

Ручные ШВЫ

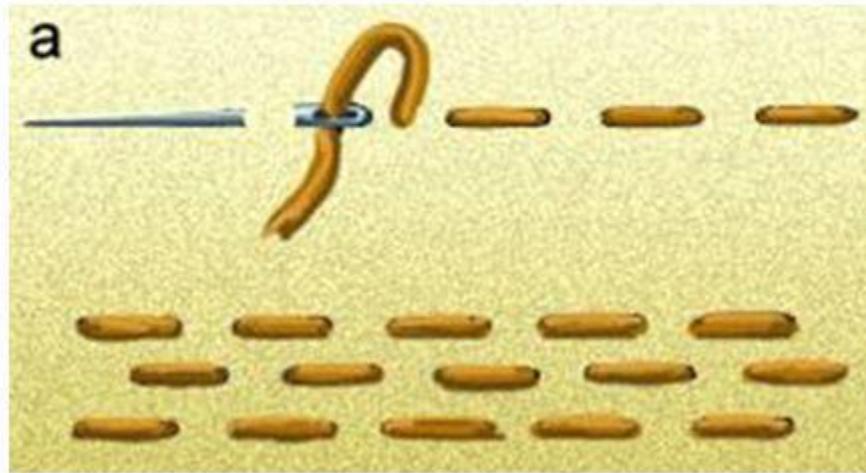

Педагог
Ничипор О.В.

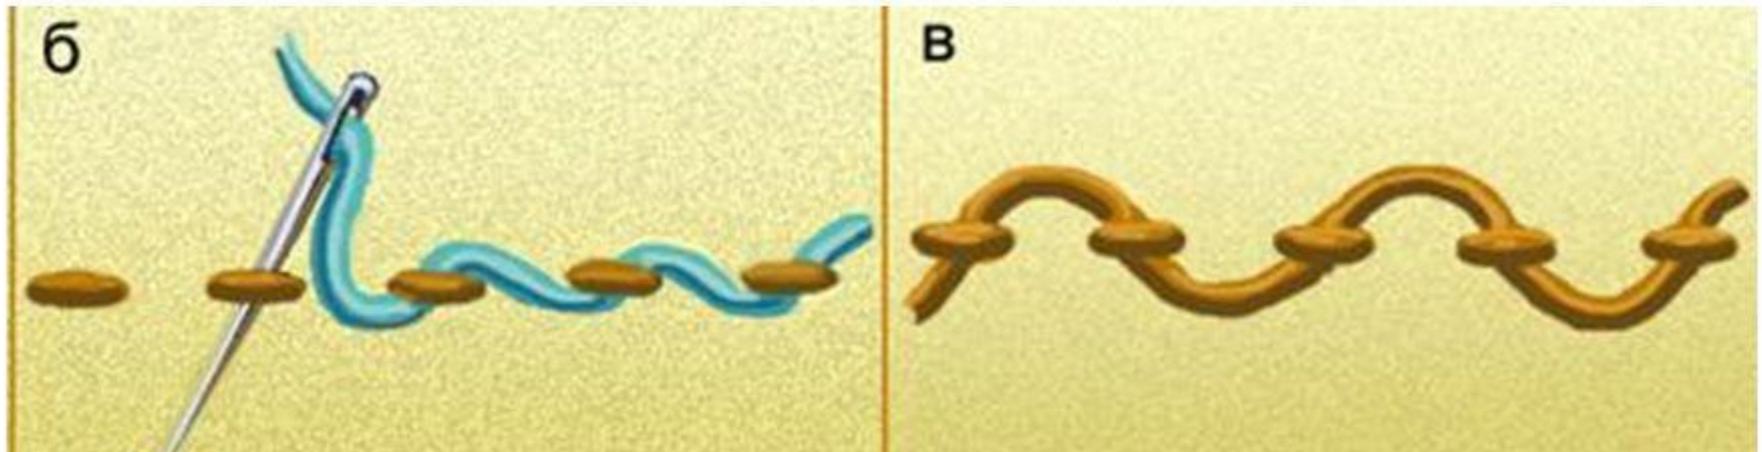

Шов «вперед иголку»

Шов «Вперед иголку»

