Instructions

- 1) Choose nine words or questions that you'd like to practise with your students.
- 2) Write a vocabulary clue, add in a picture or write a question on each of the nine squares on the grid.
- 3) Divide students into two teams.
- 4) Students select a square on the grid (the numbers are there to support this). If they can tell you the answer to the question or answer the vocabulary clue that you've given, click on the square to remove the text and choose a nought or a cross symbol.
- 5) The first team to get three in a row wins!
