Законы Ньютона

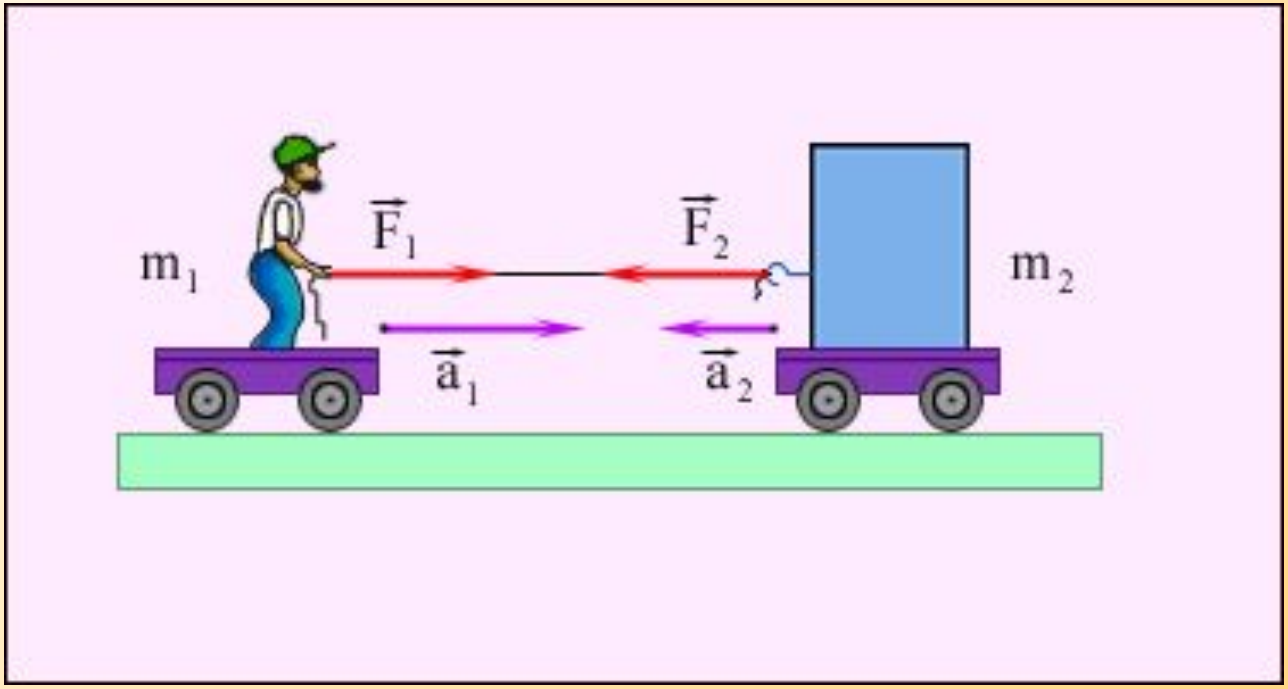
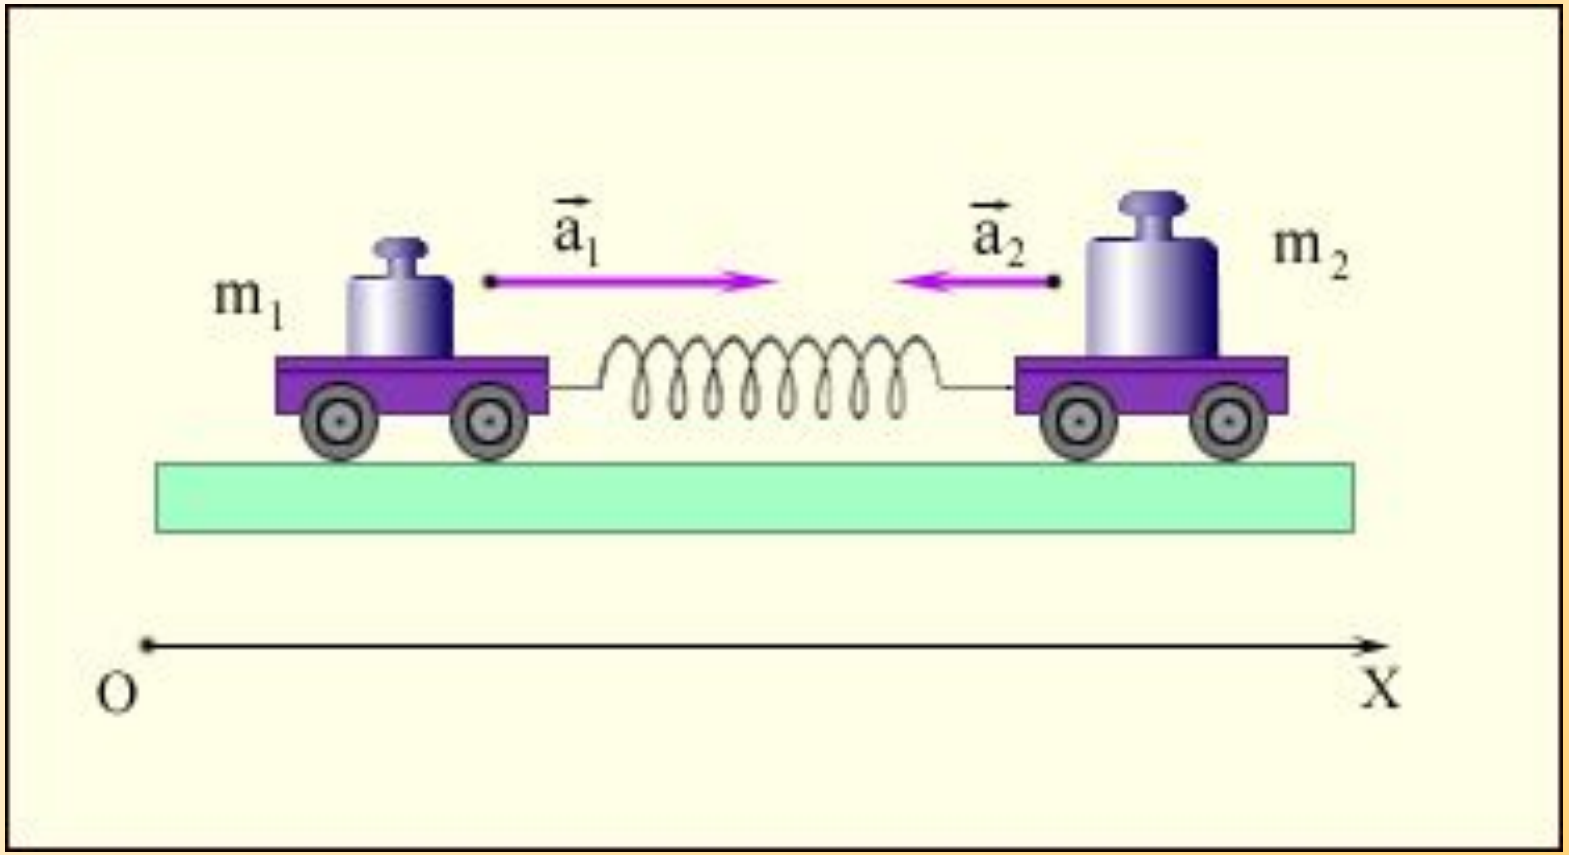
главная