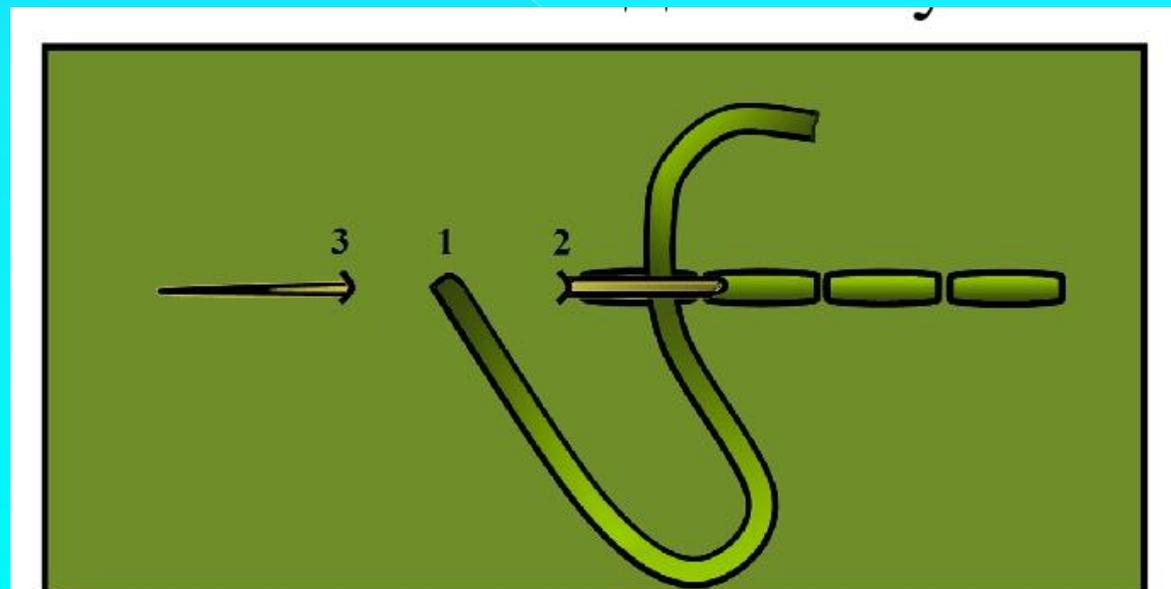

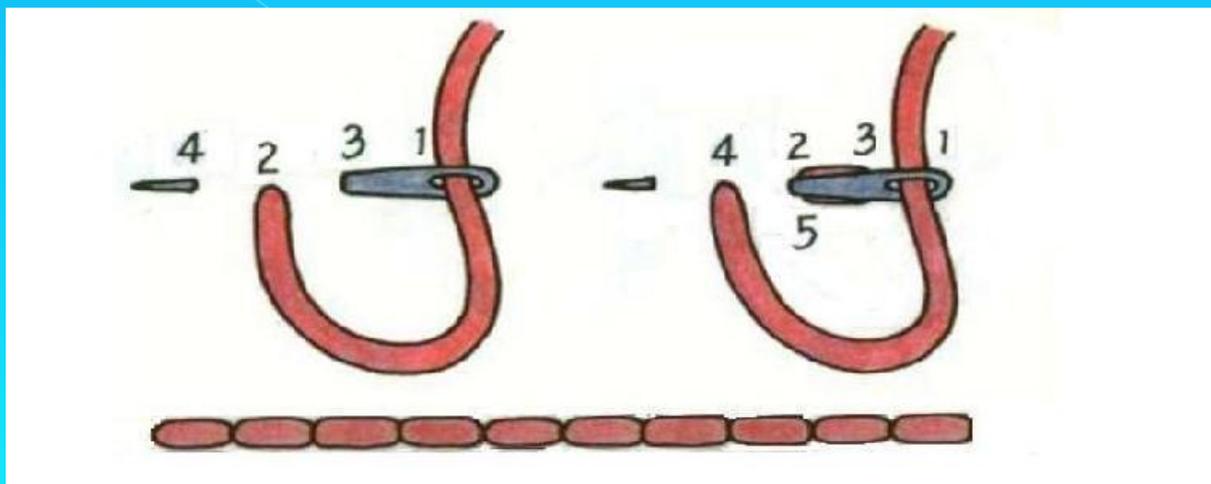

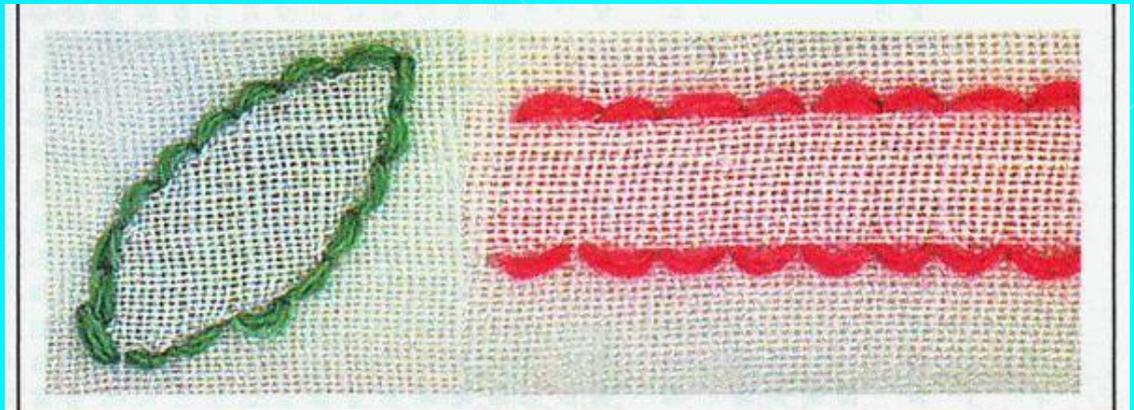

