

The background of the image shows a hand typing on a computer keyboard. Overlaid on this is a semi-transparent digital world map. The map is connected by a network of lines and nodes, with several circular icons containing human figures placed at various points across the globe. The overall color scheme is dominated by blue and white tones, giving it a high-tech, digital feel.

Computers

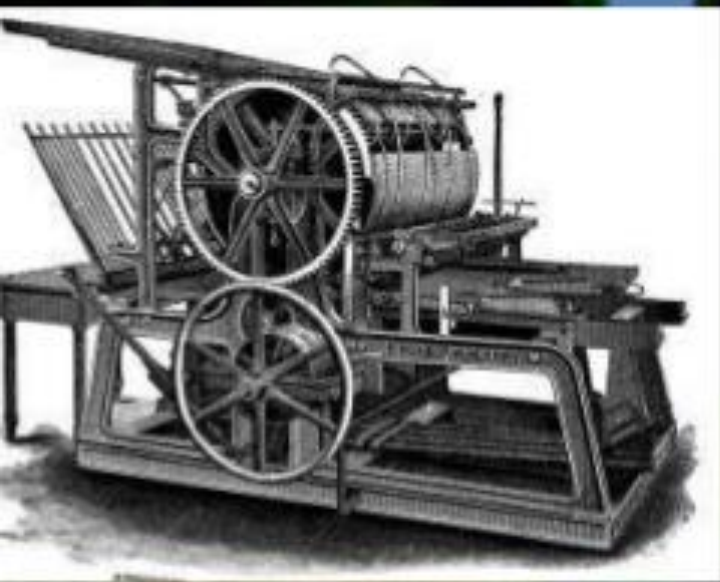

as

ICT

PC

A diagram illustrating the connection between a PC and two types of media. At the top center, the letters 'PC' are displayed in a large, orange, 3D-style font within a white rounded rectangle. Two blue arrows point downwards from the 'PC' box to two separate green rounded rectangles. The left green box contains the text 'Communication Media' in blue, with 'Communication' underlined and 'Media' on a new line. The right green box contains the text 'Audiovisual Media' in blue, with 'Audiovisual' underlined and 'Media' on a new line. In the center foreground, a black USB cable is plugged into the ground, with its connector pointing upwards. The background is a blurred image of small green plants growing in soil.

Programs in an Ordinary Modern PC

Microsoft Office

Windows Media Player

Disadvantages

- They are generally costly
- Decreases the amount of human interaction
- Availability and development of software or computer programmes
- Instructions tend to be boring and repetitive.

- expensive, time consuming and may require more programming expertise
- Lack of infrastructure
- They consume a lot of power.
- Over use of multimedia may divert the attention from the main content.
