

Today I'm going to talk about
how to dry the thing in 20
minutes

- I would like to start by If you urgently need to dry the clothes, use the microwave. First, I will talk about that things with metal locks, buttons and panels in microwave oven can not dry.

- So, let us begin with, you need to get dirty and wash it. Moving on to squeeze well and put in the microwave.

- Then set the timer for 20 minutes.

- 
- And last but not least to dry a thing is better with a one minute break, to open the door of the microwave oven every 5 minutes. This will allow a couple, and therefore the moisture to evaporate.

In conclusion, you can see that that thing completely dry.