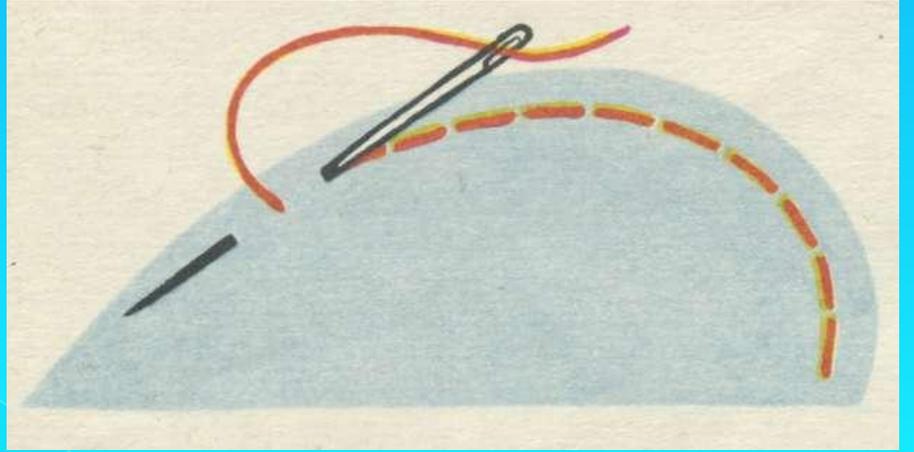

Шов «Вперед иголку с перевивом»

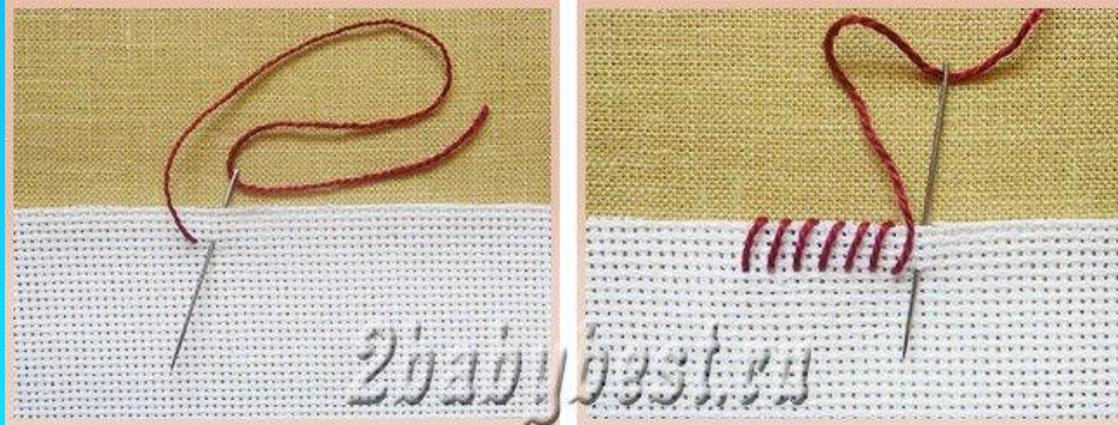

Шов «НАЗАД ИГОЛКУ»