Третий закон Ньютона



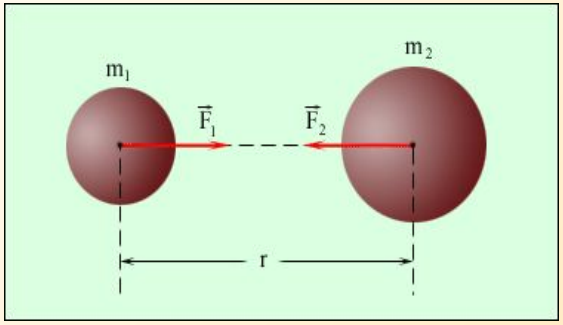
назад

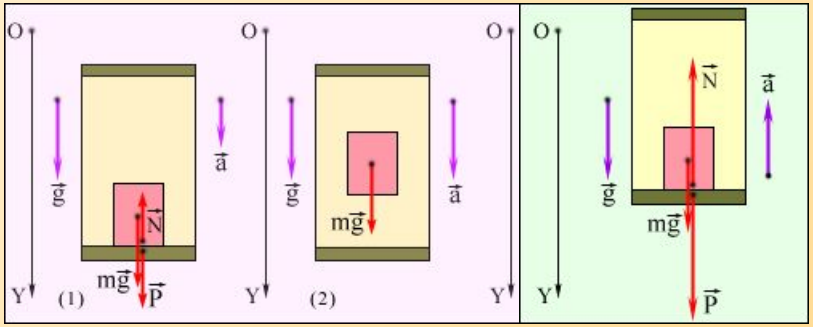
Второй закон Ньютона

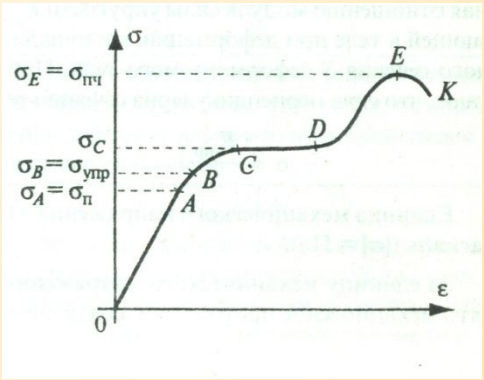


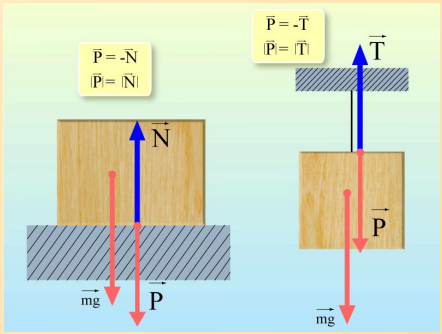
назад

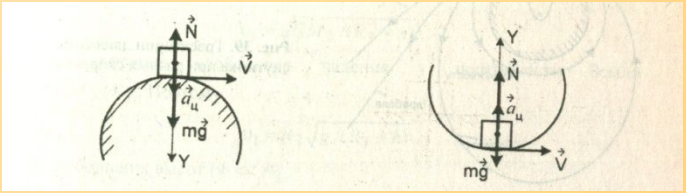
Силы в природе





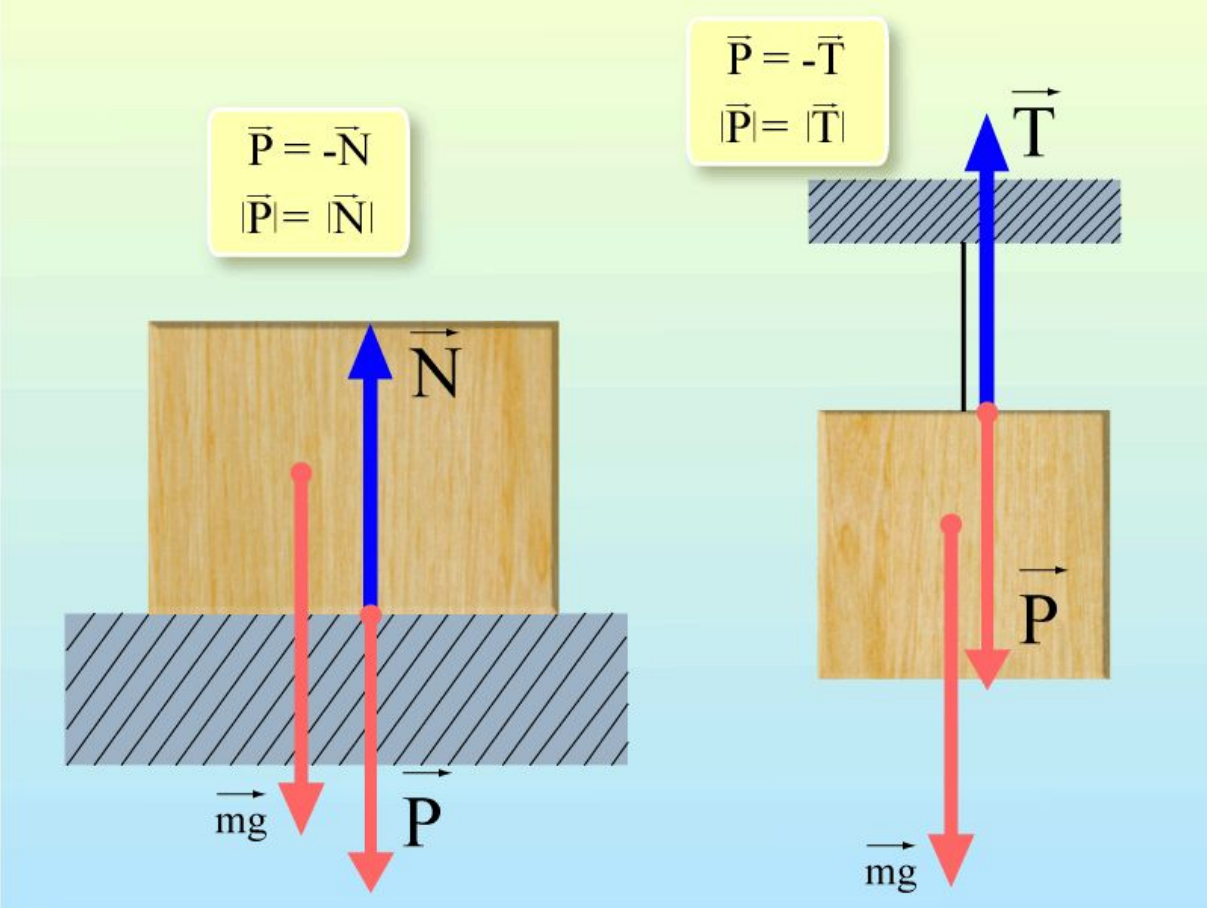






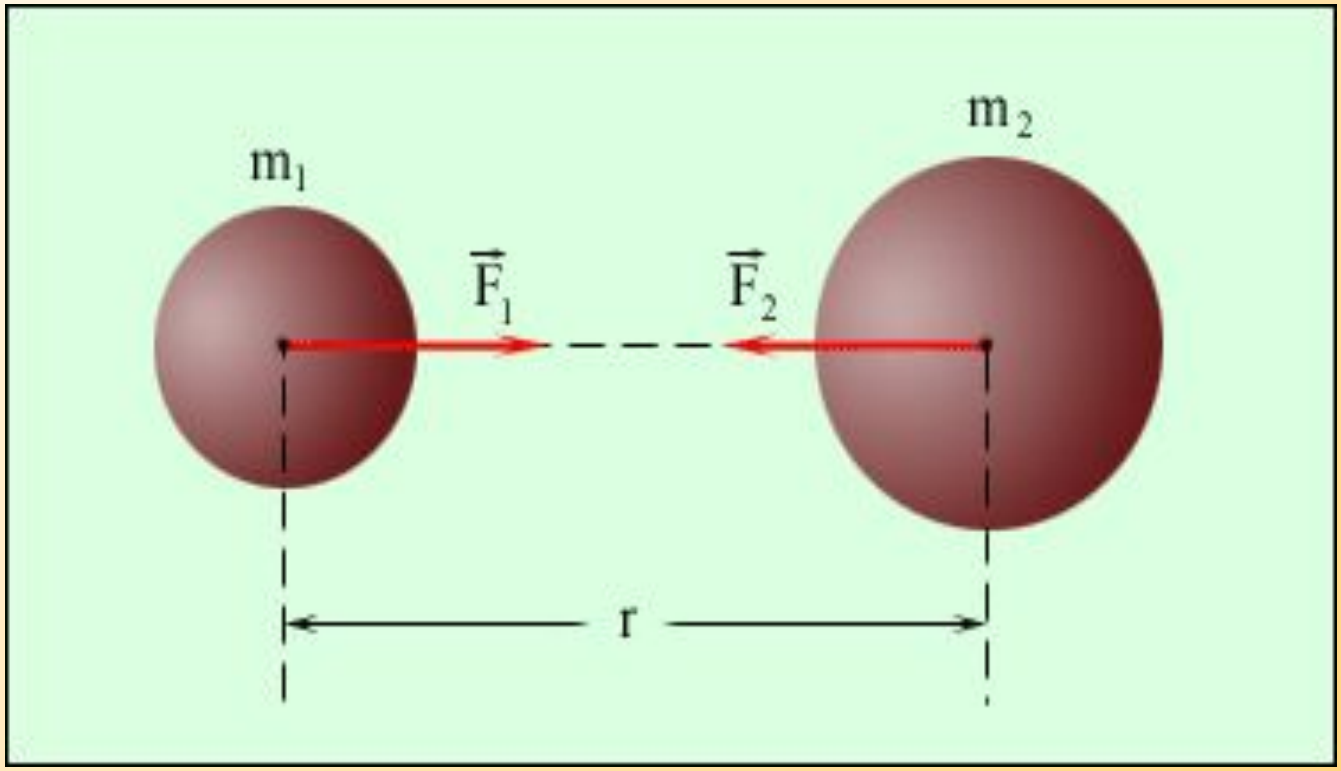
главная

Вес тела



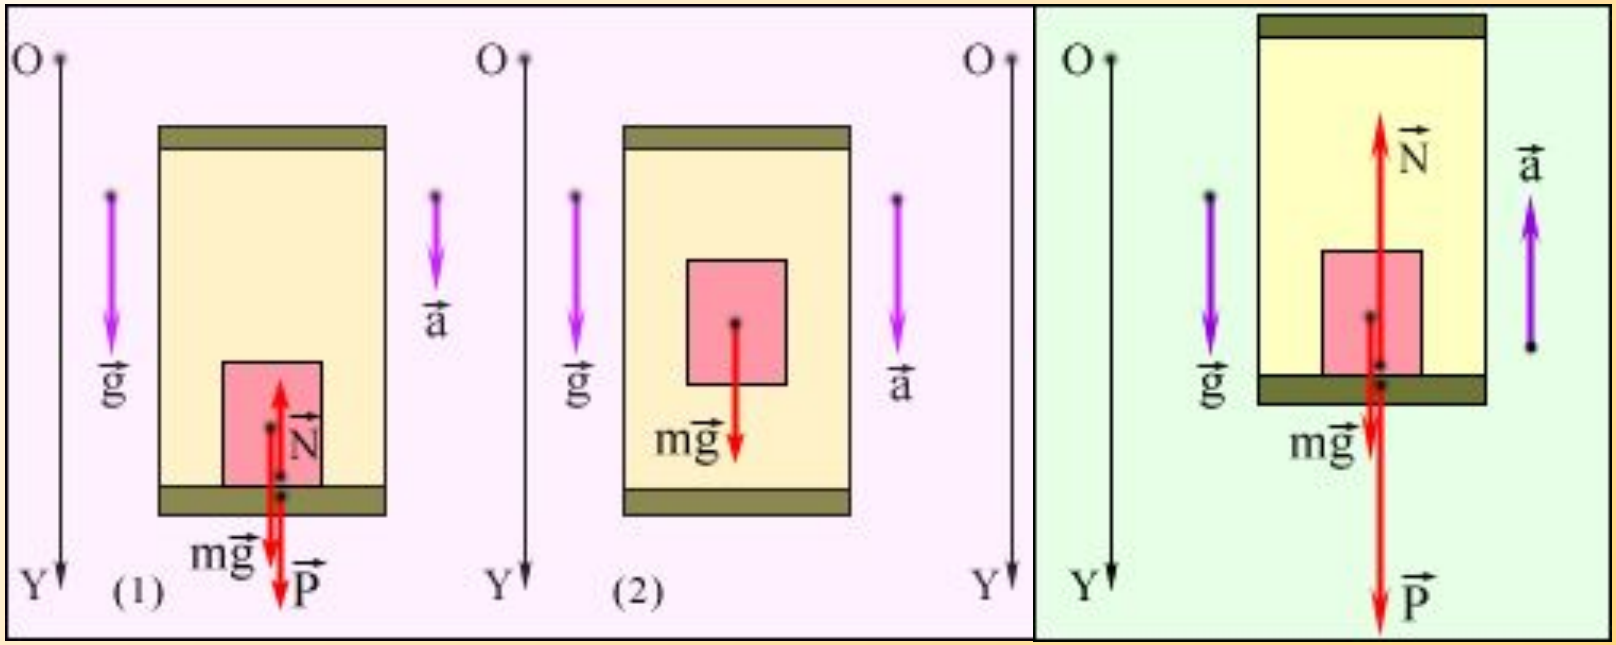
назад

Сила всемирного тяготения



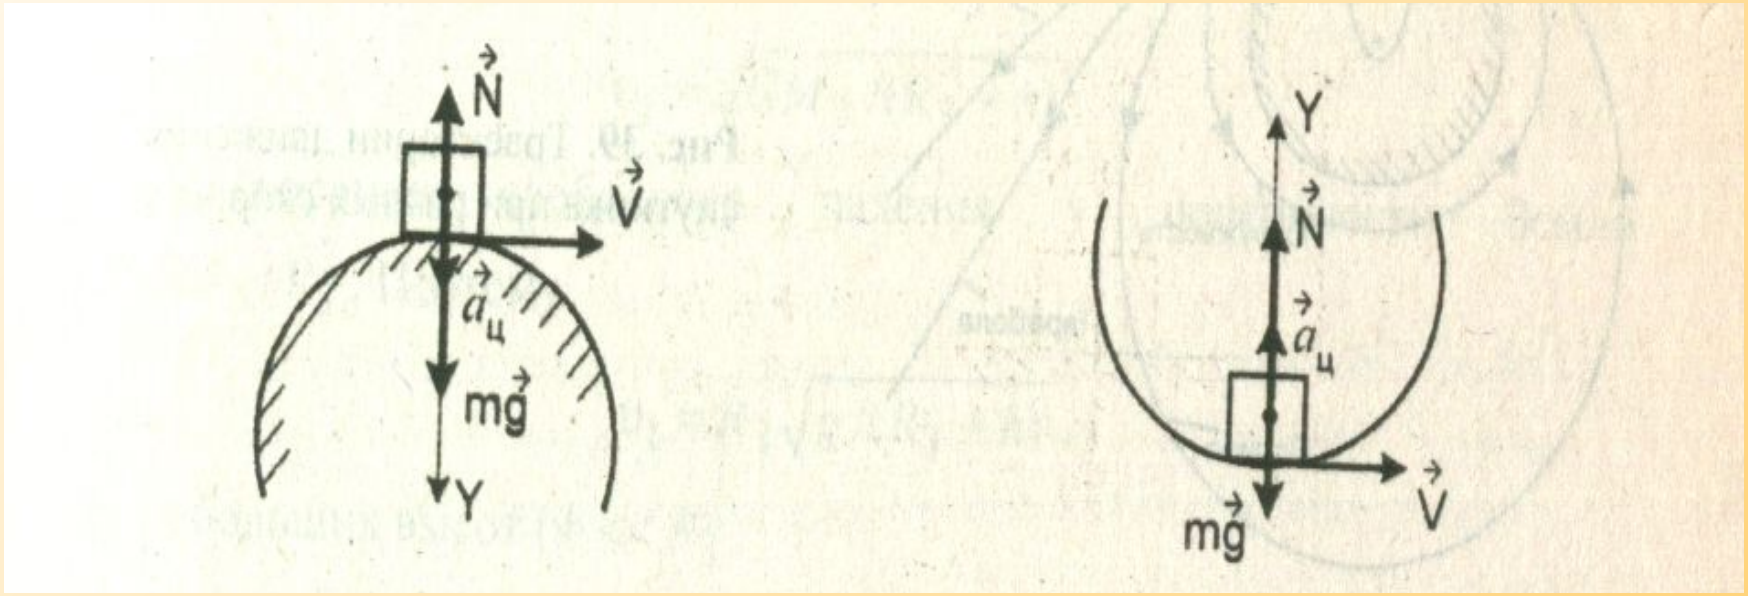
назад

Вес тела, движущегося с ускорением



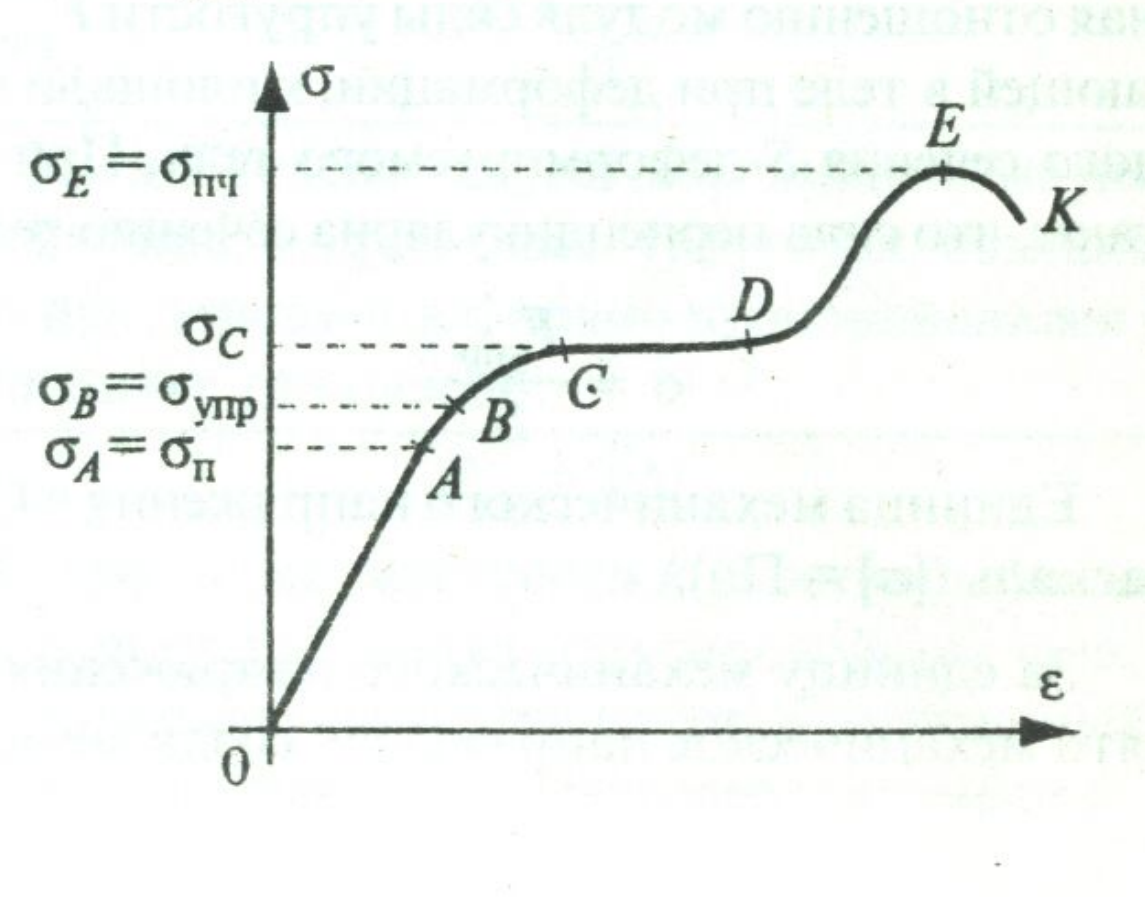
назад

Вес тела, движущегося с ускорением по окружности



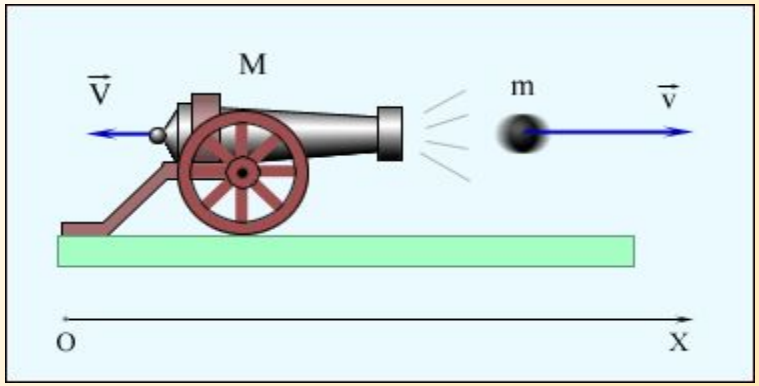
назад

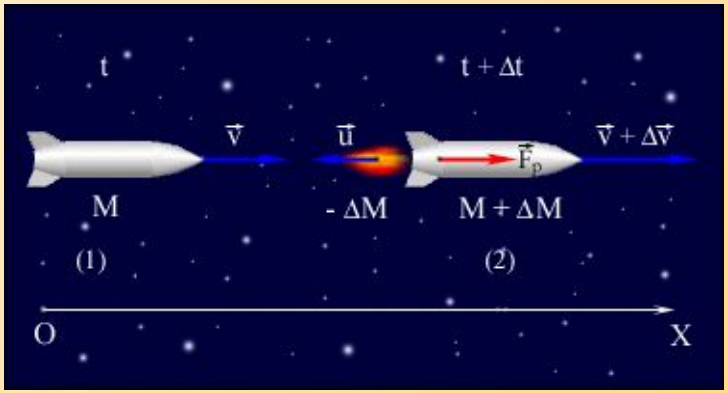
Диаграмма растяжения

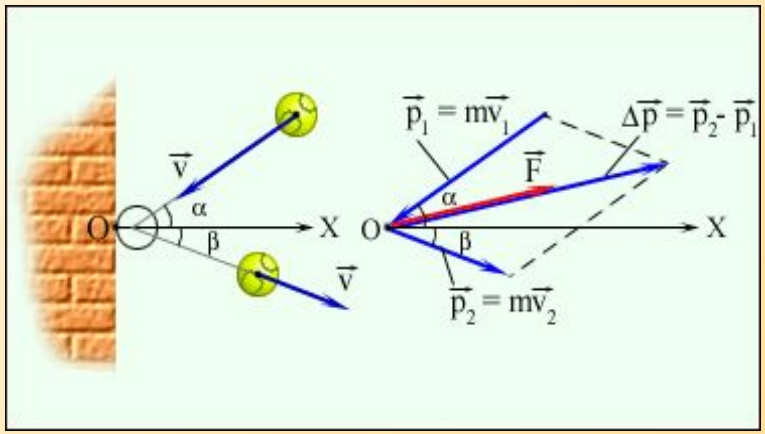


назад

Законы сохранения

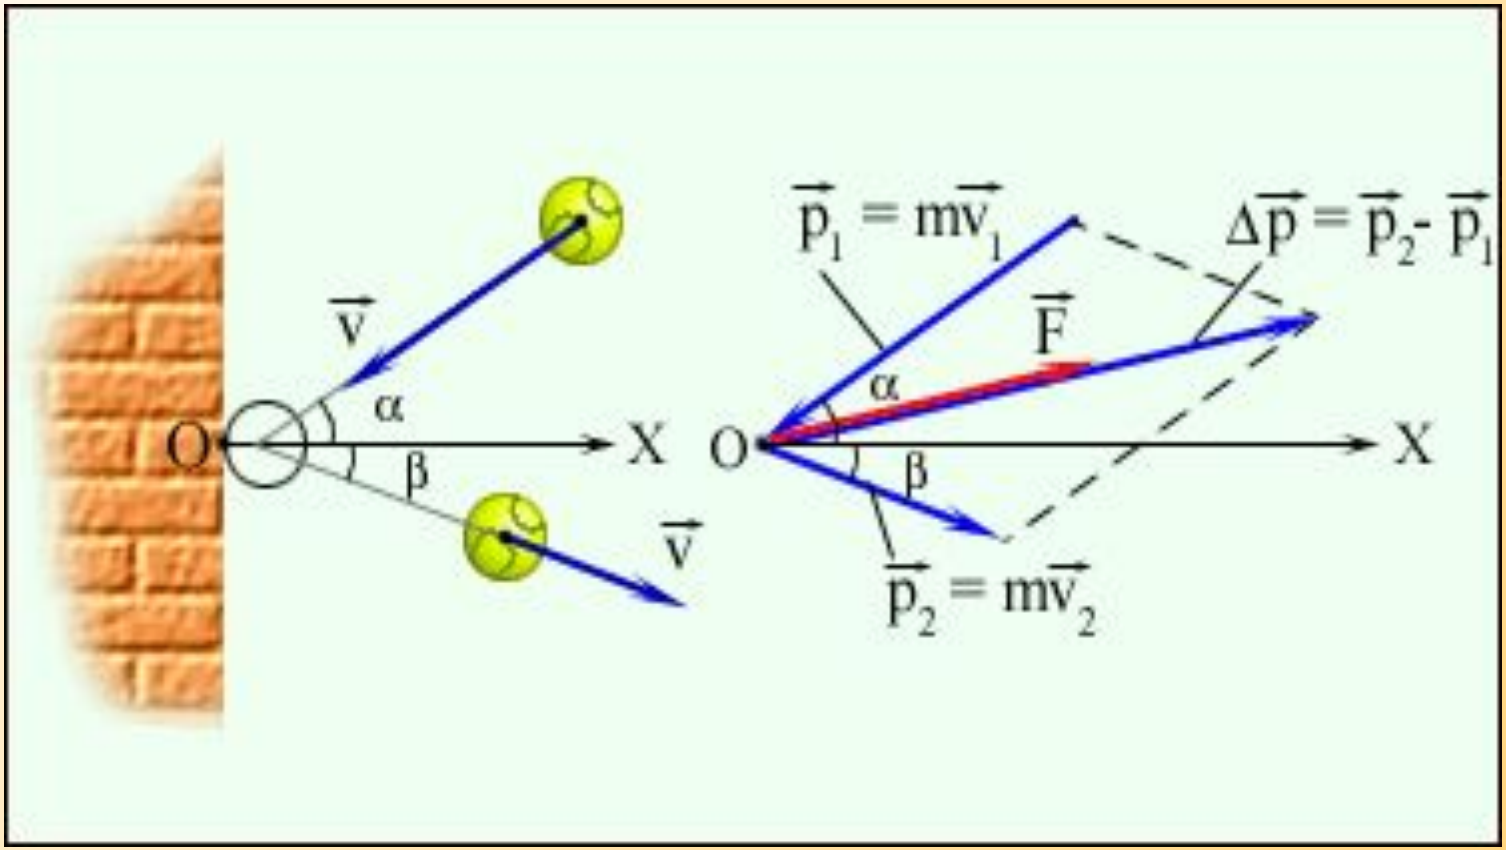






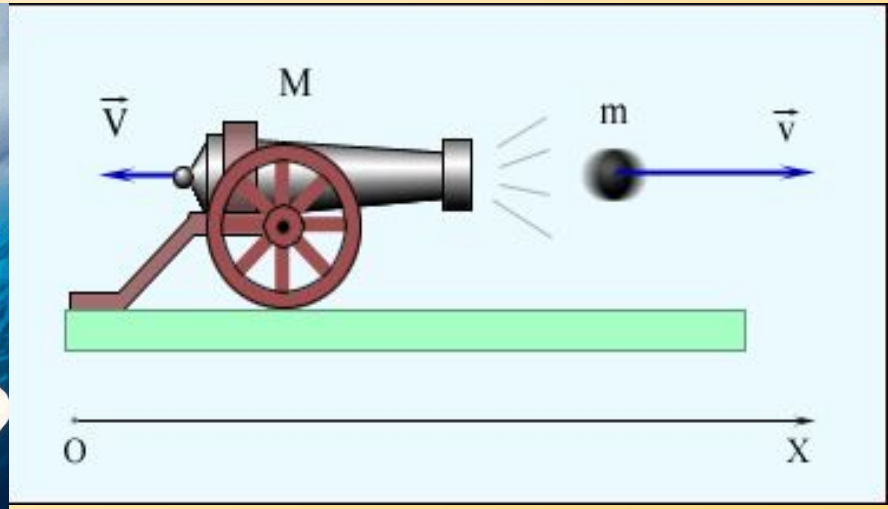
главная

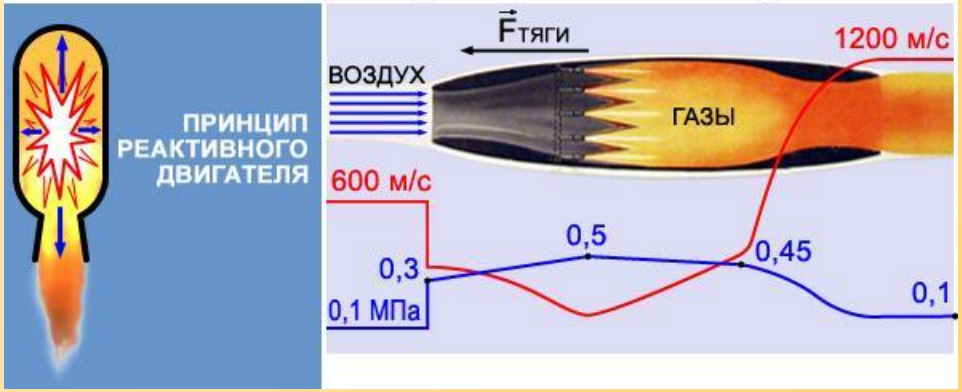
Закон сохранения импульса



назад

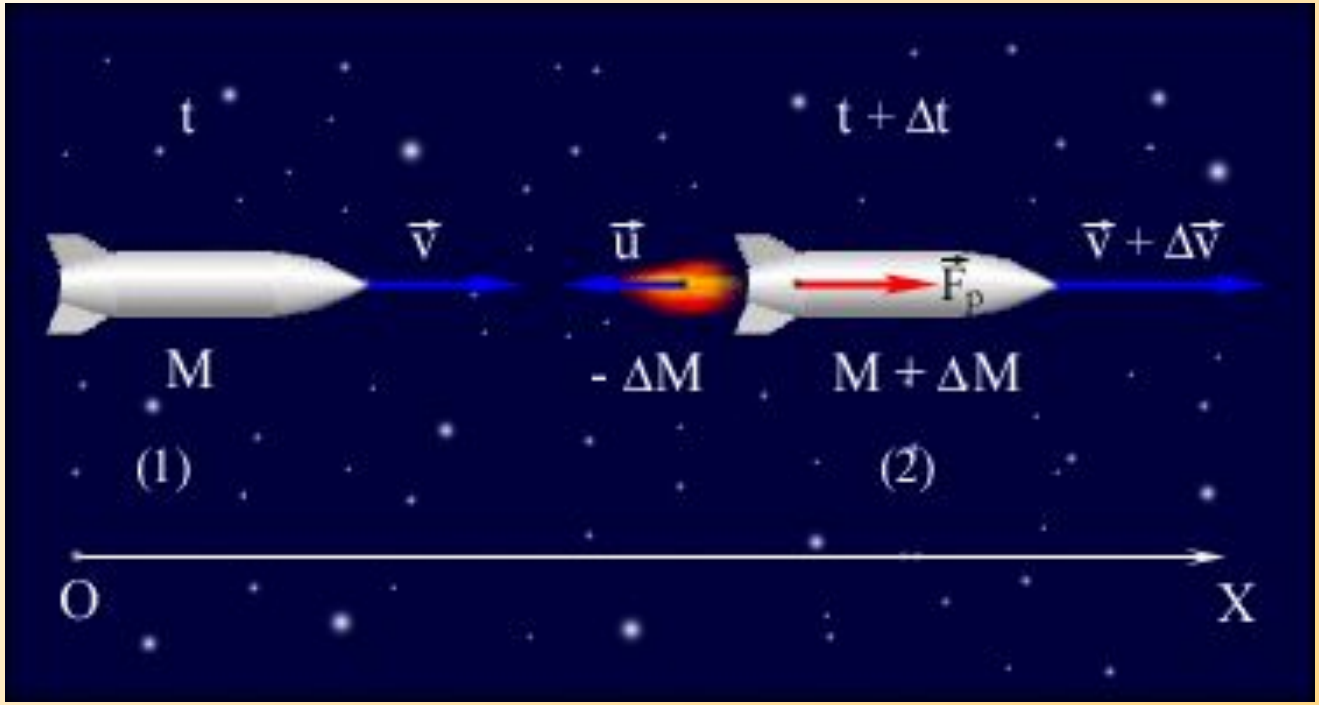
Реактивное движение





назад

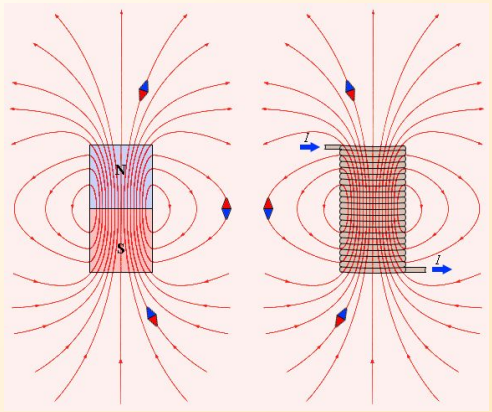
Космические полеты. Формула Циолковского

