Interesting Facts About Family Day

When is Family Day created?

Family day has been around since the 1990s but was not official until 2000, when it became a nationwide statutory holiday.

It is celebrated in more than 50 countries worldwide and has an app dedicated to it where you can post anything about your experience that day on Instagram.

How is it celebrated?

People of all ages can take part in this holiday, and there are many ways to celebrate. The celebration is a way to connect with loved ones and create new memories that will help shape the human experience of the future. You can also have a family day if you are not related to your family members but get along very well with them.

You can celebrate it by inviting your family over for a nice dinner in the backyard or going out to eat. You can cook whatever is your family’s favourite type of food. It is really up to you, and don’t let people’s opinions hold you back from doing what you want with your family day.

Singular and plural nouns

A singular noun names one person, place, thing, or idea, while a plural noun names more than one person, place, thing, or idea.

There are a few basic rules to remember when it comes to turning a singular noun into a plural noun.

1. Most singular nouns need an **'s'** at the end to become plural.

These are the easy ones. You can just add an 's' to alien, taco, or skateboard, for example, and you instantly have aliens, tacos, and skateboards.

There's a second rule for nouns that end with certain letters.

2. Singular nouns ending in 's', 'ss', 'sh', 'ch', 'x', or 'z' need an 'es' at the end to become plural.

Singular	Plural
bus	buses
wish	wishes
pitch	itches
box	boxes

A singular noun ending in a consonant and then **y** makes the plural by dropping the y and adding **-ies**.

Правила употребления артиклей a/an и the в английском языке

Неопределенный (indefinite article) — a/an. Используется с исчисляемыми существительными в единственном числе: яблоко, стол, ручка.

I heard a story (исчисляемое существительное в единственном числе).

– Я услышал историю.

Определенный (definite article) — the. Употребляют с исчисляемыми и с неисчисляемыми существительными независимо от их числа.

I liked the films (исчисляемое существительное во множественном числе).

– Мне понравились фильмы.

Нулевой (zero article)

— артикль не ставится с неисчисляемыми числительными, которые нельзя посчитать: вода, музыка, дождь. И с исчисляемыми во множественном числе. It is good advice (неисчисляемое существительное). – Это хороший совет.

Если перед существительными стоят притяжательные местоимения (**my, his**), указательное местоимение (**this, that**) или **числительное (one, two, etc.)** — артикль не используют. Логика такая: эти слова перетягивают на себя функцию определения — итак понятно о чем речь: *This is my vase.* – Это моя ваза. *I have one brother and two sisters.* – У меня есть брат и две сестры.

Если перед существительным стоит **прилагательное** — **артикль ставим перед ним**: *It's a sunny day.* – День сегодня солнечный.

В двух словах использование артиклей в английском языке можно описать так: неопределенный артикль берем, когда говорим не о конкретном предмете, а вообще (как с кофе). А если хотим указать на что-то конкретное — используем определенный артикль в значении «вот этот, тот самый».

В английском есть устойчивые словосочетания, которые передают однократность действий:

to have a rest – отдохнуть

to have a snack – перекусить

to make a mistake – ошибиться

to give a lift – подвезти

to play a trick – подшутить