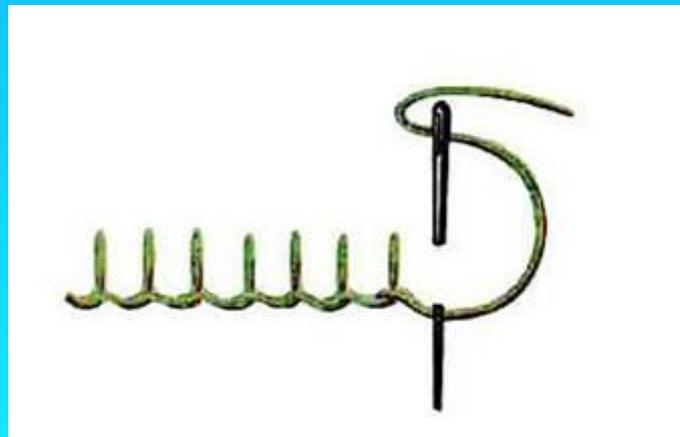

Шов «через край»

Петельный шов

Плотный петельный шов

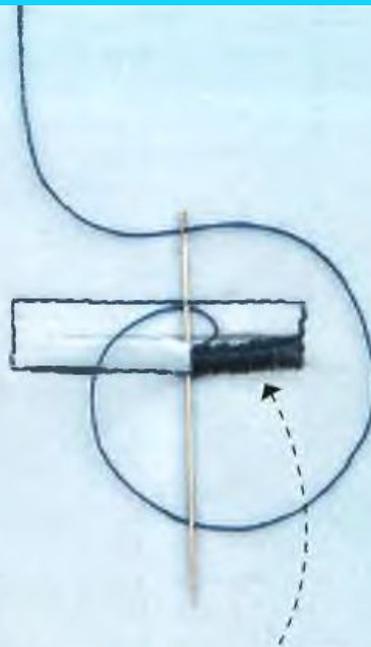

Попрактикуйтесь на обрезках ткани перед тем, как работать на изделии.

1 Отметьте петли желаемой длины на лицевой стороне изделия, затем пристрочите на машинке прямоугольник шириной 5 мм и такой же длины, как длина петли. Аккуратно сделайте прорезь по центру этого прямоугольника.