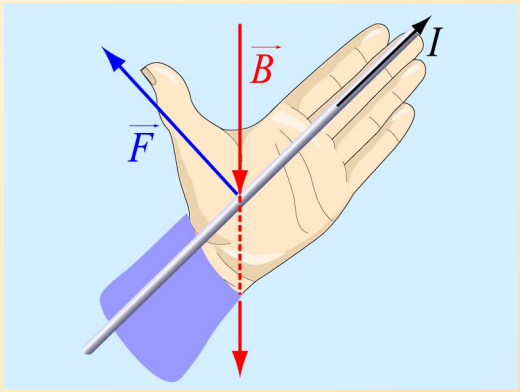


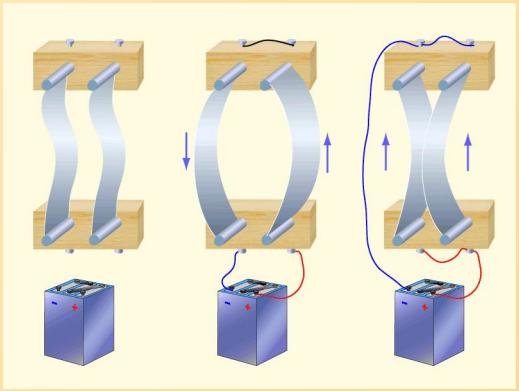
$$v = u \ln\left(\frac{M_0}{M}\right)$$

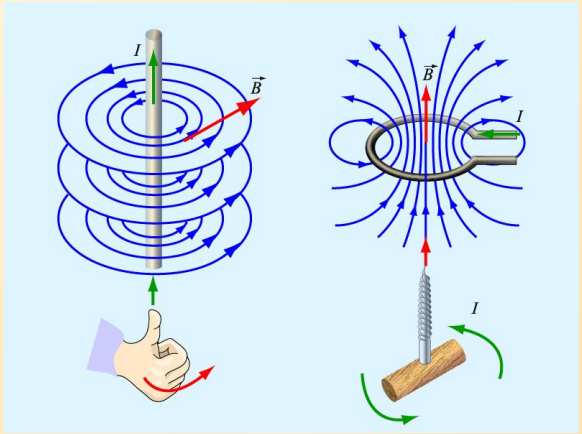
назад

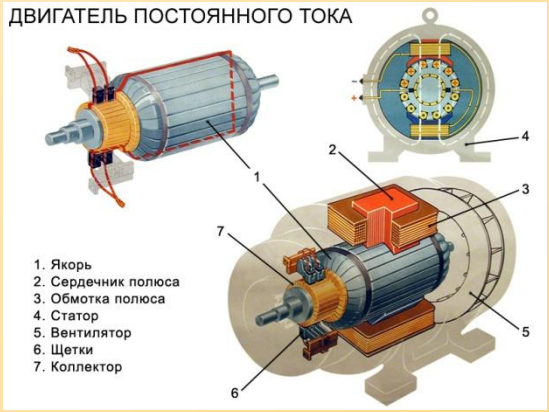
Магнитное поле





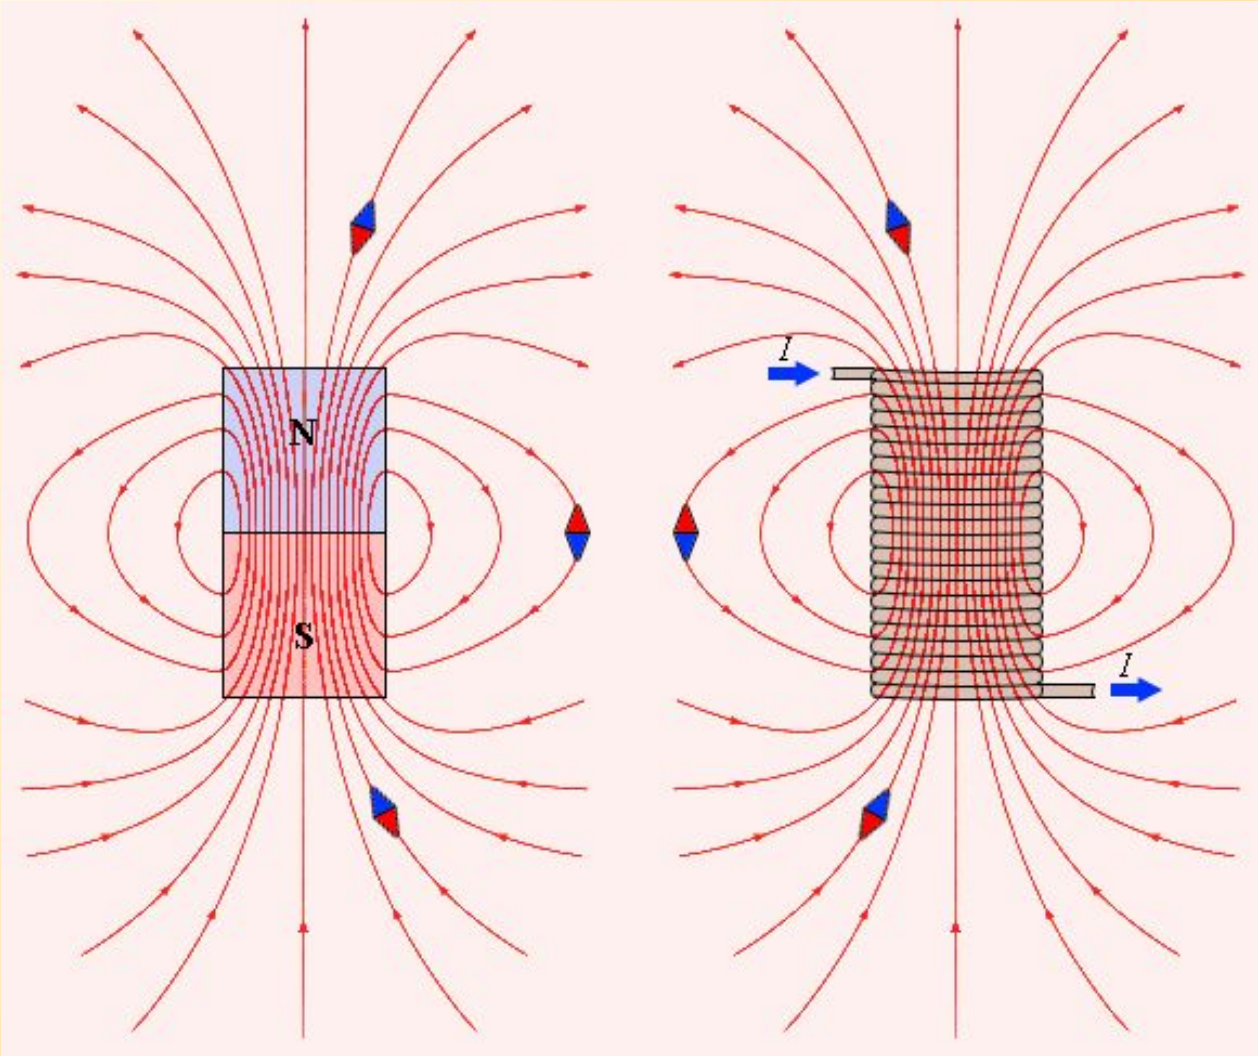






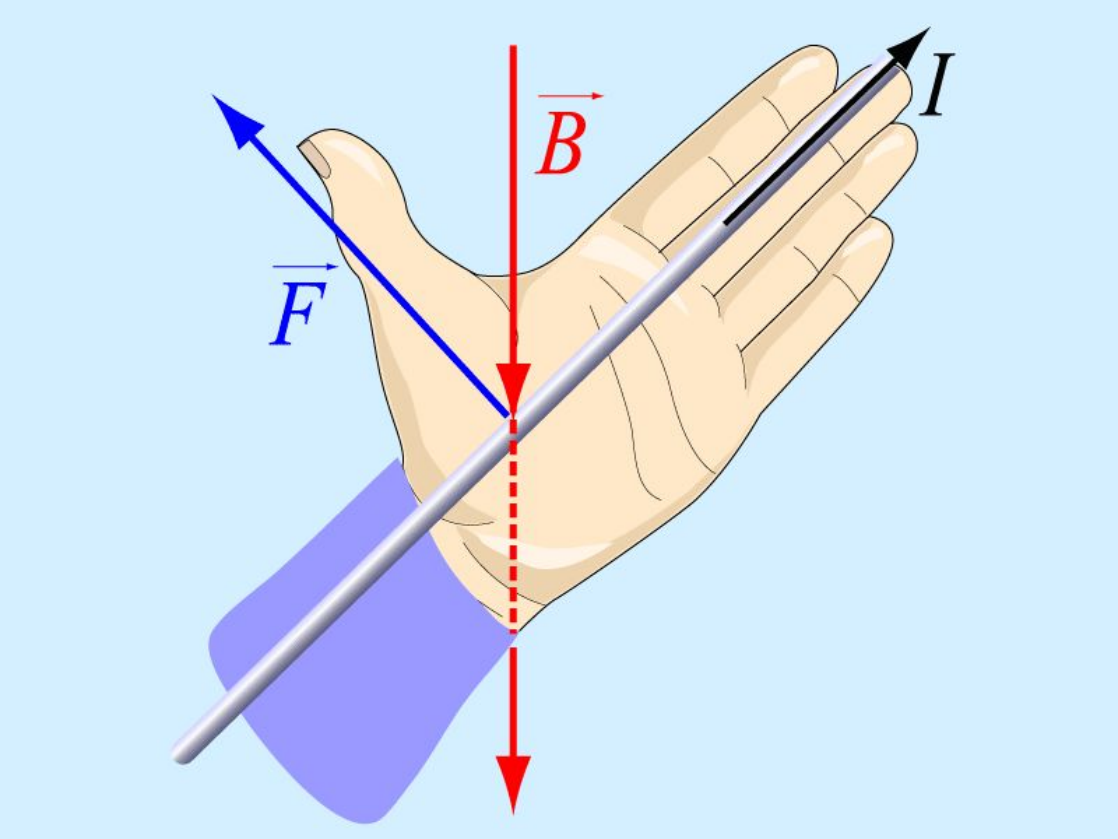
главная

Силовые линии магнитного поля



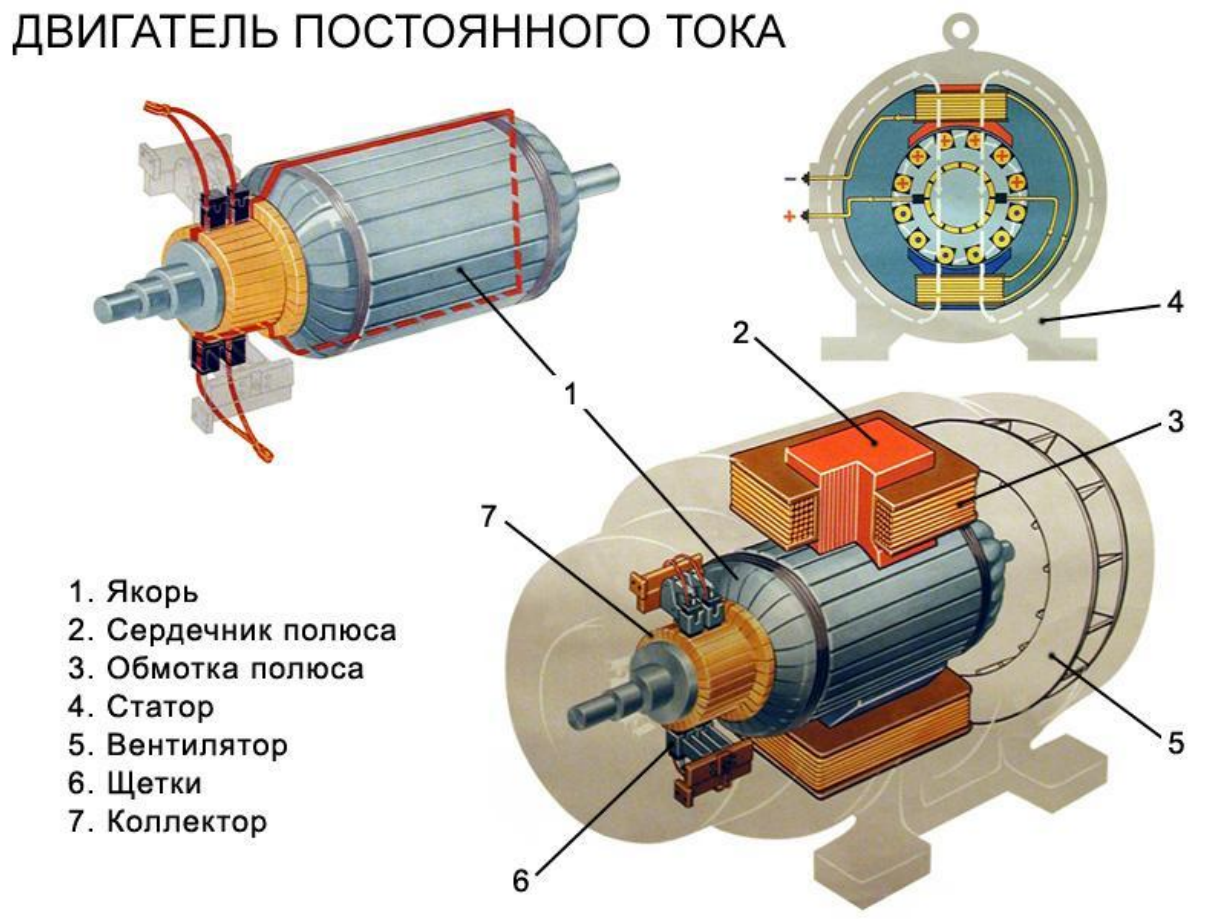
назад

Правило левой руки



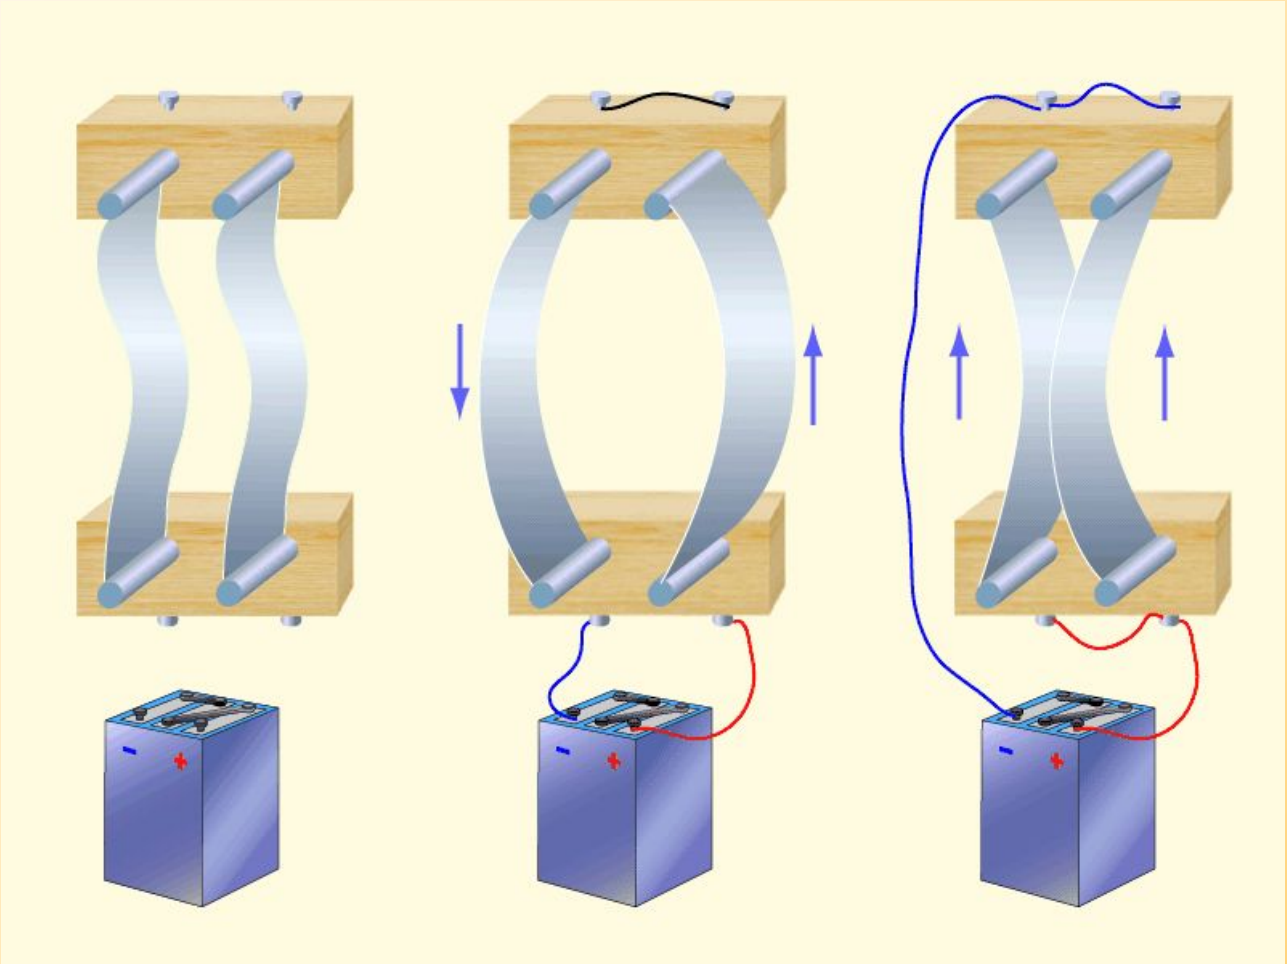
назад

Двигатель постоянного тока



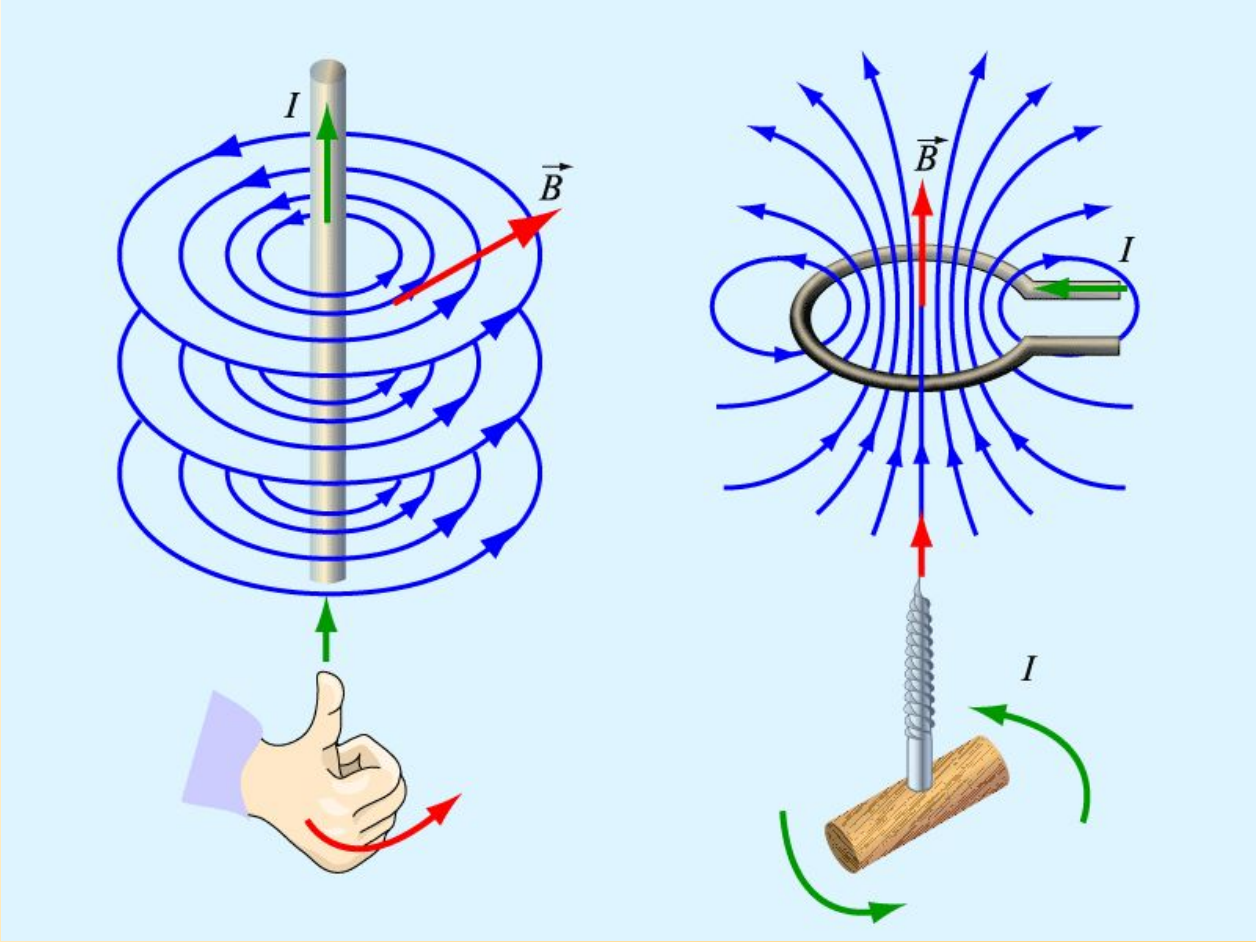
назад

Сила Ампера



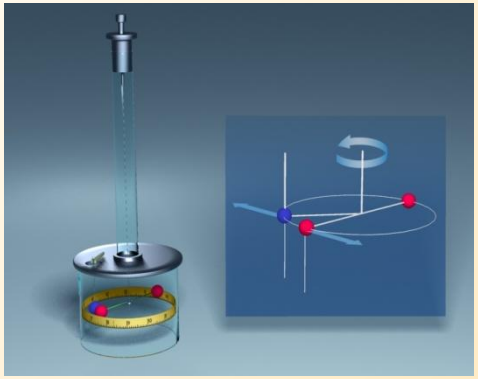
назад

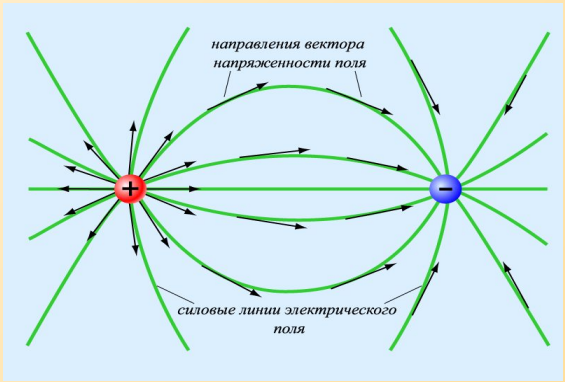
Правило буравчика

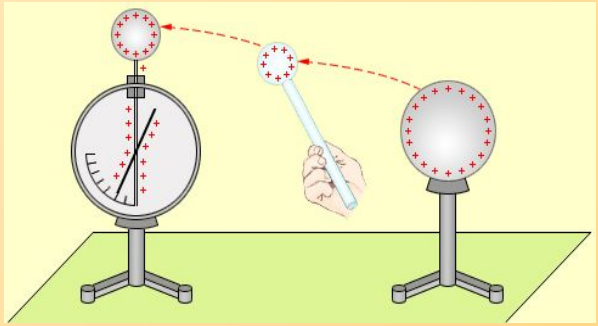


назад

Электрическое поле

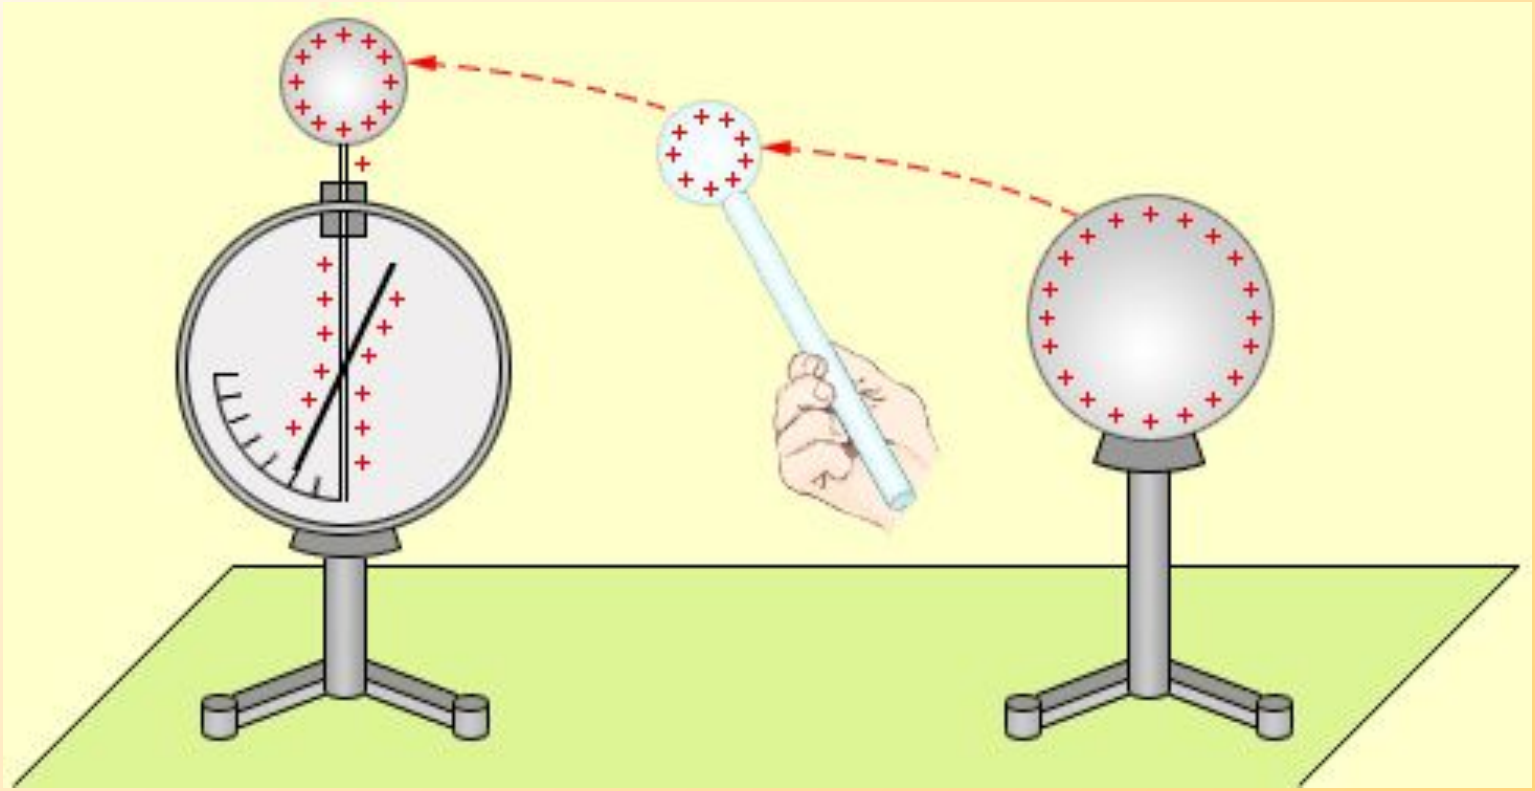






