

A memorable event from my life

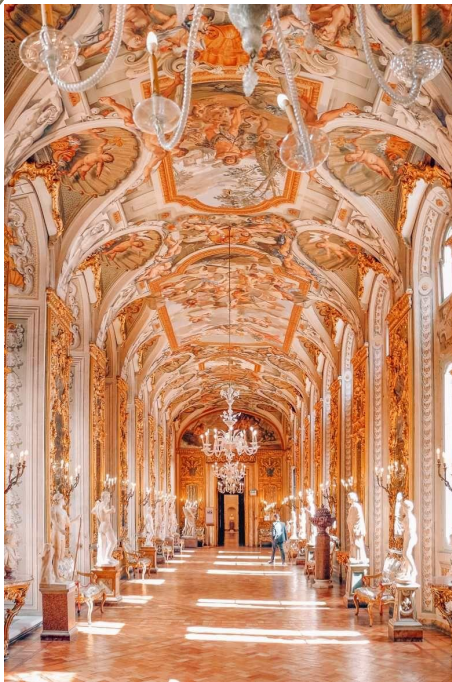

Muntyan Eva

A trip to Italy

3 Years ago I visited Italy with my grandparents. We were in different cities, so now we have a lot of nice memories. We stayed there for 8 days. The weather was amazing, so we have walked a lot and we also took many wonderful photos.

The first city we have visited was Rome. The architecture there is very beautiful. If you are into photography, you definitely need to visit this city. Despite the fact that we got lost in Rome, this city has become one of my favorites. I hope that one day I will be able to visit this city again

The second city I want to tell about is Venice. The atmosphere in this city is magical. I can enjoy the view of Venice endlessly. By the way, in this city we also got lost, but this situation won't change my opinion about this amazing city.

And of course I can't be silent about Italian food. If you think that Italian pizza as tasty as pizza you can buy in Ukraine I can say that you are wrong. I can say the same about tiramisu. If one day you will come to Italy, you can be sure, you will eat all the time.

Thank you for your
attention!! 😊

I can strongly recommend
everyone to visit this country