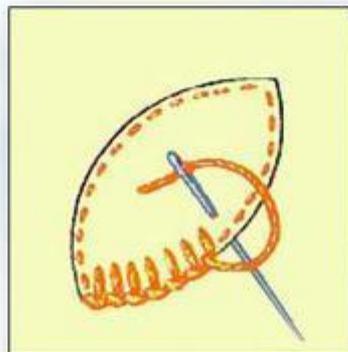

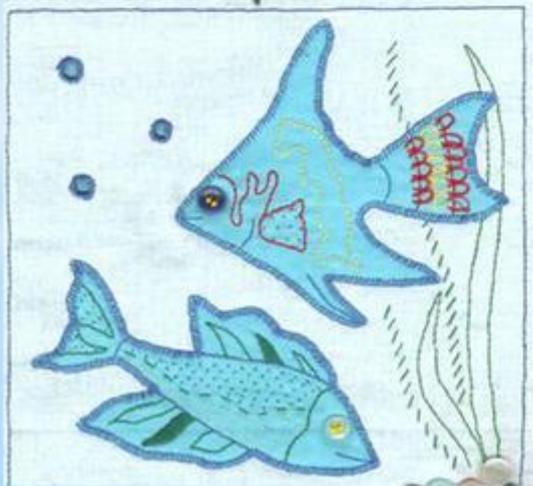

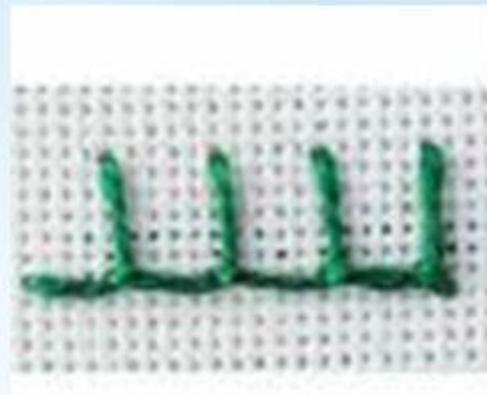

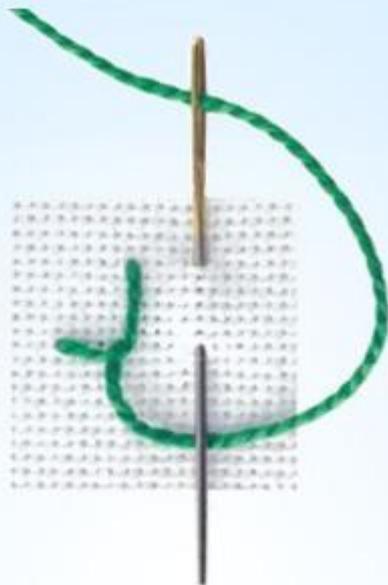

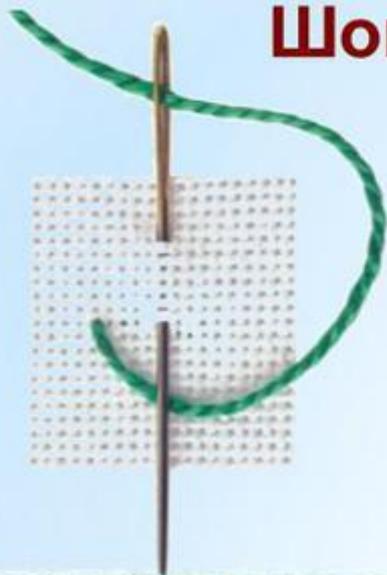

2 Толстой прочной нитью выполните портновский петельный стежок (как показано) вдоль обоих краев прорези.

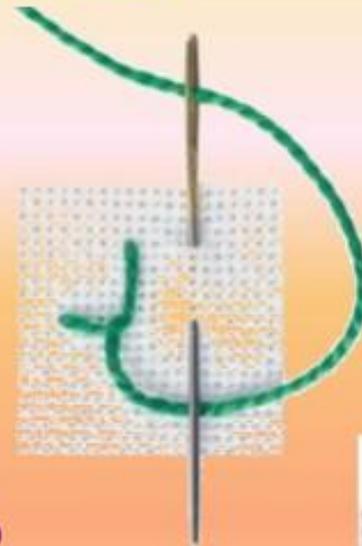

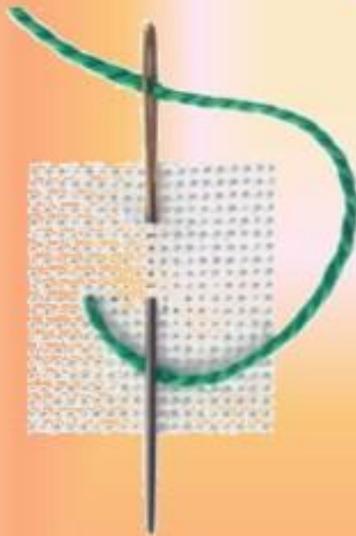

3 Закончите каждый конец петли тремя или четырьмя стежками в полную ширину петли.

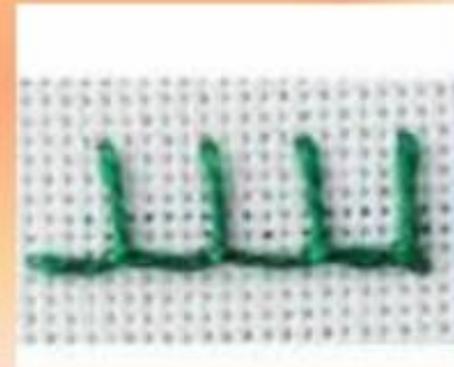

Шов «Петельный»

