# LA SAMARITAINE

A photograph of the Eiffel Tower in Paris, France, illuminated at night. The tower is the central focus, glowing with golden lights against a dark, purple and pink twilight sky. The base of the tower is visible, with some lights and structures. The foreground is dark, with some trees and streetlights on the left and right sides. The text "Bienvenue en France" is overlaid in a white, elegant script font across the middle of the image.