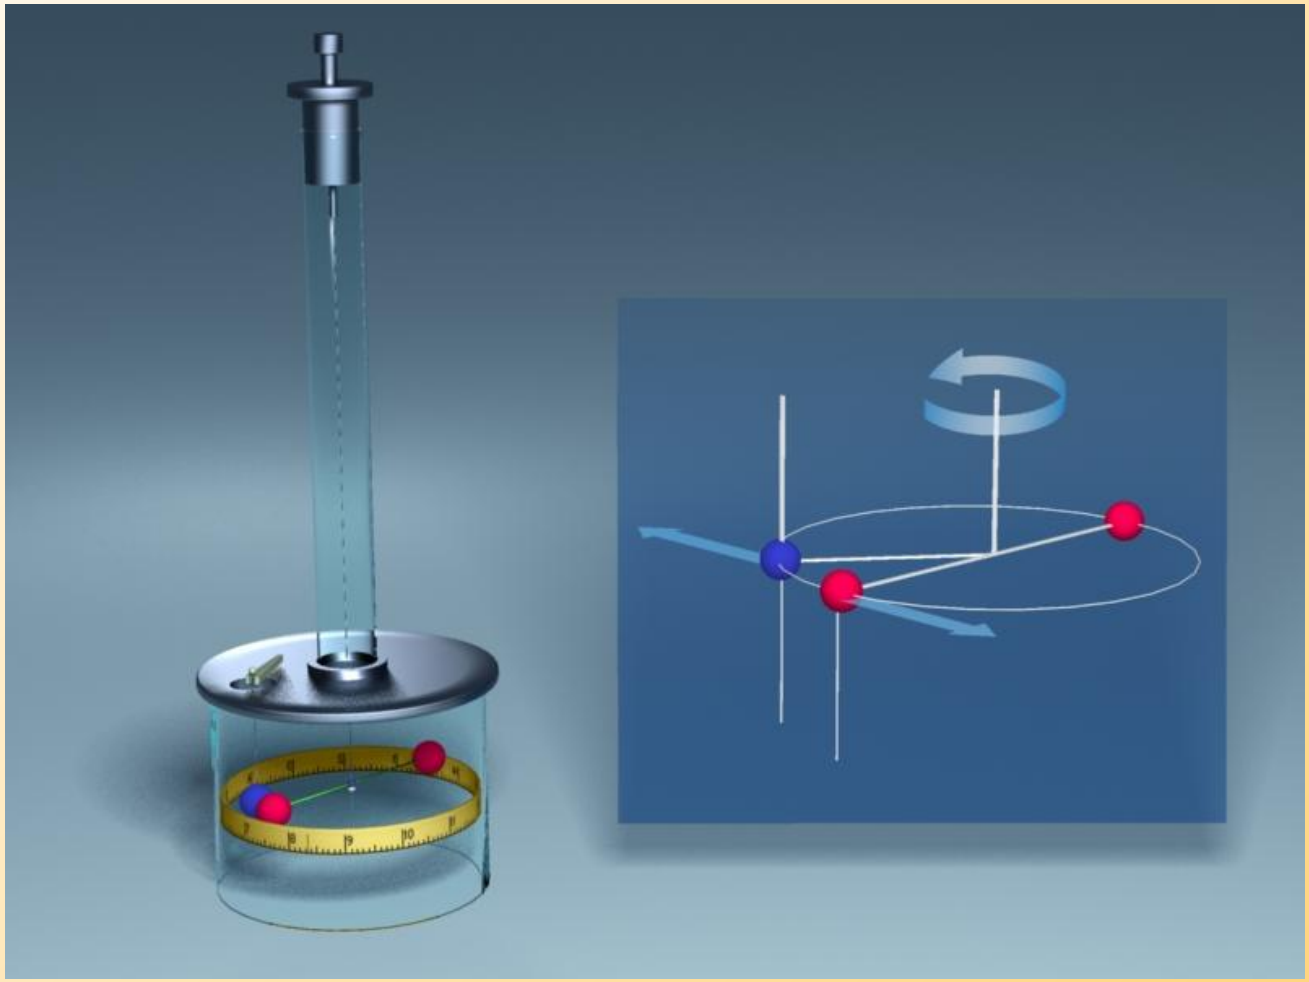
главная

Перенос электрического заряда



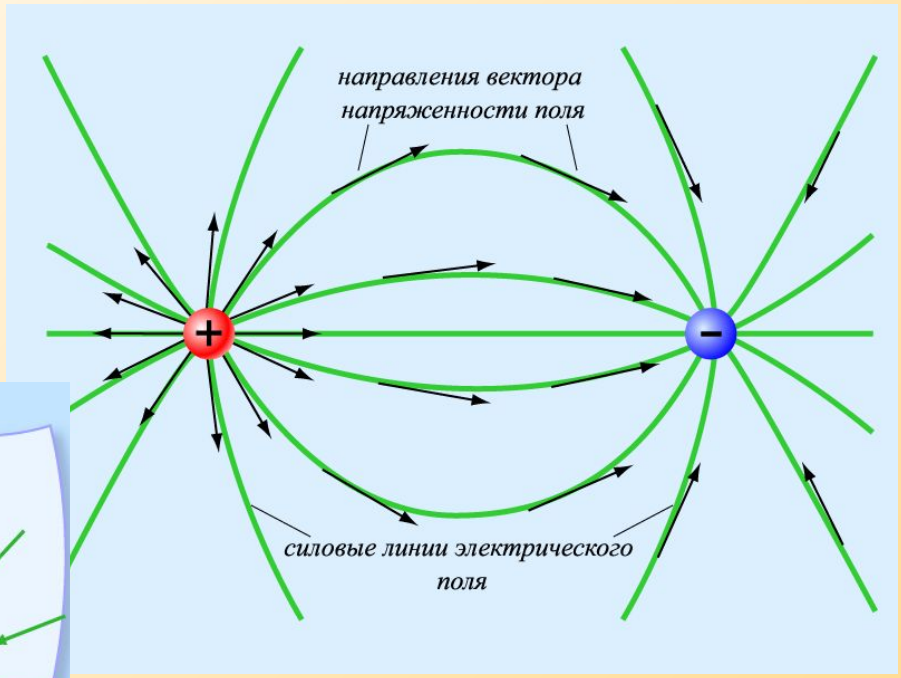
назад

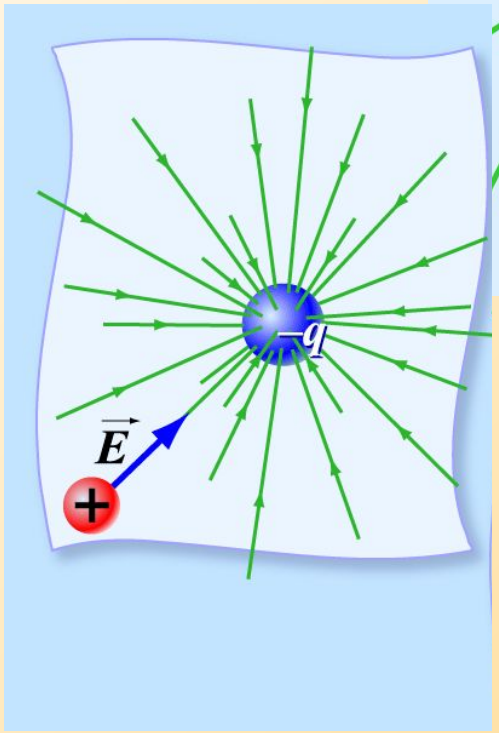
Закон Кулона

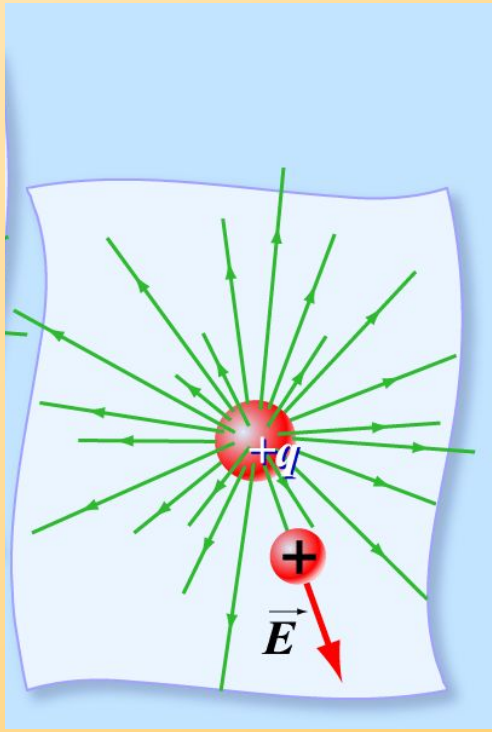


назад

Силовые линии электрического поля

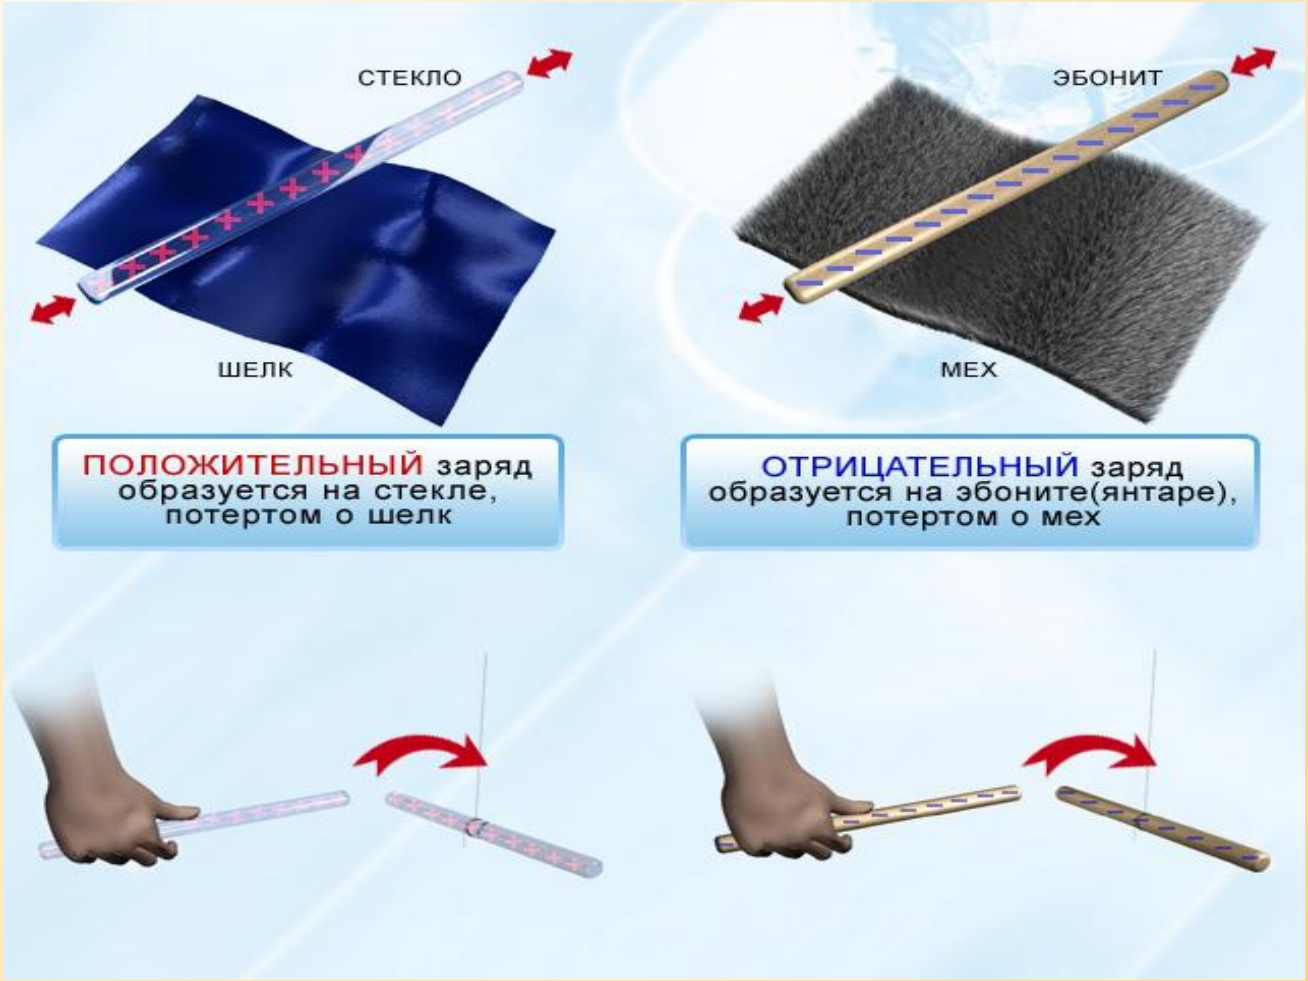






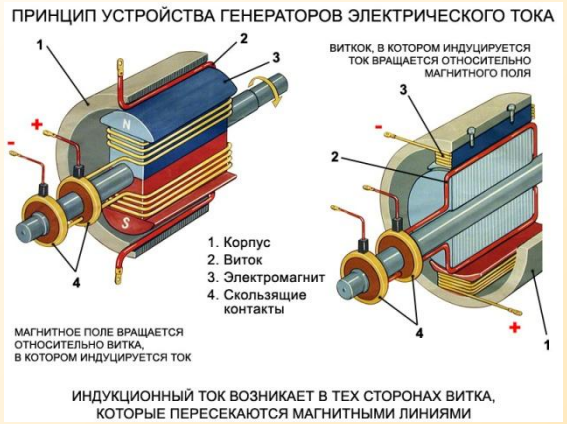
назад

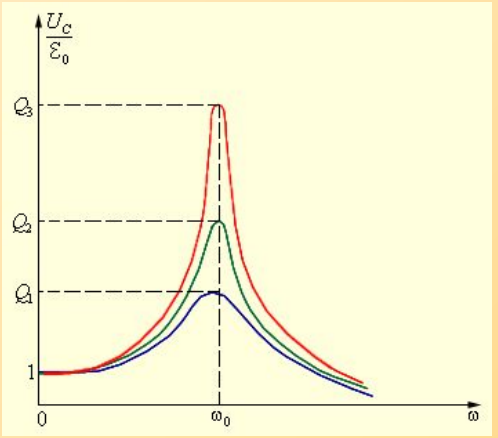
Электризация

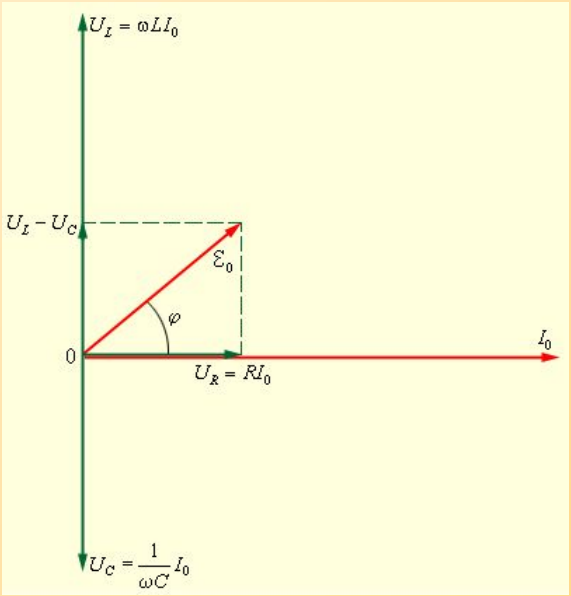


назад

Переменный ток

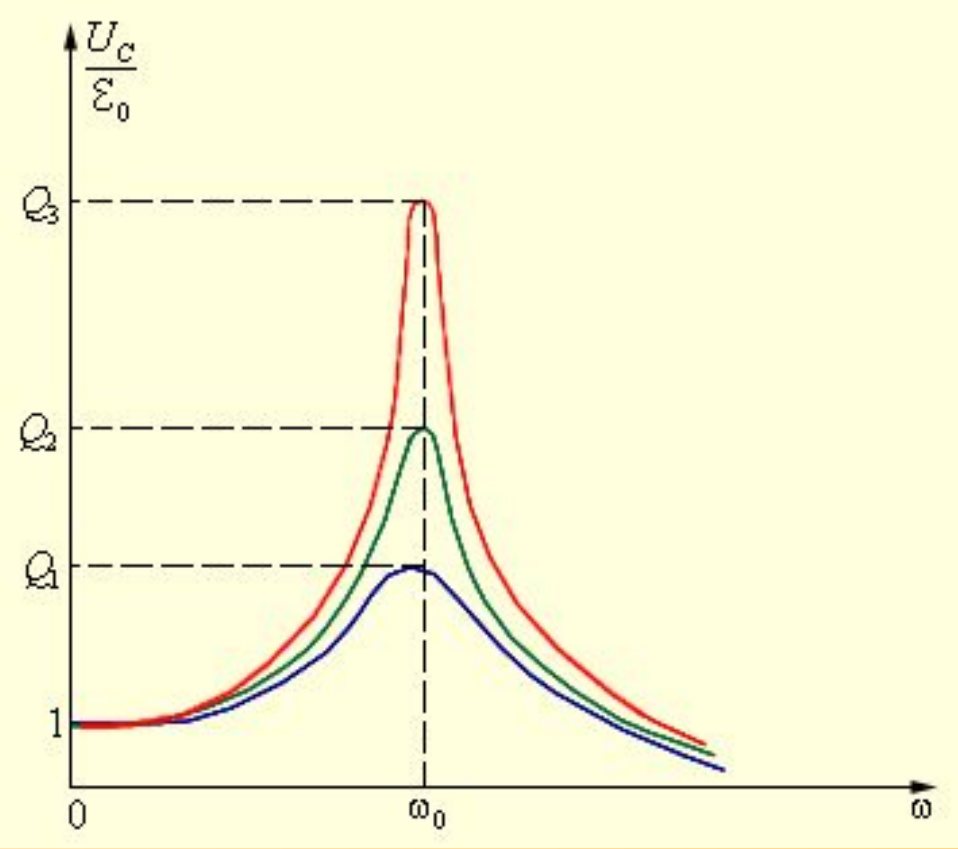






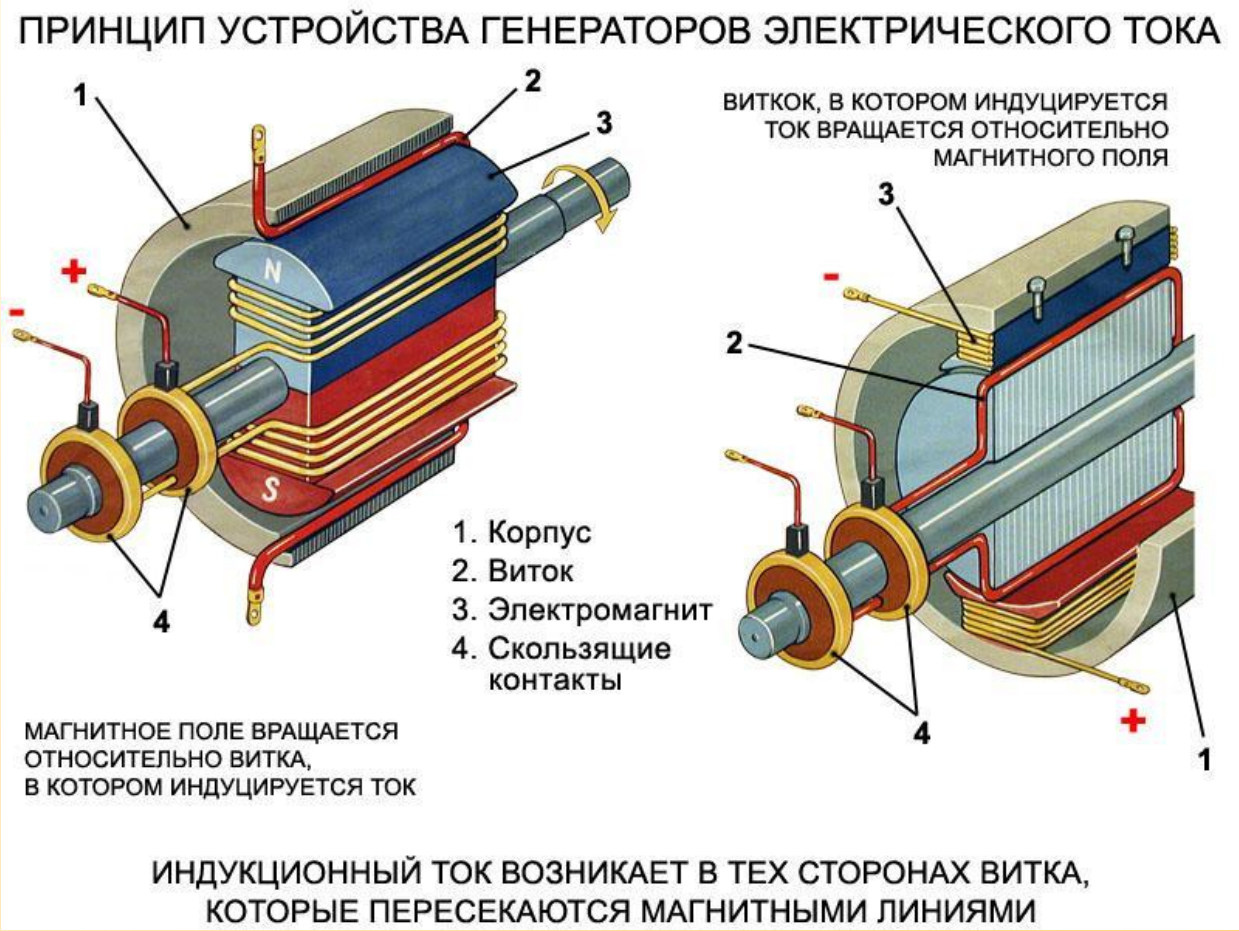
главная

Резонанс в цепи переменного тока



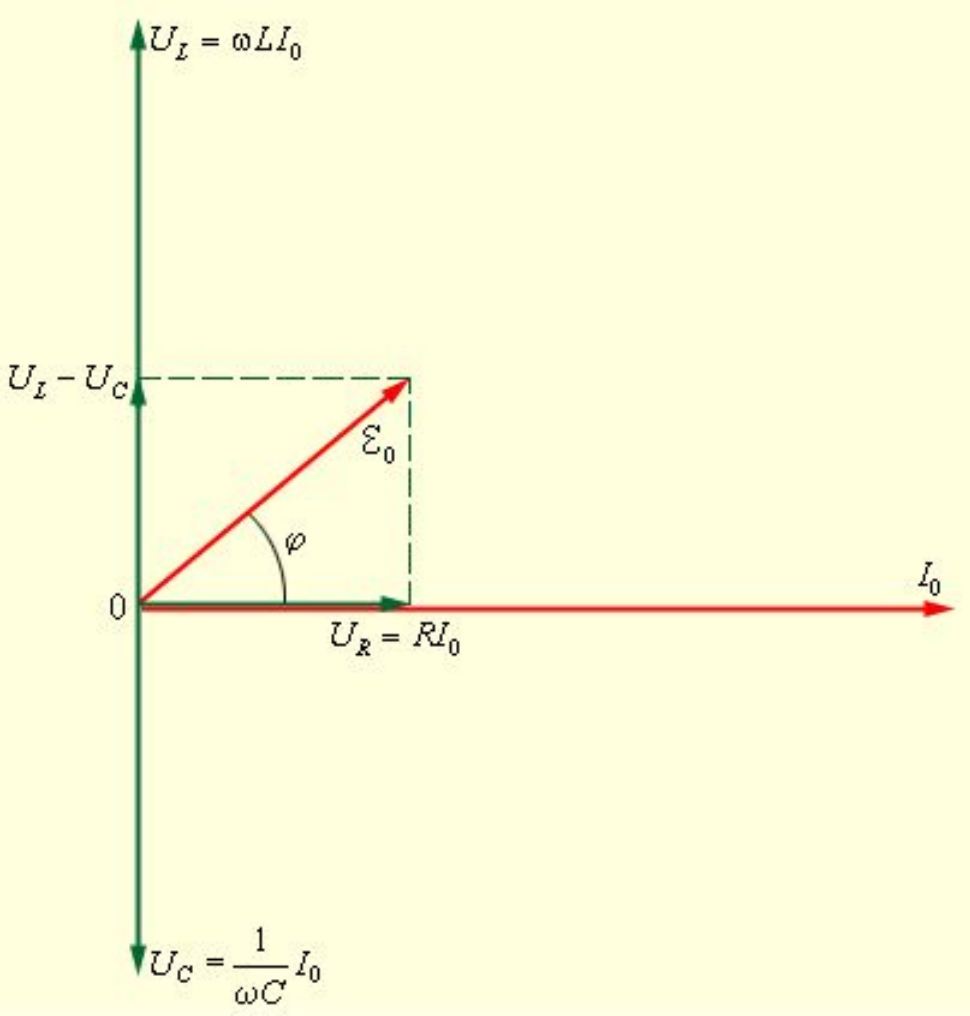
назад

Генератор переменного тока



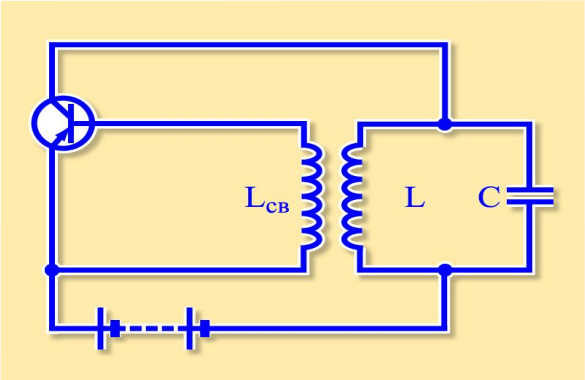
назад

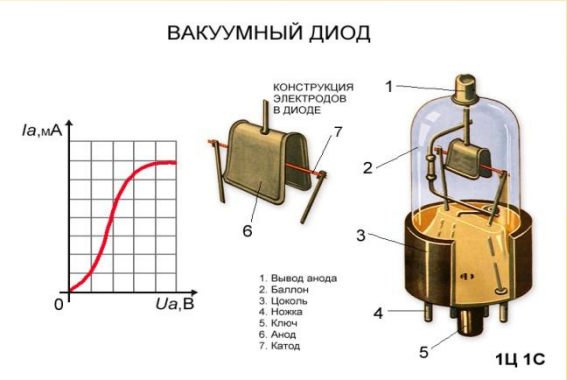
Закон Ома для переменного тока. Сдвиг фаз.

