- Placing soldiers at the Technological Institute in March 1917
- The Technological Institute became the center of the revolution in this part of Petrograd.
- Graduates of the Institute of Technology
- Conclusion

The beginning of the First World War

Infirmary at the Institute of Technology

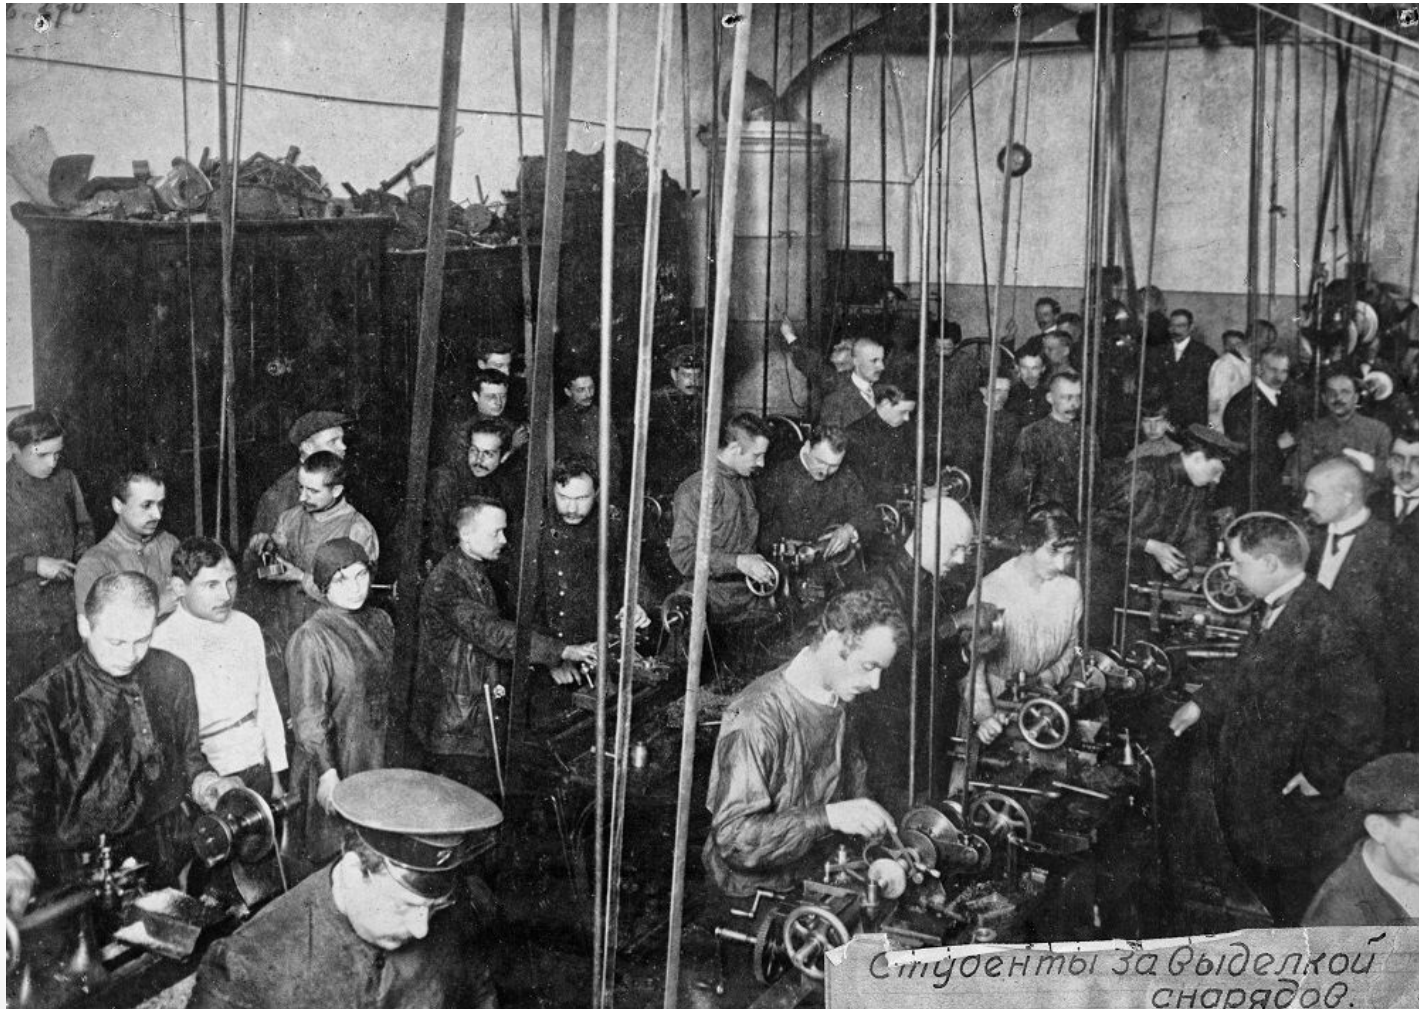

Medical staff of the infirmary

Chemical laboratory during the war

Workshops

PTI has prepared programs for short-term courses for the training of specialists

Placing soldiers at the Technological Institute in March 1917

The Technological Institute became the center of the revolution in this part of Petrograd.

During the revolutionary days, a Soviet of Workers' and Soldiers' Deputies arose in Petrograd. M.I. Broido, a deputy from Technolozhka, was also elected to the Council.

N.P. Gorbunov.

Conclusion