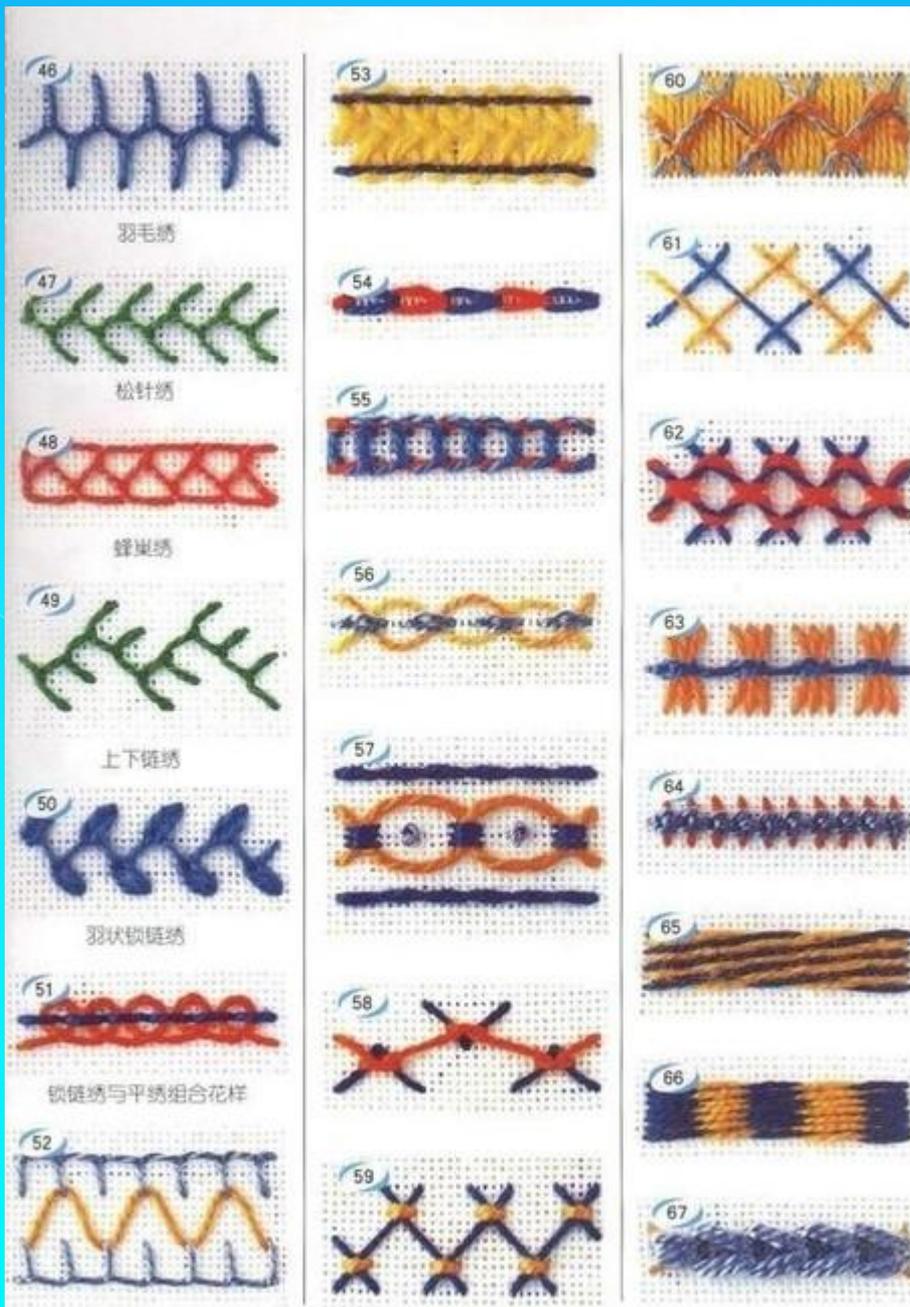

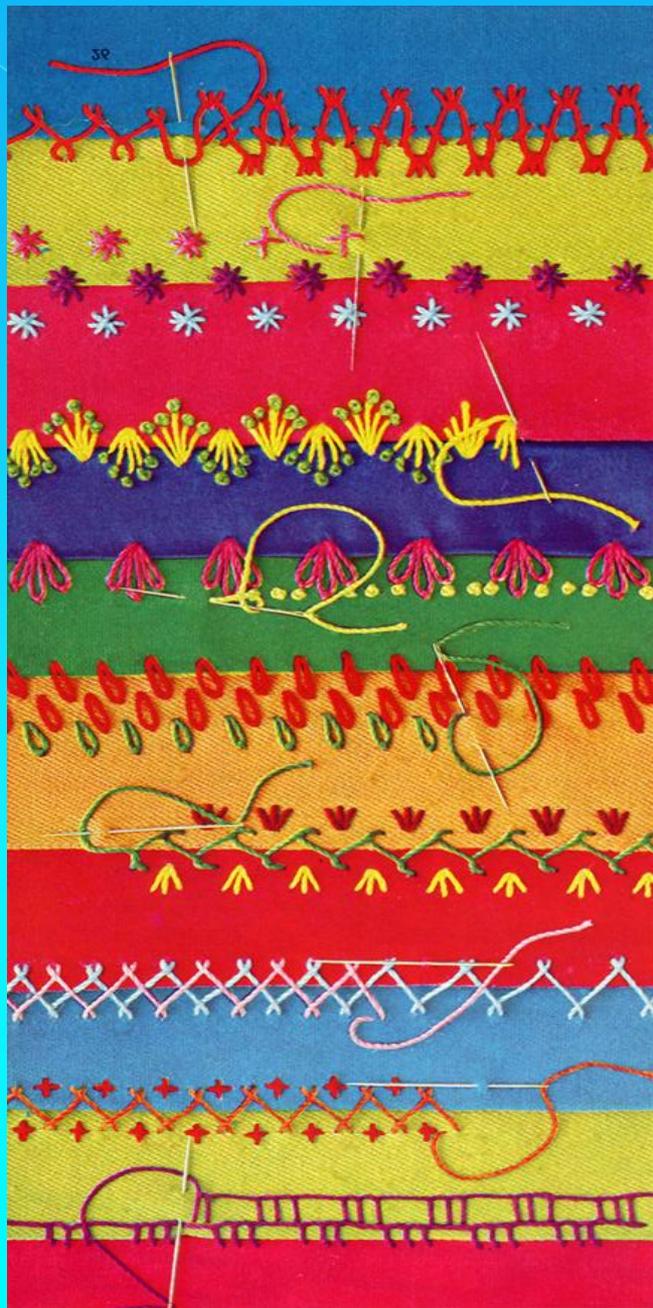

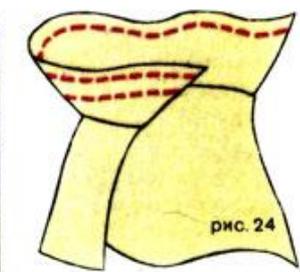

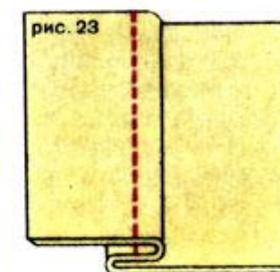

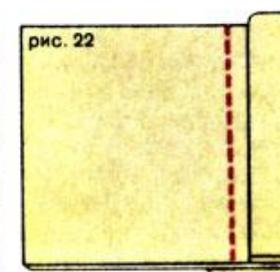

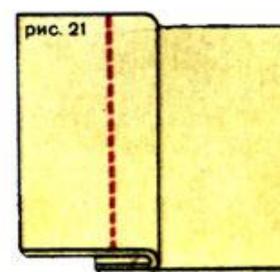

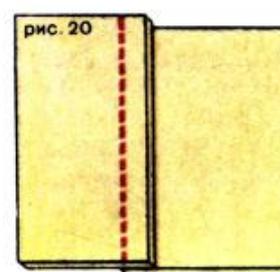

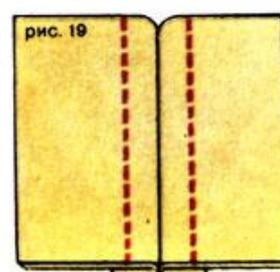

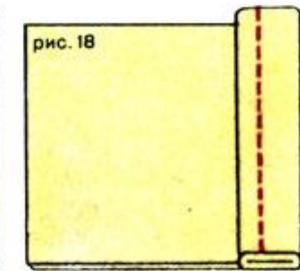

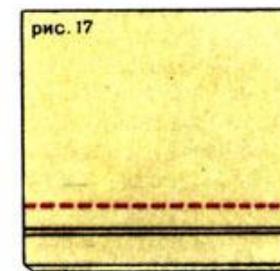

