The Traditional English Breakfast

Traditionally, people in Britain have enjoyed a substantial hot meal for breakfast, featuring eggs, bacon, and sausage, accompanied by toast and tea or coffee. Many other items (kedgeree, grilled or fried tomatoes, baked beans, fried sliced bread, fried potato and mushrooms) may be included depending on taste and location.

The traditional English breakfast is called the 'Full English' and sometimes referred to as 'The Full English Fry-up'!

Many people eat lunch while at work or school. Employers and schools usually provide a lunch break in the middle of the day, lasting as much as an hour. Some factories and schools have canteens where you can eat.

But the packed lunch is the most common thing to eat. A packed lunch normally consists of some sandwiches, a packet of crisps, an apple and a can of something to drink, for example, coca-cola. The contents are kept in a plastic container and you take it with you when you go to school or work.

Also, we know it's a British stereotype but many British teenagers still like drinking a **nice cup of tea** in the morning.*

Оборот «there is/there are».

There is используется, когда говорим в единственном числе или используем неисчисляемые существительные. **There are** — для множественного числа

There is one table in the classroom.

There are three cats on the couch.

There is a spider in the bath.

There are many sinners in Hell.

«**There is**» также используем

с **неисчисляемыми существительными** (uncountable nouns):

There is milk in the fridge.

There is some sugar on the table.

There is ice cream on your shirt.

Сокращения (contractions). «There is» в упрощенном варианте становится «**there's**». Почти всегда в неформальной переписке или в разговорной речи используется именно такой вариант оборота.

There's a good song on the radio.

There's only one chocolate bar left in the box. Сокращать, как известно, можно по-разному, но обратите внимание на вариант с «are»:

there is not = **there's** not = there **isn't** / there are not = there **aren't**. There's no contraction of «there are». Pay attention!

Правила употребления some

1. Использование some с неисчисляемыми существительными в значении «немного»:

There is some tea in the cup. – В чашке есть немного чая.

К неисчисляемым существительным английского языка, как правило, относятся такие категории существительных, как вещественные, абстрактные, то есть то, что нельзя посчитать.

2. Также some употребляется с исчисляемыми существительными, стоящими во множественном числе в значении «несколько», «некоторые»:

Some pupils brought interesting books. – Несколько учеников/ некоторые ученики принесли интересные книги.

3. Еще один случай употребления неопределенного местоимения some – с исчисляемыми существительными в единственном числе, при этом значение будет «какой-то»: Some guy called and wanted to talk with you. – Звонил какой-то парень и хотел поговорить с тобой.

Как правило, some и его производные употребляются в утвердительных предложениях, но также есть случаи, когда местоимение some используется в вопросительных предложениях.

1. Когда мы хотим попросить о чем-то или наоборот, предложить что-то:

Would you like some soup? – Не хотели бы Вы немного супа?

Can I have some cold milk, please? – Можно мне холодного молока, пожалуйста?

Есть еще одно правило употребления some в английском языке. Местоимение some можно использовать с предлогом of в значении «некоторые из». В данном случае перед существительным необходимо поставить либо определенный артикль, либо указательное или притяжательное местоимение.

Some of my friends are going to Moscow this week. – Некоторые из моих друзей собираются в Москву на этой неделе.

Some of the houses were destroyed during the fire. – Некоторые из домов были разрушены во время пожара.

Правило употребления местоимения any

Местоимение any и все его производные обычно употребляются в отрицательных и вопросительных предложениях:

I don't have any problems at school. – У меня нет проблем в школе.

Do you have any news? – Есть какие-нибудь новости?

Также есть правила для случаев, когда any употребляется в утвердительных предложениях:

1. Когда имеется в виду «любой», «всякий», «что угодно», «где угодно», «как угодно»:

Anyone can do this. – Любой может это сделать.

2. В придаточных предложениях после «if»: If you have any questions let me know. – Если у вас будут вопросы, дайте знать.

Если в предложении уже имеются нижеперечисленные наречия и предлог с отрицательным значением:

Hardly \ Scarcely \ Never \ Without \ Seldom \ Rarely

I seldom go anywhere at night. – Я очень редко выхожу куда-либо ночью.

Without any doubt, he is a good person. – Без сомнения, он хороший человек.

He never stays alone at home. – Он никогда не остается дома один.

Если местоимение any употребляется с предлогом of, то на русский язык конструкция будет переводиться как «любой»:

You can take any of these books they are all very interesting. – Можешь взять любую из этих книг, они все очень интересные.

Но стоит запомнить правило с any, что производные от местоимения, такие как anyone, anybody, anywhere, не могут использоваться с предлогом of.

После производных местоимений можно использовать наречие else в значении «еще», «кроме».

Are you going to tell me anything else? – Ты хочешь мне сказать что-то еще?

Does anybody need extra paper? – Кому-нибудь еще нужна бумага?

Правило употребления местоимения **no**

Местоимение **no** употребляется как перед исчисляемыми существительными, так и перед неисчисляемыми. Само предложение, в котором есть местоимение **no** приобретает отрицательное значение. Стоит отметить, что глагол в предложении с **no** будет всегда в положительной форме, поскольку двойного отрицания в английском языке нет.

I have no tasks to do now. – Сейчас мне нечего делать.

We have no juice at home. Please, go to the shop. – У нас дома нет сока.
