

Branding

What is branding?

Branding is the main way of differentiation of products and the instrument of advance of the goods on the market

Branding is "modern cultural language of the modern society basing on the market relations"

History of branding

In early history of the United States of brand were often used for cattle identification

Branding was actively applied in the Middle Ages when shop handicraftsmen marked the goods with special brand

The real blossoming of idea of branding fell on the second half of the twentieth century

Branding — is the main task of any large company

Creation and advance of a brand or branding are necessary for obtaining additional benefit from a certain product at the expense of penetration into consciousness of people, formation of the attachments based on feelings and emotions

Brand creation & Brand advance

Reasonable creation of a brand is the joint creative work of the advertiser realizing the organizations and advertizing agency

Following a step is brand advance — it is activities for creation of long-term preference to the goods

Development of a brand

Rebranding - a complex of actions for brand change, or its components: names, a logo, visual registration of a brand with positioning change

In most cases development of a brand it not only branding of a new label in the market, but also change of an existing brand, that is rebranding