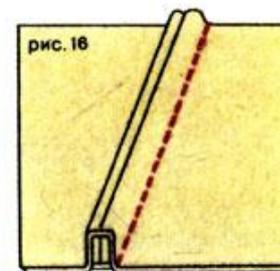

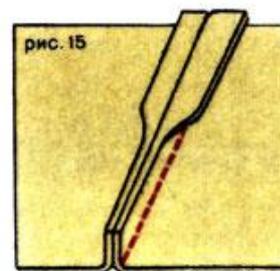

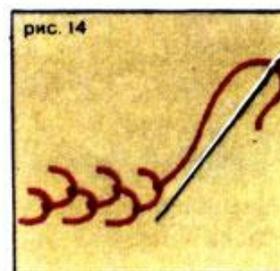

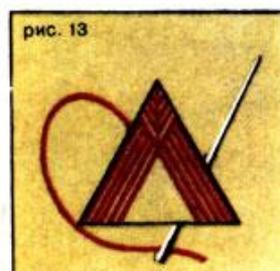

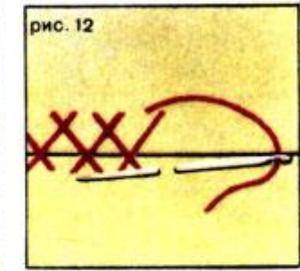

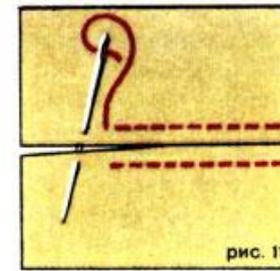

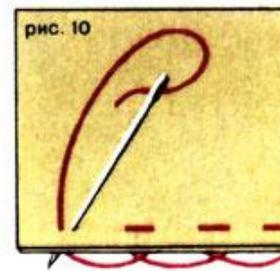

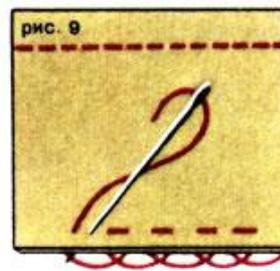

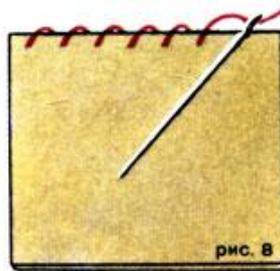

