## how to dry the thing in 20 minutes

 I would like to start by If you urgently need to dry the clothes, use the microwave. First, I will talk about that things with metal locks, buttons and panels in microwave oven can not dry.

So, let us begin with, you need to get dirty and wash it.
Moving on to squeeze well and put in the microwave.

• Then set the timer for 20 minutes.

 And last but not least to dry a thing is better with a one minute break, to open the door of the microwave oven every 5 minutes. This will allow a couple, and therefore the moisture to evaporate.

## In conclusion, you can see that that thing completely dry.
