

How to be social succesfull

Korsakov Ivan, 10V

What is social success

Social success is a human condition when he has a more money, good work and good family.

There are 5 rules of success (from B.Parsons).

First rule

Never give up.

Almost nothing works the first time it's attempted. Just because what you're doing does not seem to be working, doesn't mean it won't work. It just means that it might not work the way you're doing it. If it was easy, everyone would be doing it, and you wouldn't have an opportunity.

Second rule

Be quick to decide.

**Remember what General George S. Patton said:
«A good plan violently executed today is far and
away better than a perfect plan tomorrow.»**

Third rule

When you're ready to quit, you're closer than you think.

There's an old Chinese saying that I just love, and I believe it is so true. It goes like this: «The temptation to quit will be greatest just before you are about to succeed.»

Fourth rule

**Focus on what you want to have happen.
Remember that old saying, «As you think, so
shall you be.»**

Fifth rule

Solve your own problems.

You'll find that by coming up with your own solutions, you'll develop a competitive edge. Masura Ibuka, the co-founder of SONY, said it best: «You never succeed in technology, business, or anything by following the others.» There's also an old Asian saying that I remind myself of frequently. It goes like this: «A wise man keeps his own counsel.»