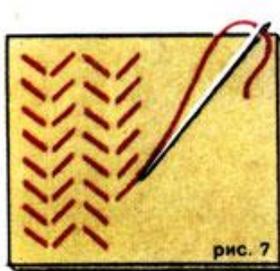

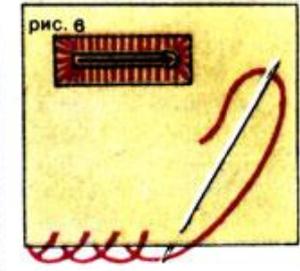

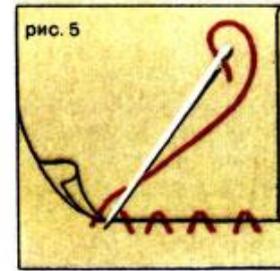

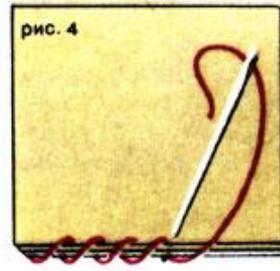

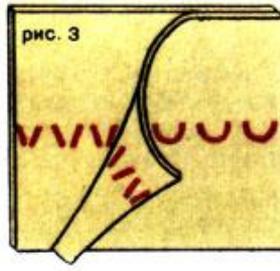

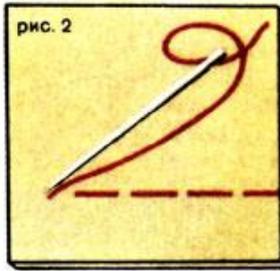

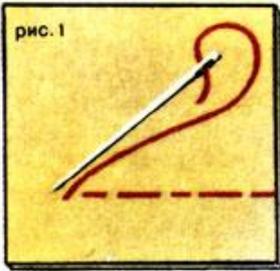

Петельный шов

Ряд петельных стежков, расположенных по краю изделия- этим швом можно закрепить аппликацию, обработать край изделия
