What do you do with your free time?

I'm **almost** 19 years old, and I finished my first year of university. I'm **currently** on holiday, and I have a lot of **free time**. Having free time is nice, but the problem is that when you are a student, you never have money.

And when you have a lot of free time, but you don't have much money, it can get **boring**.

Every morning I go to the gym, and I read in the afternoons. But I still have a lot of free time. Going to the gym takes me about two hours, **including** the road time and the post-gym shower. And I usually read for one hour. Another activity that I do is **watch** documentaries. I study history, and I love historical documentaries. I learn a lot from them. I watch documentaries for one and a half hours four or five times a week.

But those activities are a small part of my day. When I'm not at the gym or reading, I get **bored**, and I often play video games for hours. I **enjoy** playing video games, but I don't think it's a **productive** activity. When I play for a long time, I feel bad. I'd like to **find** more productive activities to do, but it isn't **easy**. I live in a small town, and there aren't many things to do.

Do you have any **suggestions**? What do you do with your free time?