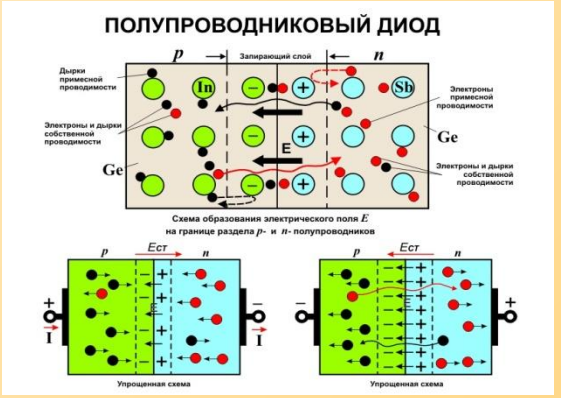


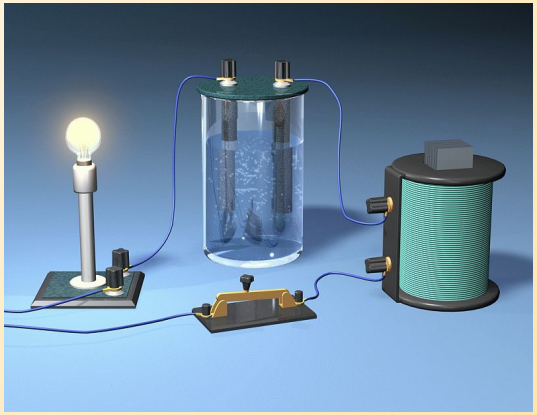
назад

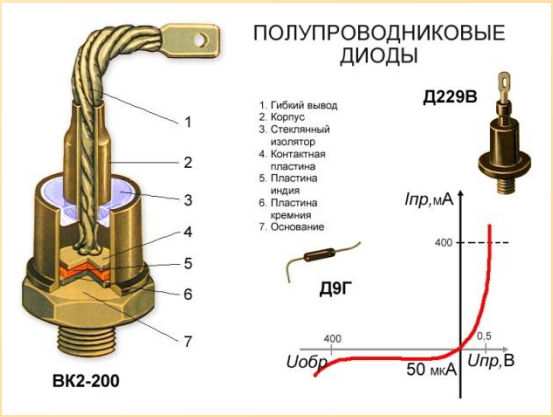
Ток в различных средах

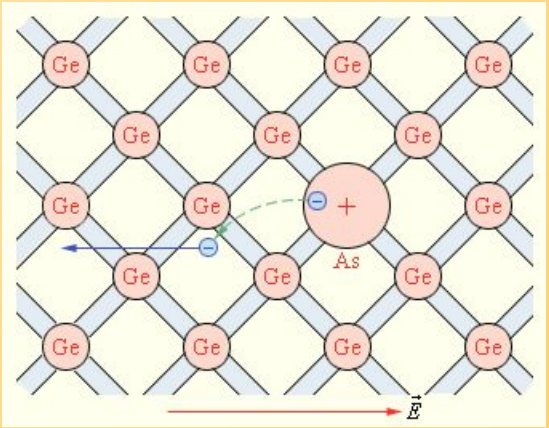






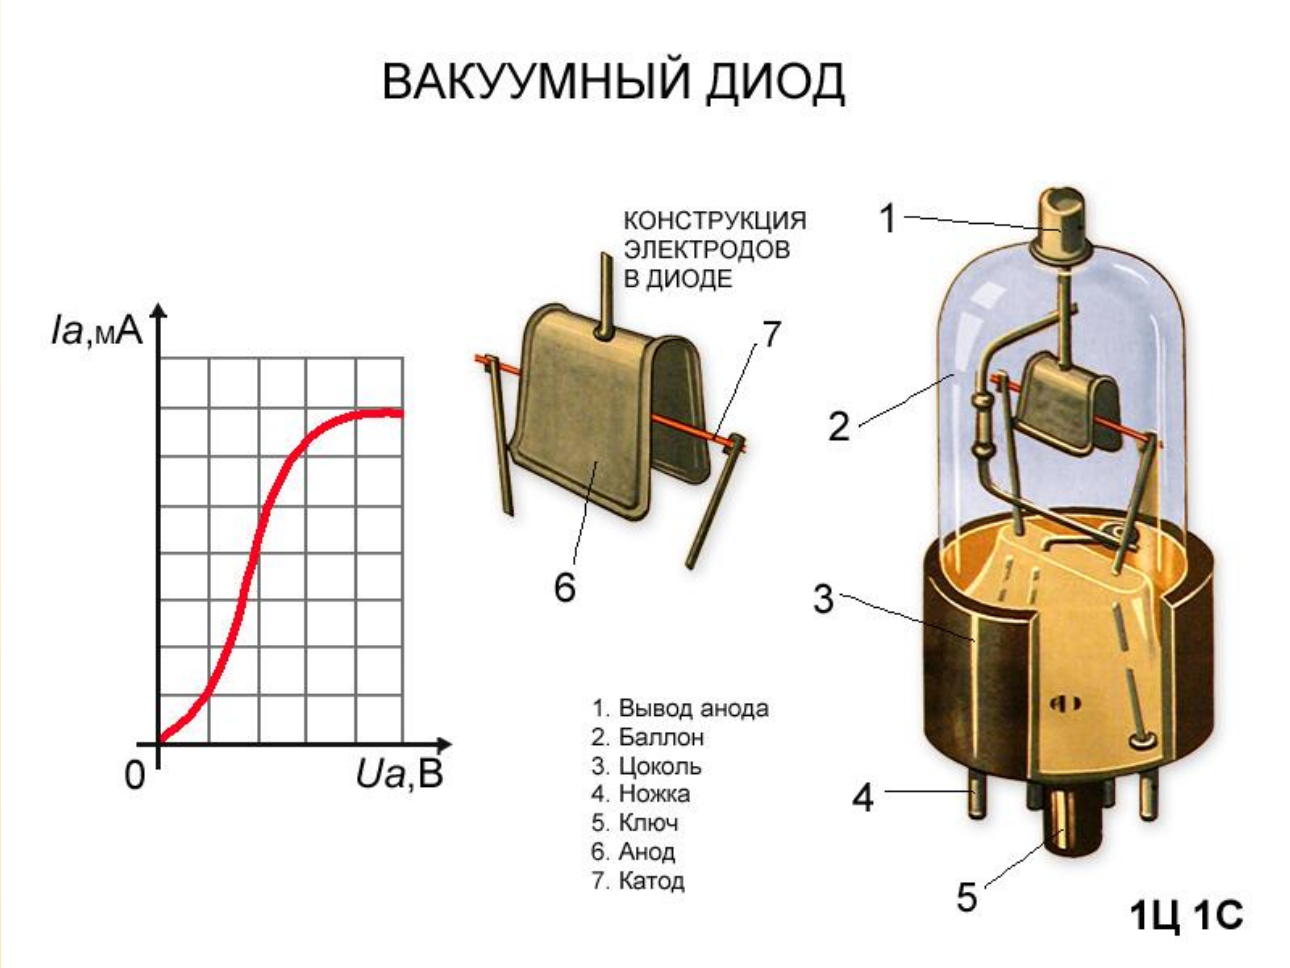






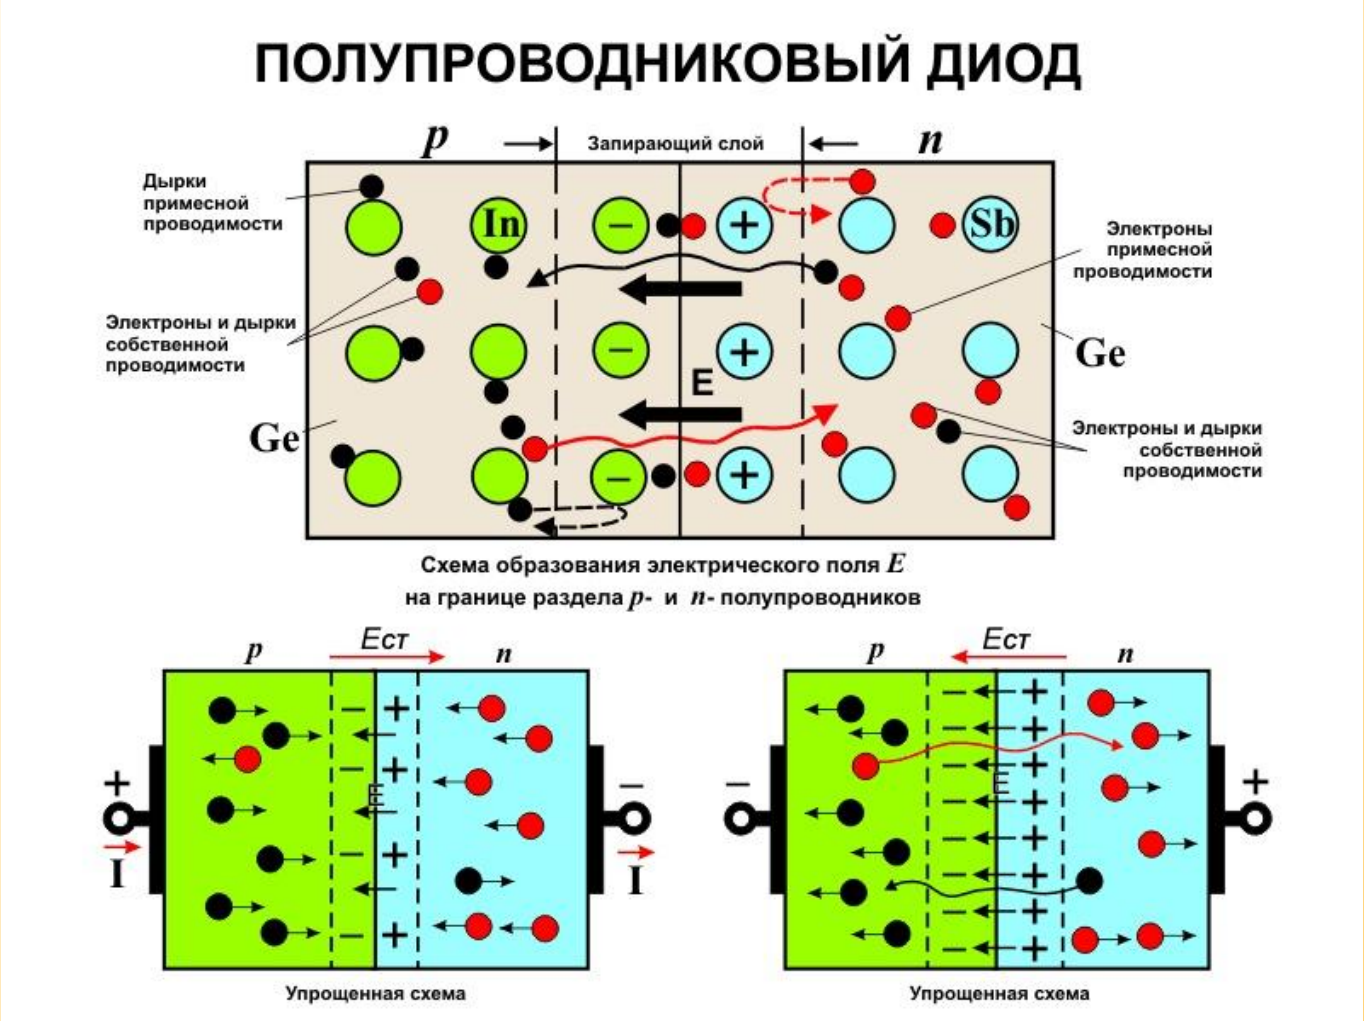
главная

Вакуумный диод



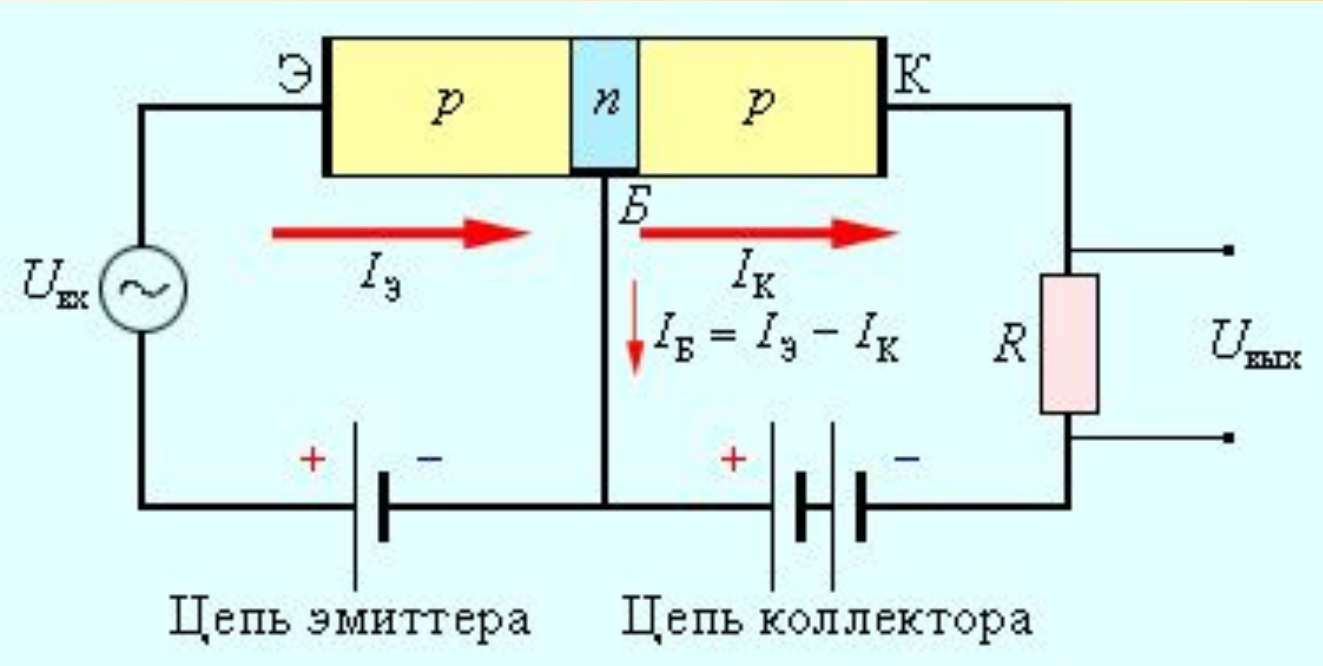
назад

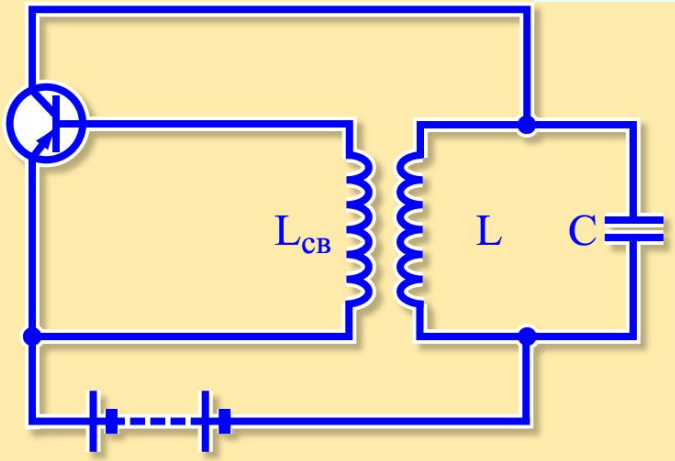
p – n – переход



назад

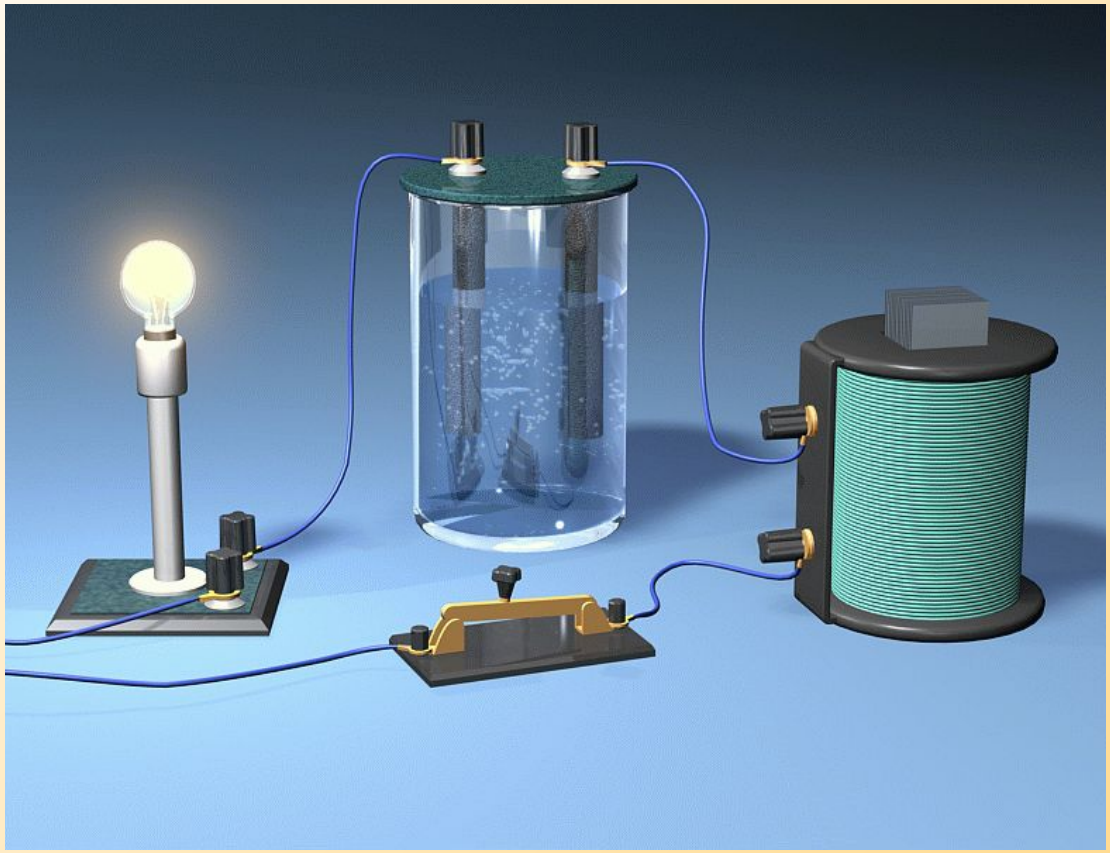
Транзистор.
Генератор на транзисторе

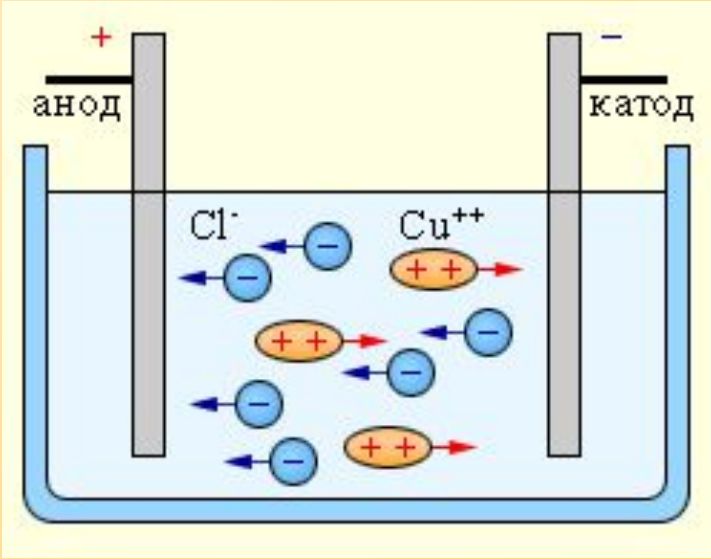




назад

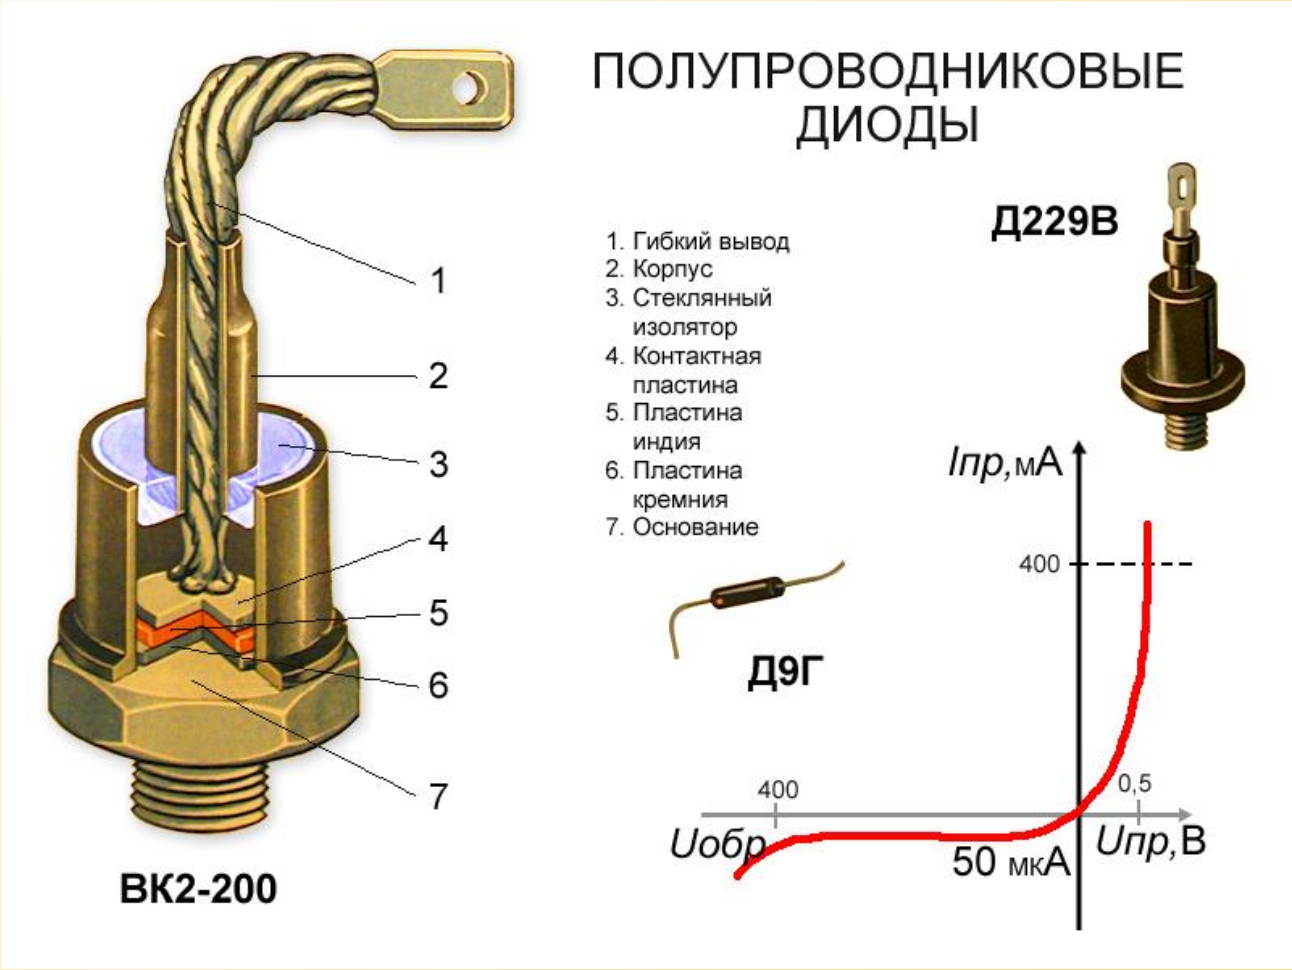
Электрический ток в жидкостях





