walkways

New building (Part 2)

New building (Part 1)

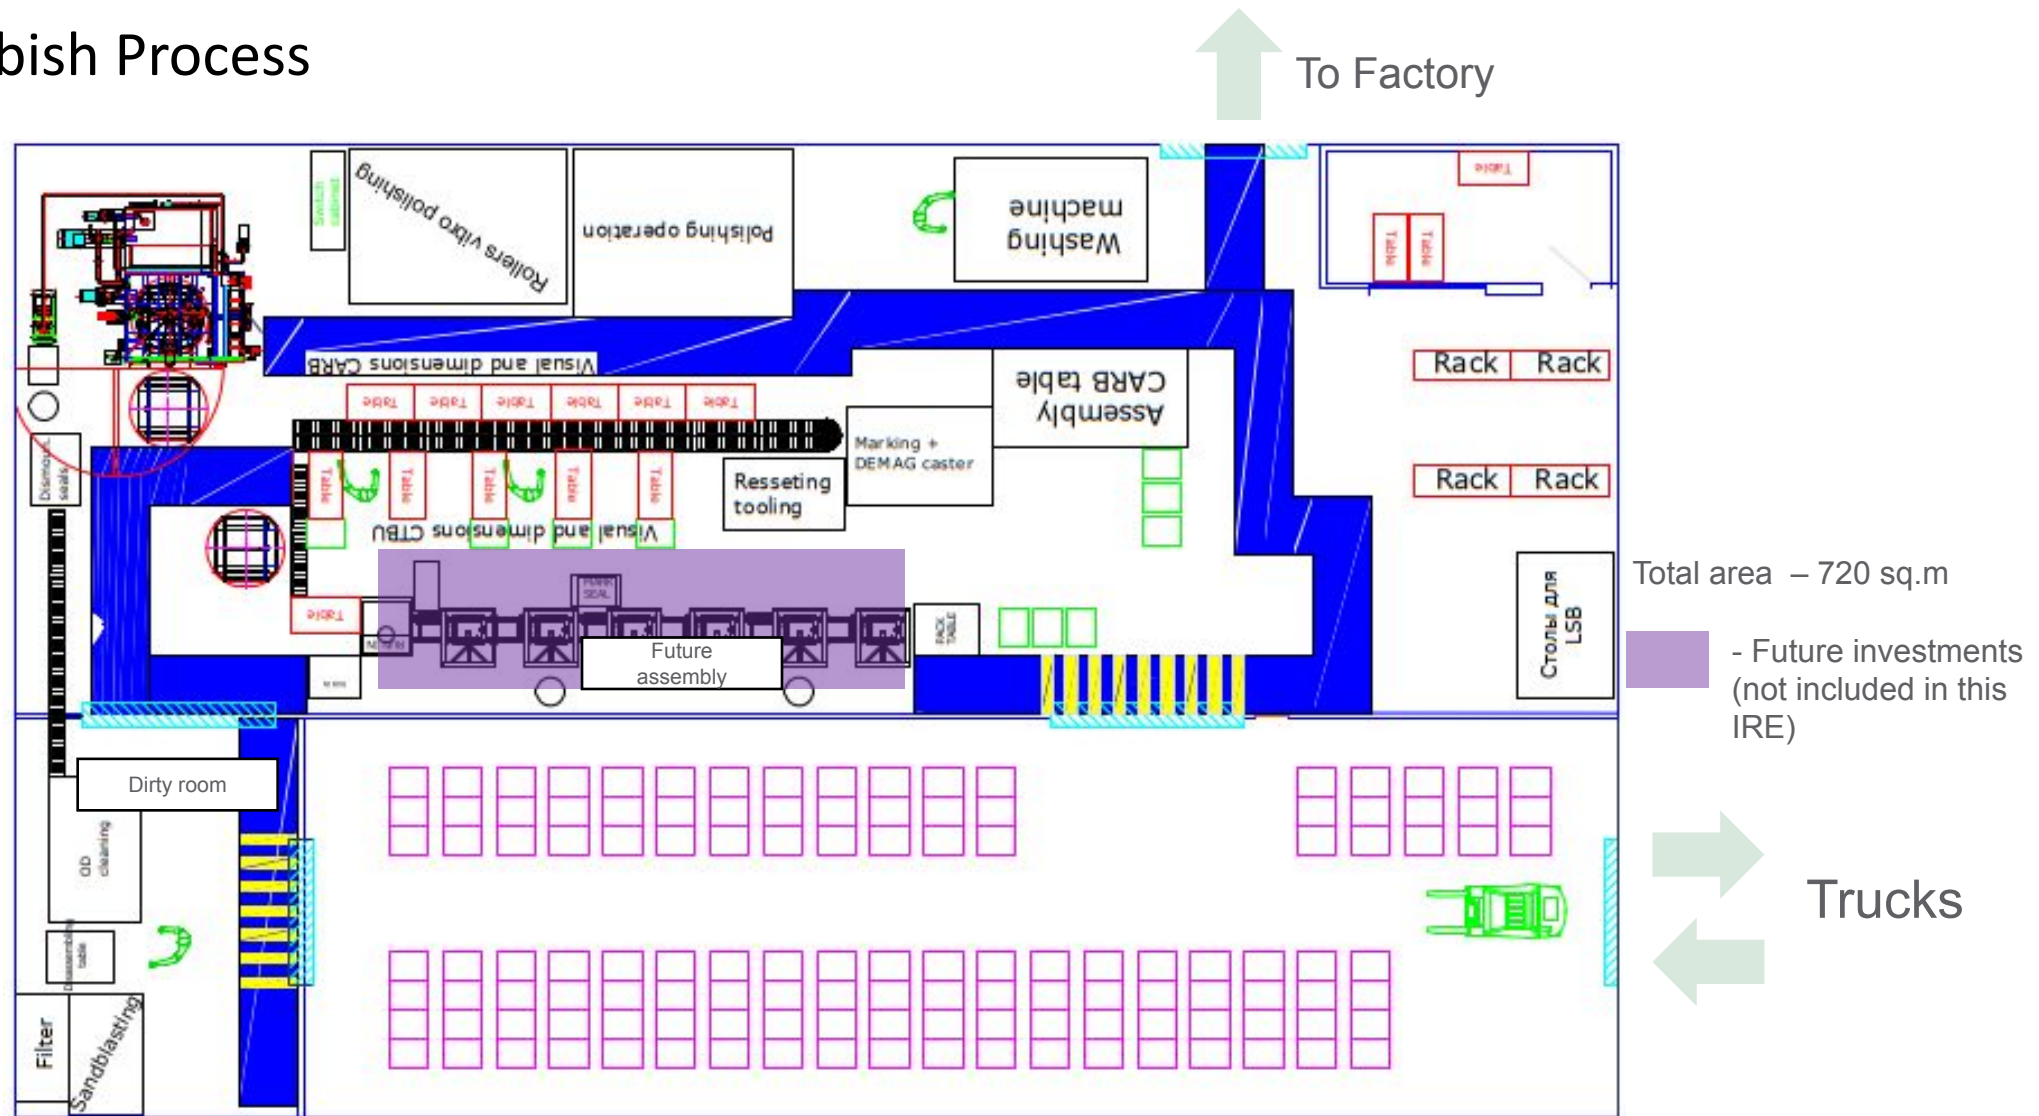

Old Building

No conflict with future plans

All valuable elements of Step1
(foundation, walls etc) will give value
during Step 2, only minor waste.

Tver New Refurbish Process

Factory Layout - Step 1
