

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the left and right sides of the frame, creating a modern, dynamic feel. The central area is a clean white space where the text is placed.

***UNUSUAL MODES OF
TRANSPORT***

Jeepney

Jeepney is a form of public transport and fixed-route taxi in the Philippines. The jeepney seats up to 12 people per bench, during peak hours the number of passengers can be higher. In connection with environmental pollution, the idea of an environmentally friendly jeepney - a jeepney electric car, appeared. The so-called E-jeepneys, prototypes of which appeared in 2007

Maglev

Maglev is a system of train transportation that uses two sets of electromagnets. With maglev technology, the train travels along a guideway of electromagnets which control the train's stability and speed.
