MY FAVORITE CLOTHES AND ATTITUDE TO FASHION

FASHION

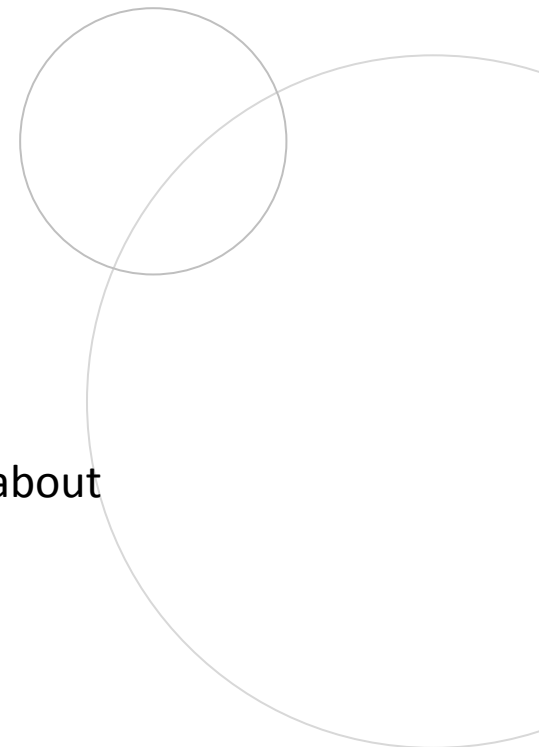

Today fashion is very important to some people and they are crazy about trends.

Usually such people like to watch fashion shows, read magazines about trends and go shopping. But for others, fashion is not important. They think «clothes are clothes».

Also there are people that
crazy about popular brands,
like GUCCI, NIKE, Lois Viton,
etc. They are ready spent a lot
of money for the name.

And what about me . I have never been interesting in fashion, also I don't crazy about branded clothes.

I like casual, comfortable and tidy clothes. I usually wear jeans, T-shirt or hoodies with interesting design and sneakers.

As you can see I prefer comfortable clothes than fashion.
