

ANCIENT PEOPLE IN RUSSIA

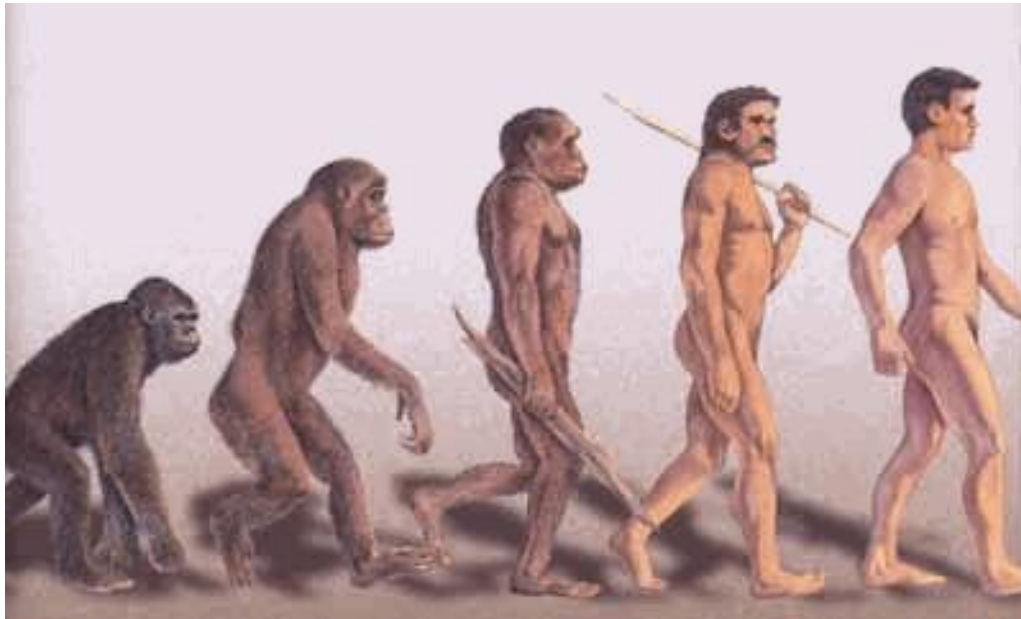

АНЦИЕНТ ЛЕОДГЕ ИИ КИССИА

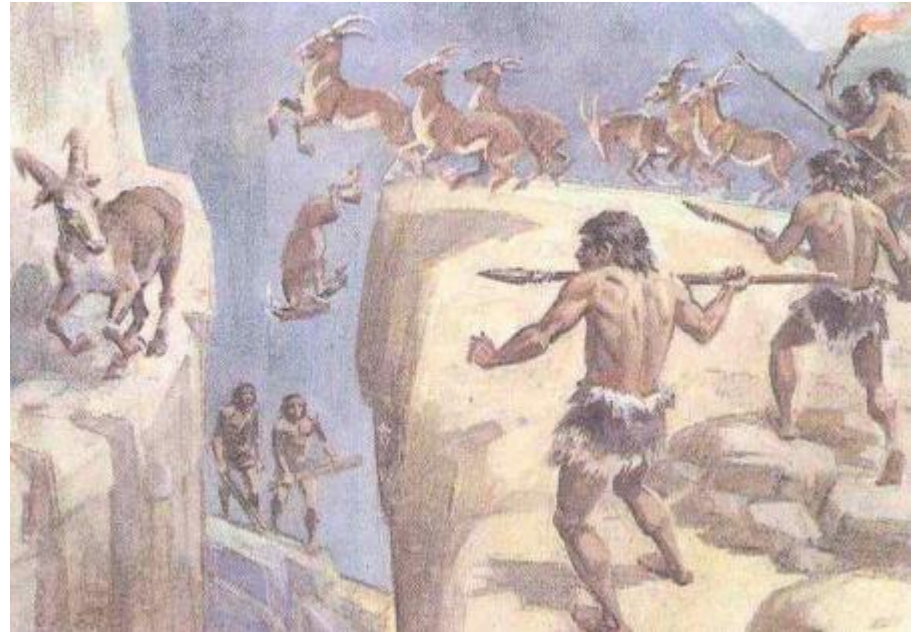

- In territory of our Fatherland the primitive person has appeared in древнекаменный а century. About 700 years ago. Settling went from the south. Settlements were small and settled down on the big distances from each other.

- Then on change to the skilful person the person reasonable comes.
- Together with it the new culture comes also. Archeological finds tell about external shape, clothes, material culture and ritual ceremonies of that time.

- Ancient people were engaged in collecting, hunting, and later – agriculture and cattle breeding. But in the north as the basic employment there is a hunting and fishery.

- With the advent of an iron axe began possible to clear away sites of wood under an arable land, agriculture moved ahead all further on the North. Application of metal instruments of labour has raised productivity of all kinds of economic activities of people.