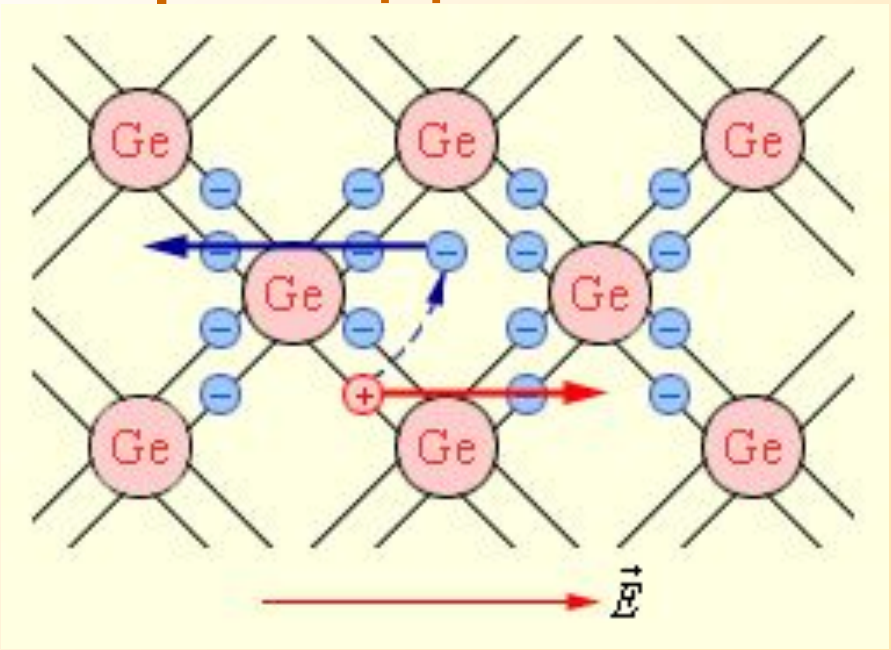
назад

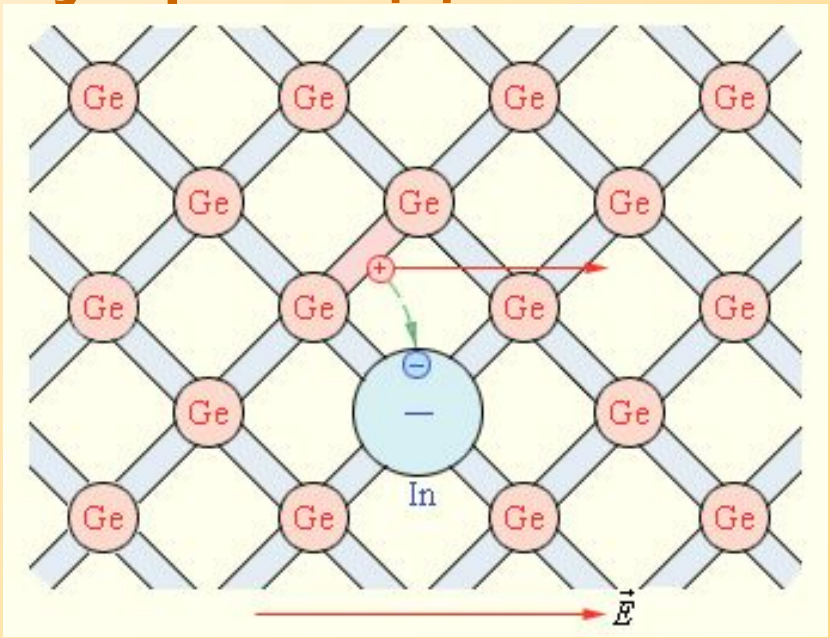
Полупроводниковый диод

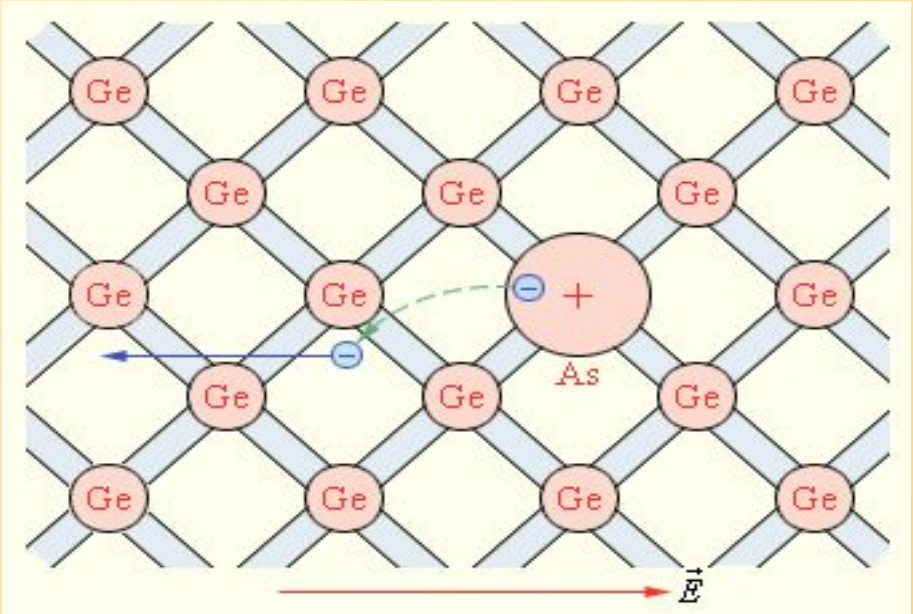


назад

Проводимость полупроводников

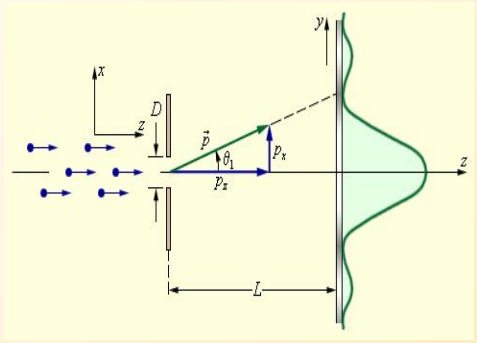


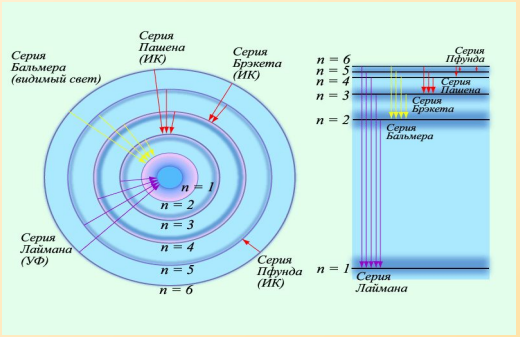


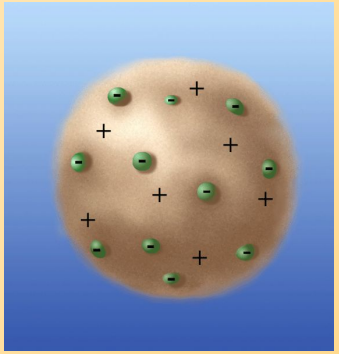


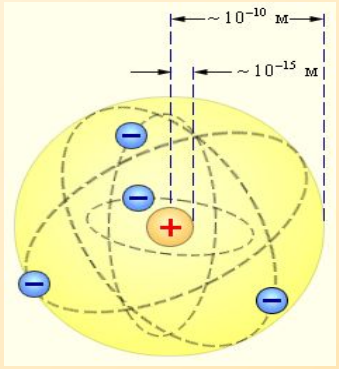
назад

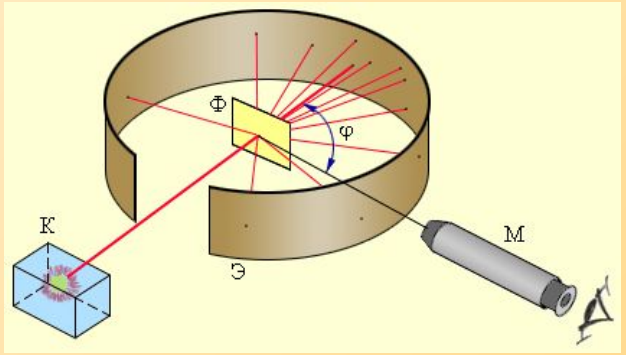
Квантовая физика





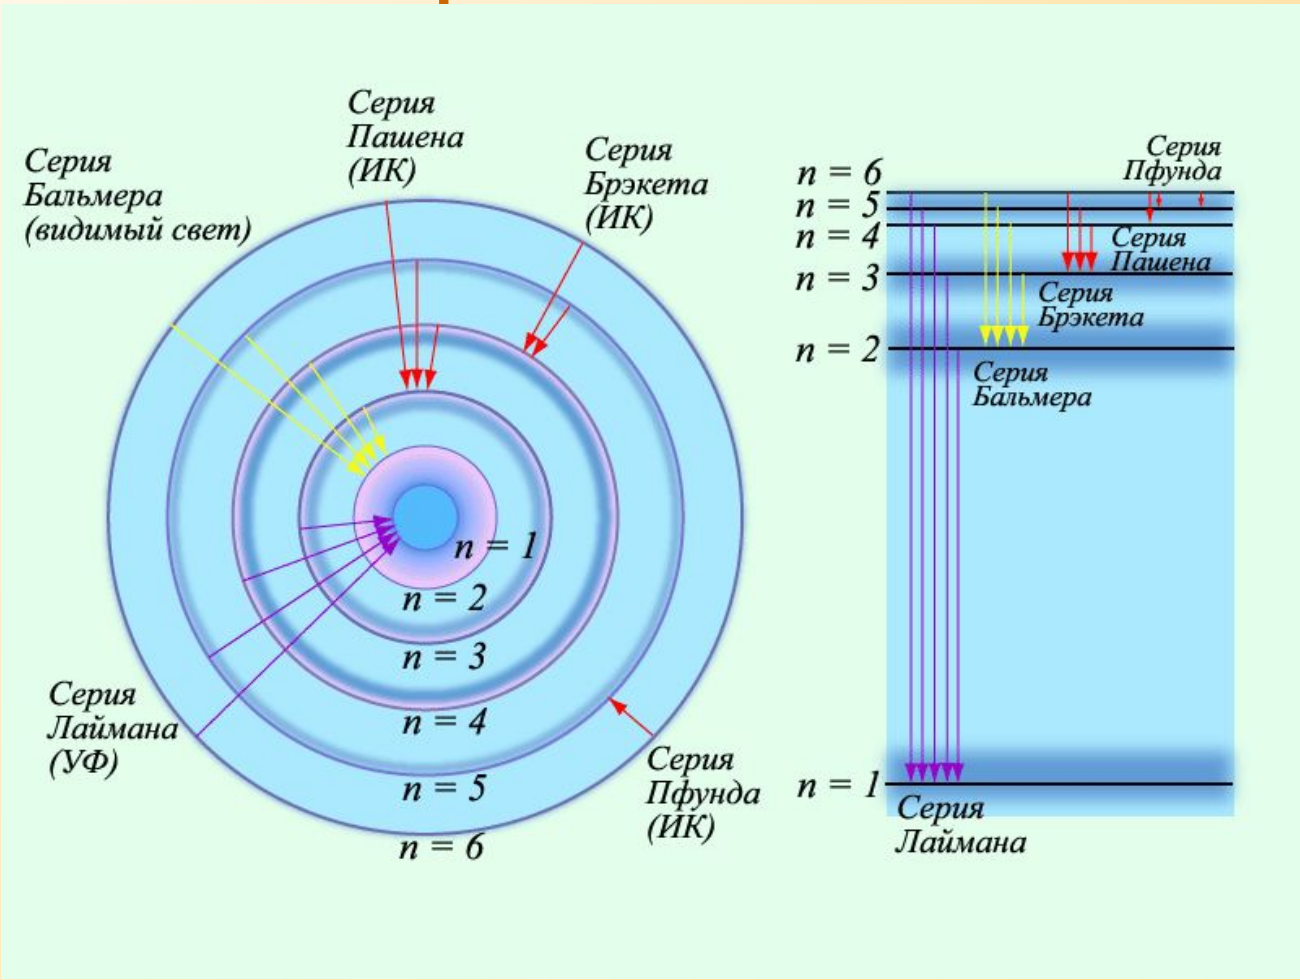






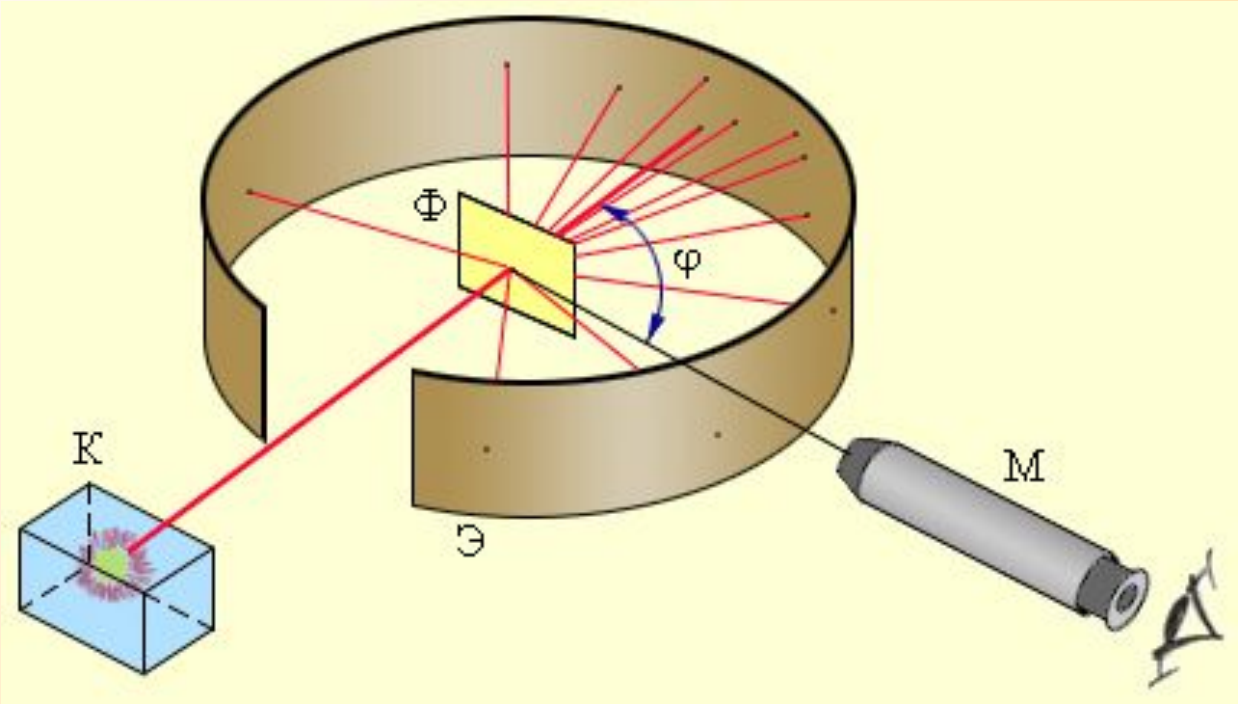
главная

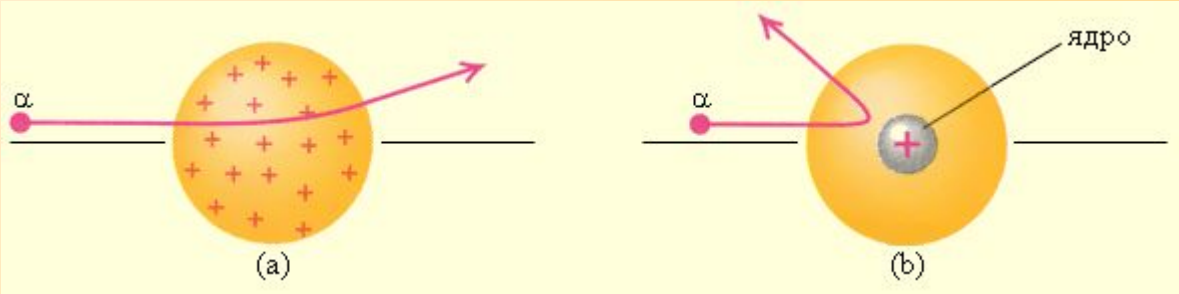
Атом водорода по Бору. Спектральные линии.



