

CAUTION GLASS!

ПОДГОТОВИЛ: КЛИМАЧЕВА

ГРУППА А-2-16

- **YURI LUKYANENKO, A RESIDENT OF THE SMOLENSK VILLAGE OF LIPOVO, BUILT HIMSELF A TWO-STORY HOUSE FROM A BOTTLE IN WHICH HE LIVED WITH HIS WIFE, DAUGHTER AND TWO SHAGGY CATS.**

- **IN TOTAL THERE ARE 30-35 THOUSAND BOTTLES, OR RATHER I WILL NOT SAY - WHO NEEDS IT, LET IT COUNT, BUT 420 BOTTLES ARE NEEDED FOR ONE SQUARE METER OF THE WALL, - HE SAYS.**

- **THE WALL THICKNESS, THUS, IS 60 CM. THE HEATING IN THE HOUSE IS OVEN, AND THE GLASS HOUSE KEEPS THE HEAT WARM.**

- **INSIDE THE HOUSE THEMSELVES, AND YOU WILL NOT UNDERSTAND THAT IT IS BUILT OF GLASS: ON THE TOP OF THE WALL SHEATHED WITH PLASTERBOARD, ON TOP - WALLPAPER.**
