

The background of the image shows a hand typing on a computer keyboard. Overlaid on this is a semi-transparent digital world map. The map is connected by a network of lines and nodes, with several circular icons containing human figures placed at various points across the globe. The overall color scheme is dominated by blue and white tones, giving it a high-tech, digital feel.

# Programs in an Ordinary Modern PC

## Microsoft Office

## Windows Media Player

## Disadvantages

- They are generally costly
- Decreases the amount of human interaction
- Availability and development of software or computer programmes
- Instructions tend to be boring and repetitive.

- expensive, time consuming and may require more programming expertise
- Lack of infrastructure
- They consume a lot of power.
- Over use of multimedia may divert the attention from the main content.
