

The background of the image shows a hand typing on a computer keyboard. Overlaid on this is a semi-transparent digital world map. The map is connected by a network of lines and nodes, with several circular icons containing human figures placed at various points across the globe. The overall color scheme is dominated by blues and purples, giving it a high-tech, digital feel.

Computers

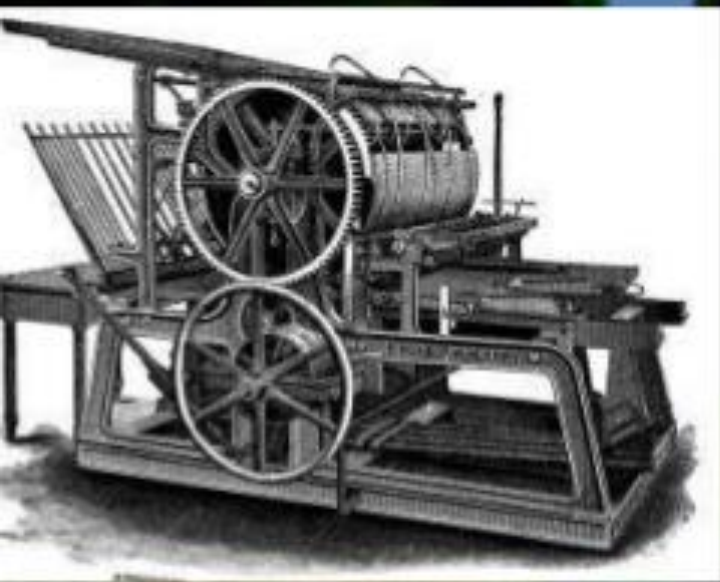

as

ICT

BY: Bolatbekov Aibar

What is ICT

- It is an umbrella term that includes all technologies for the communication of information.
- ICT can be defined as the use of hardware and software for efficient management of information. ICT refers to the forms of technology that are used to transmit, store, create, share or exchange particular task.