назад

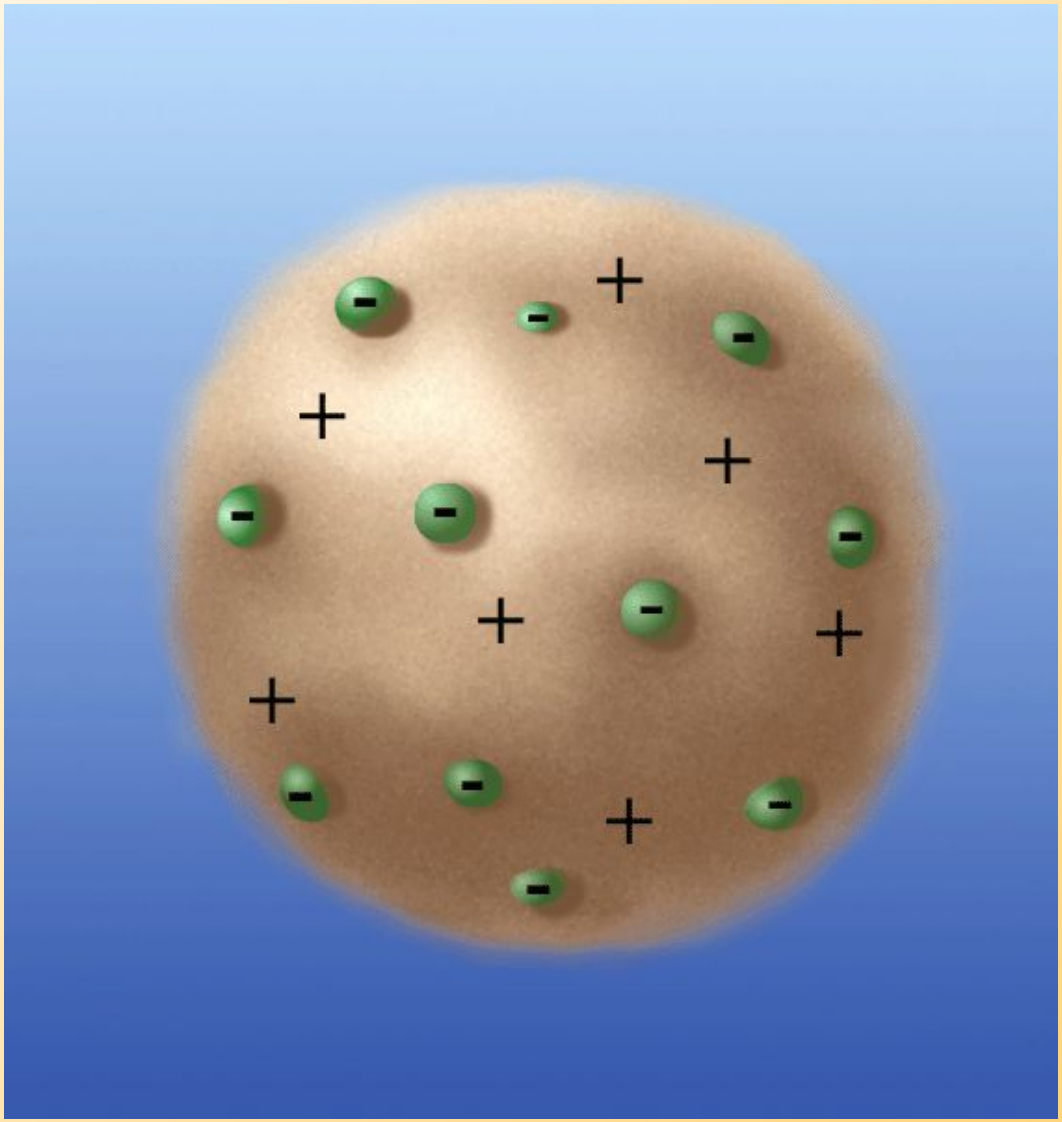
Схема опыта Резерфорда





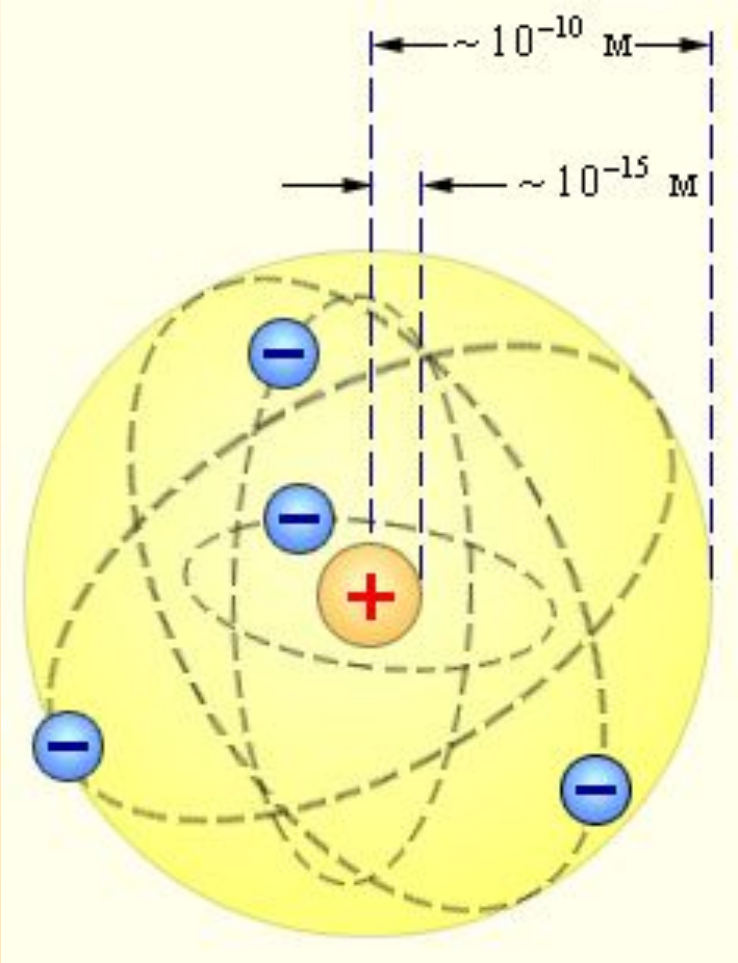
назад

Модель атома Томсона



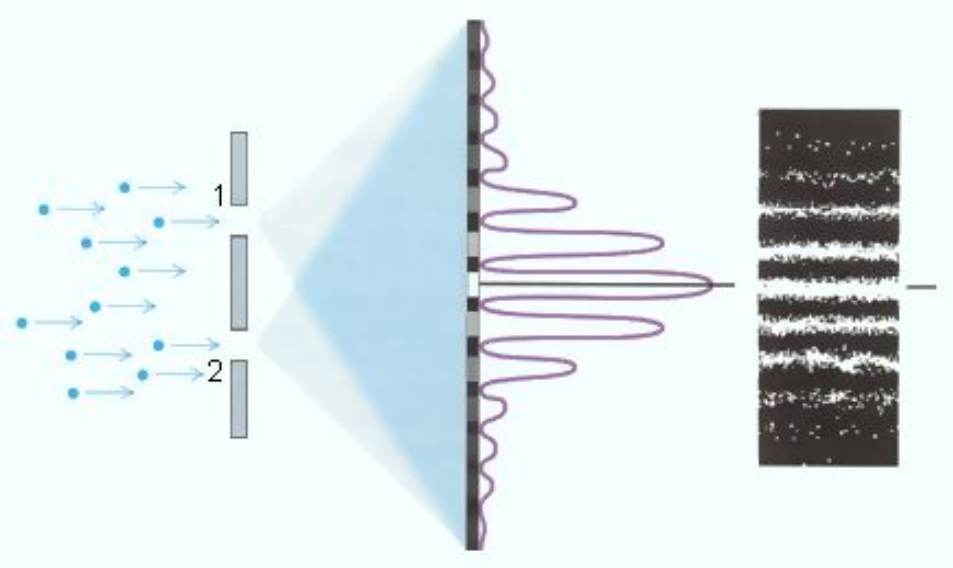
назад

Модель атома Резерфорда

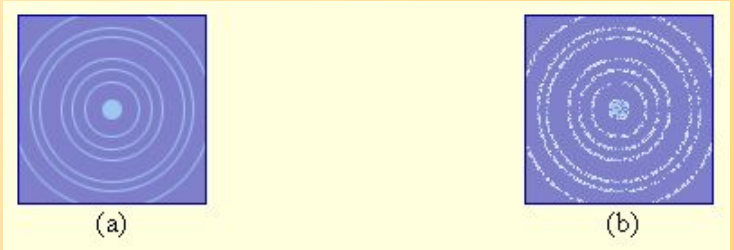


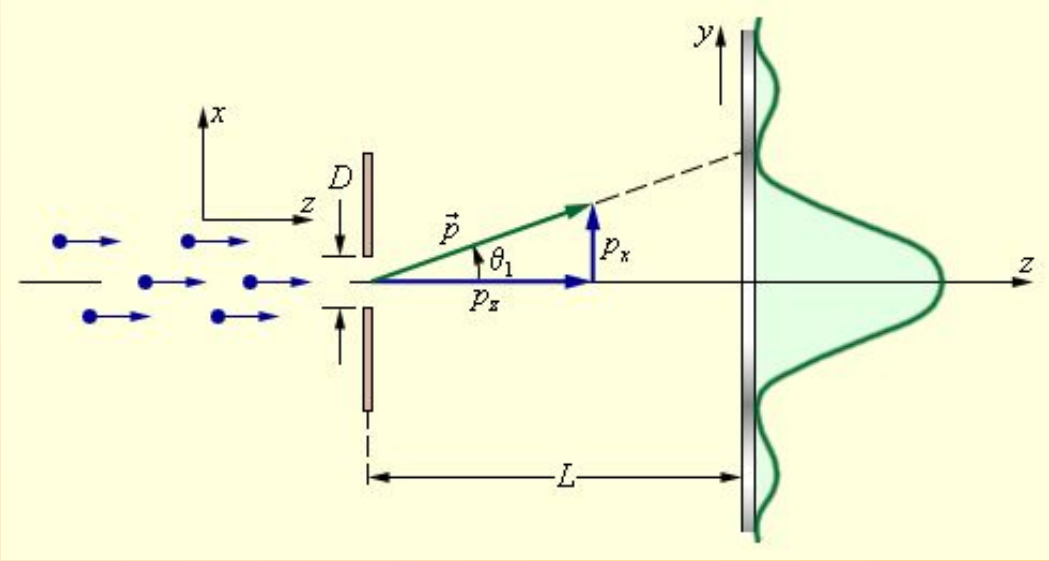
назад

Волновые свойства электронов



а) Опыт Юнга

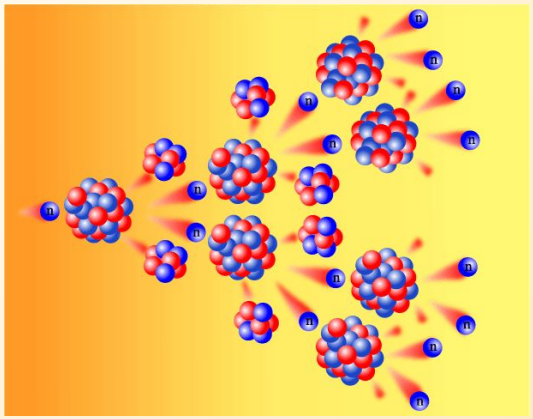


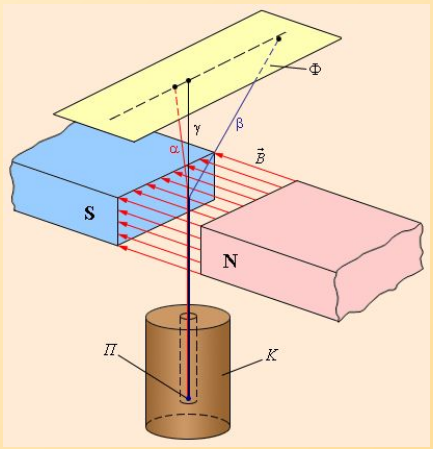


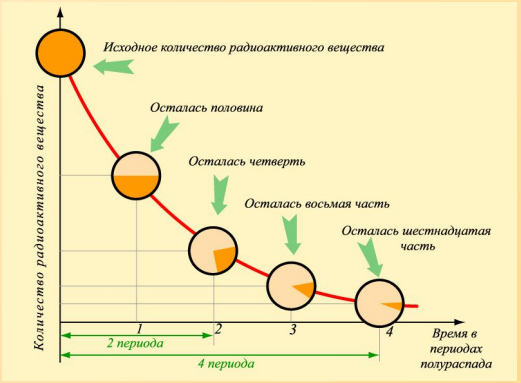
б) Рассеяние электронов

назад

Ядерная физика

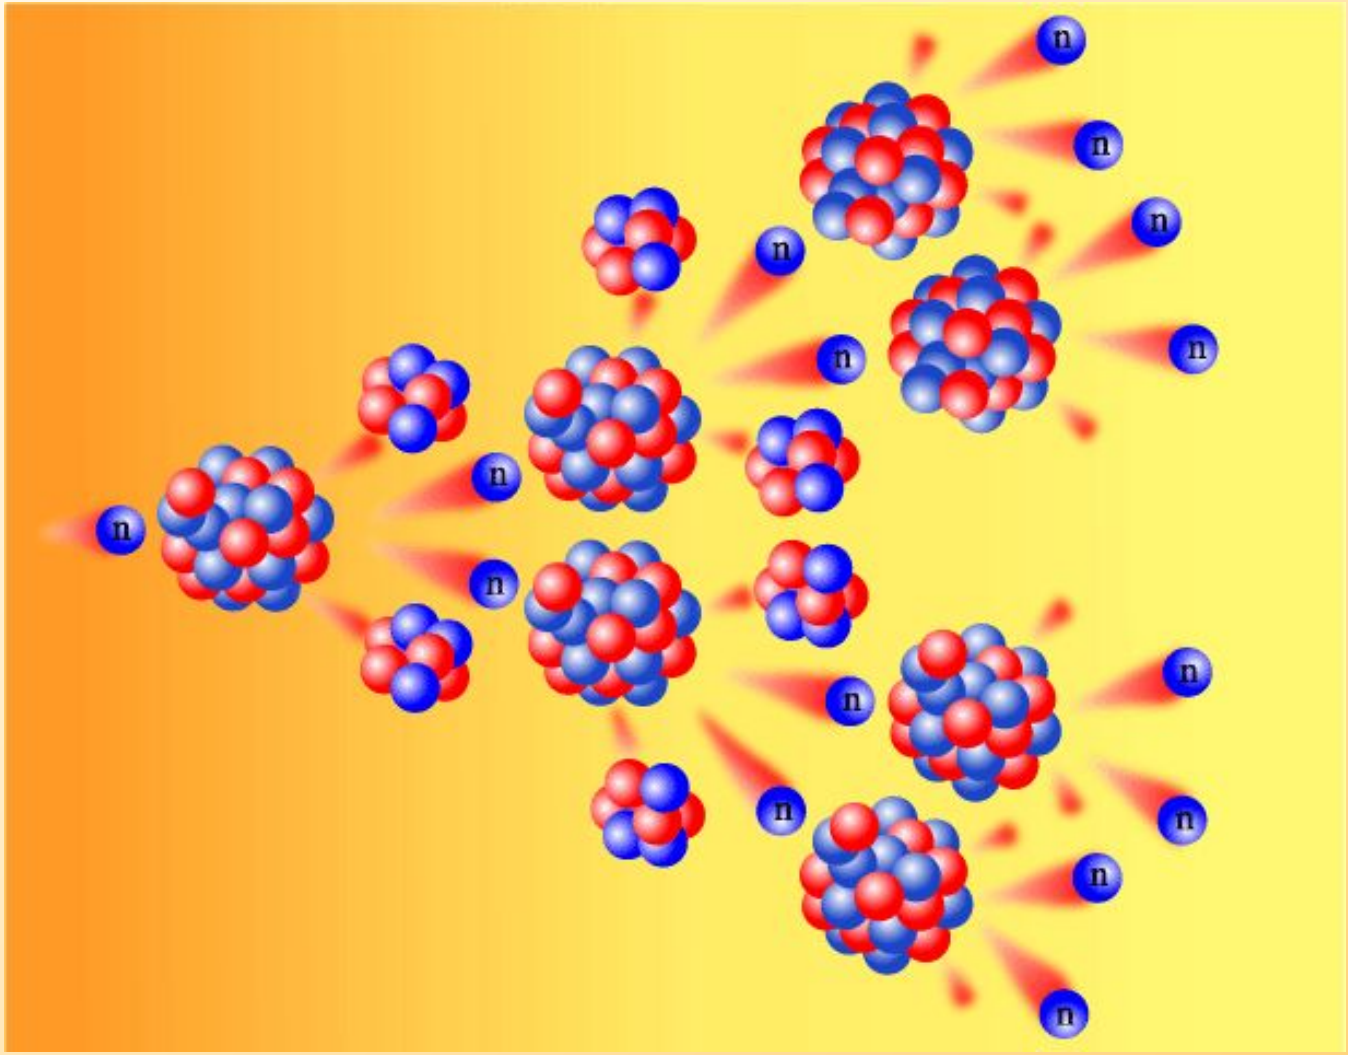






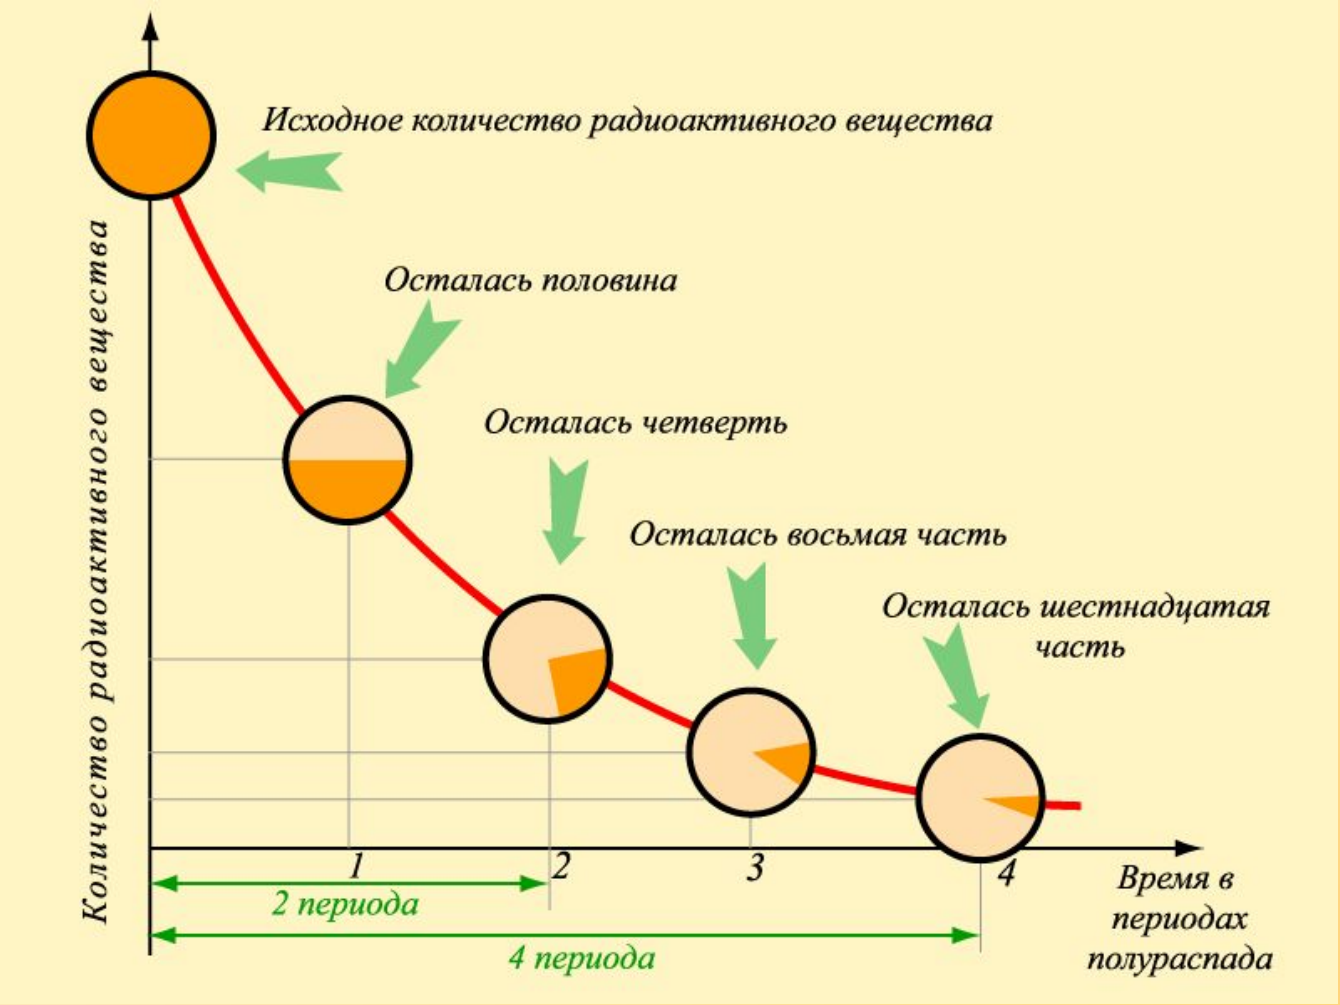
главная

Цепная ядерная реакция



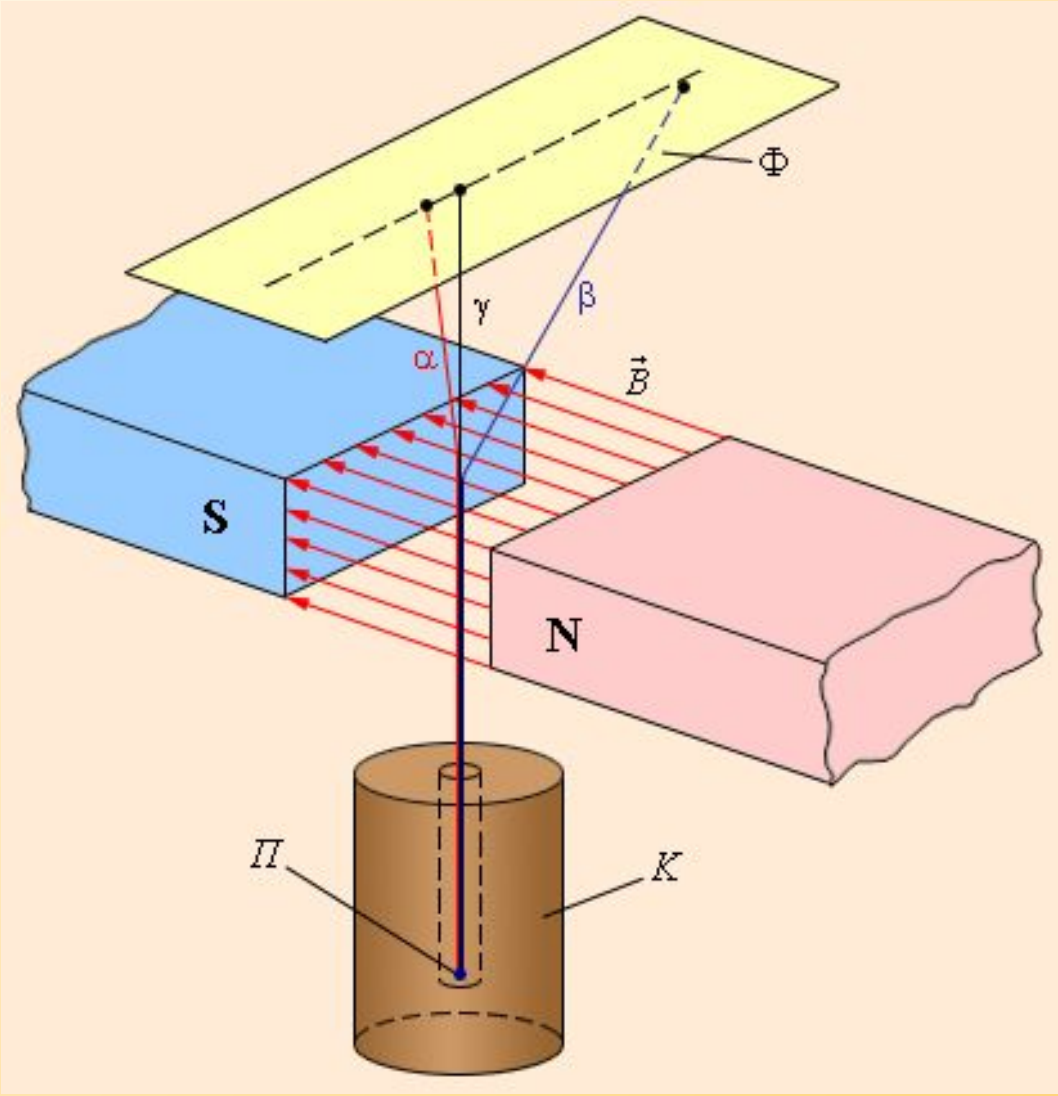
назад

Закон радиоактивного распада



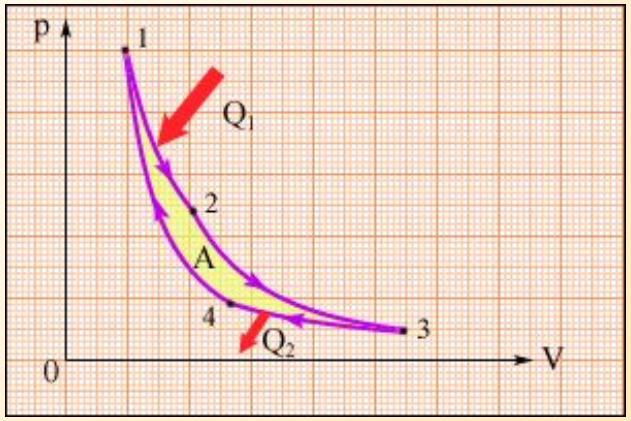
назад

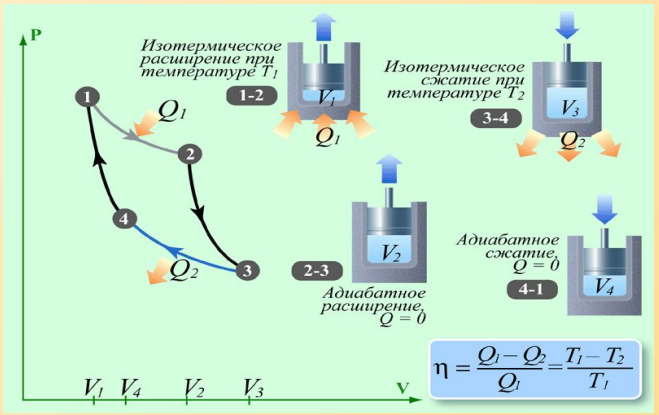
Отклонение излучений в магнитном поле

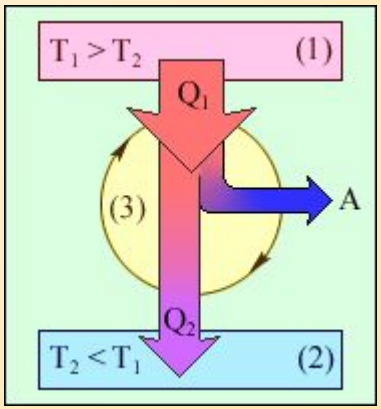


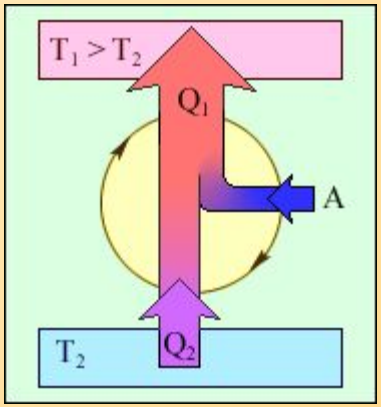
назад

Термодинамика



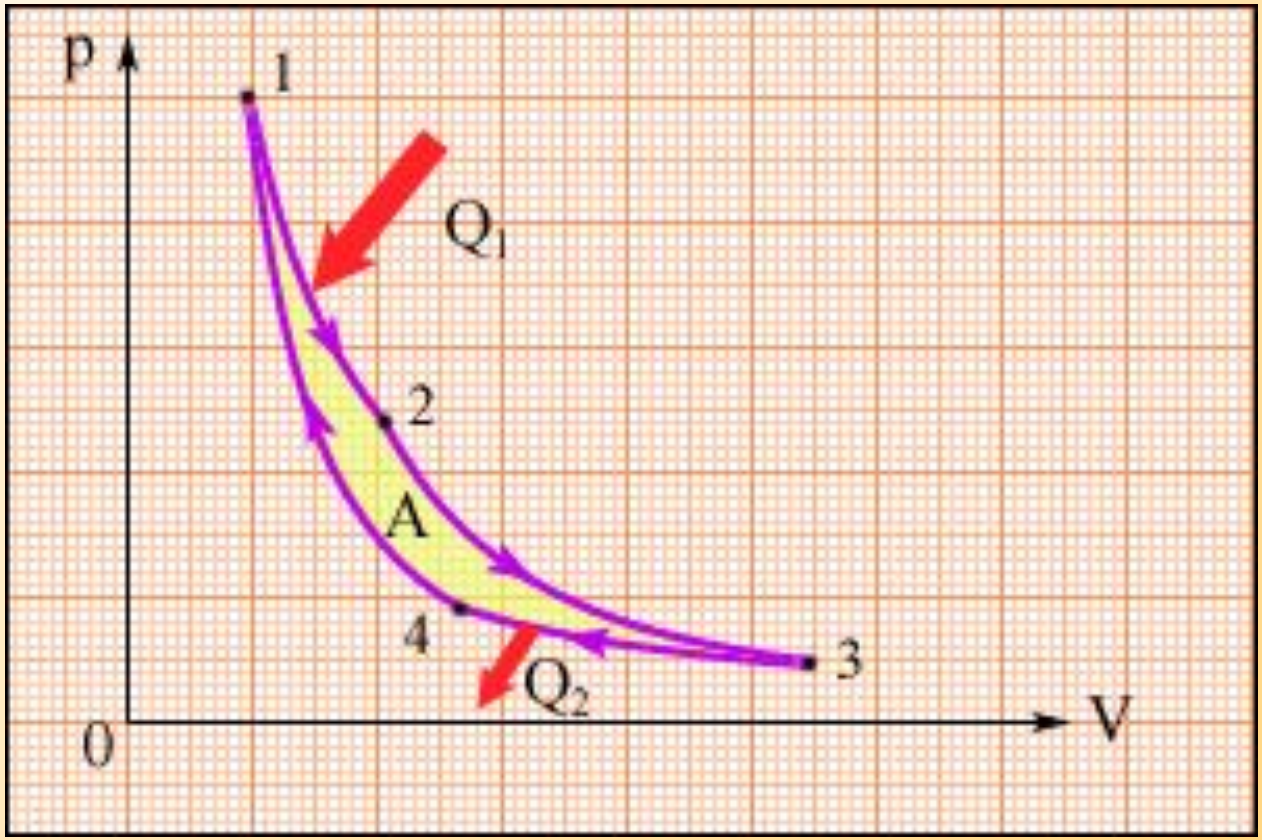






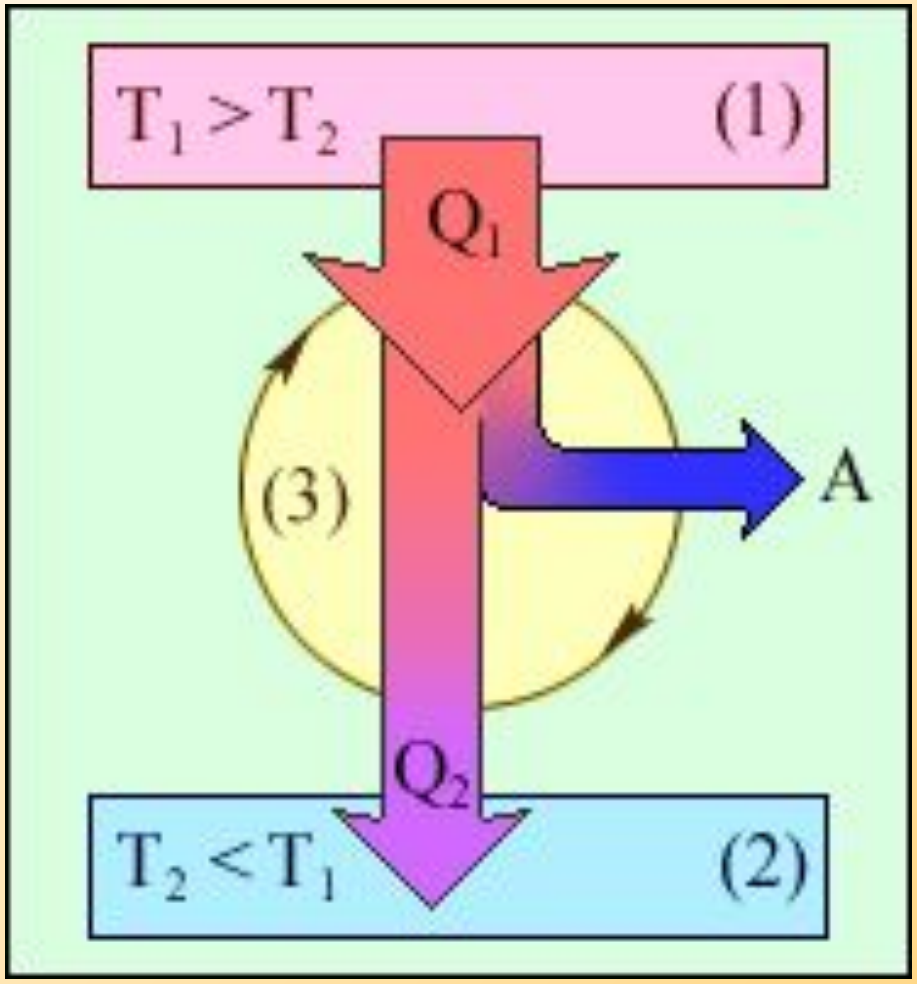
главная

Цикл Карно



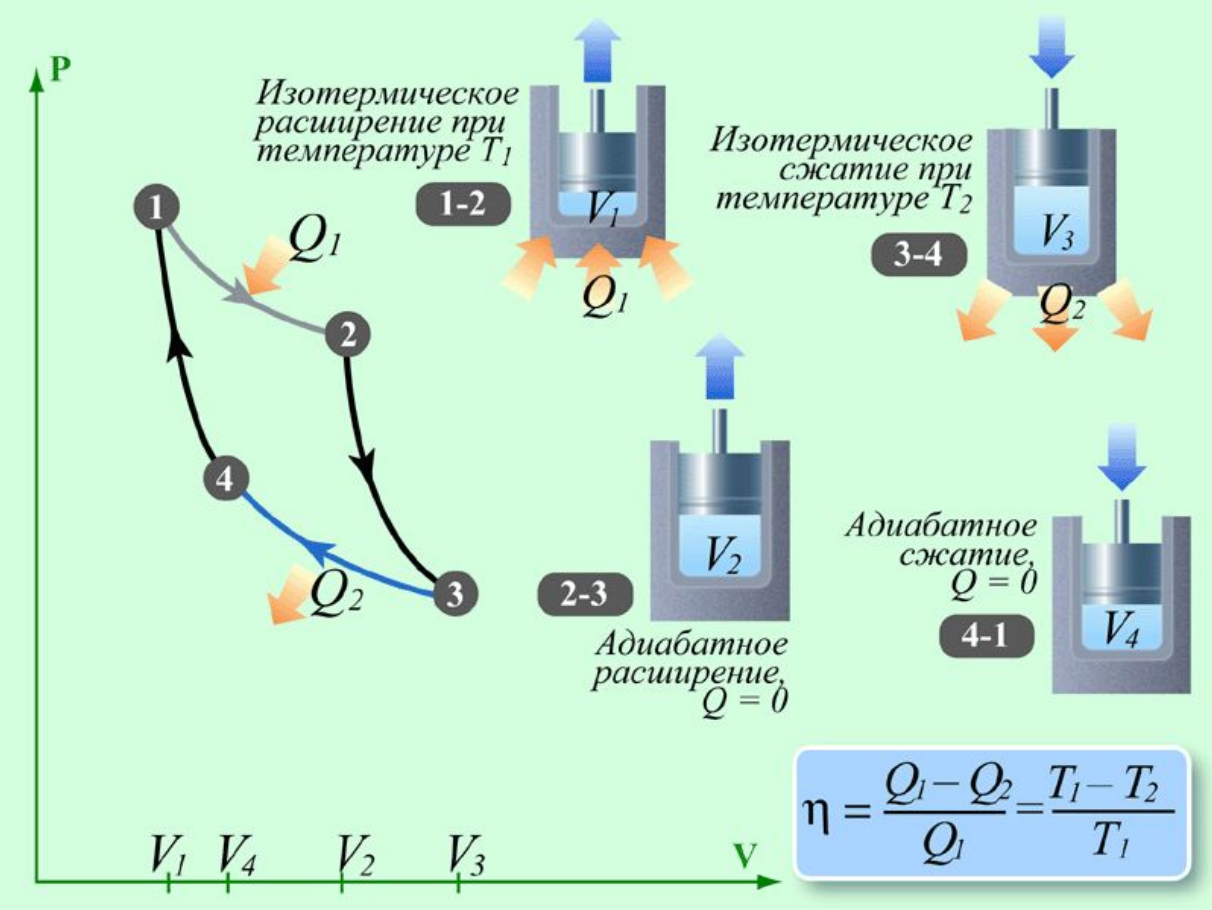
назад

Тепловая машина



назад

КПД тепловых машин



назад

Холодильник
