Goga Viktoria

Economic
system is a
system of

PRODUCING

DISTRIBUTING

CONSUMING goods and
services

It includes

Combination of the
Various institutions

Agencies

Consumers

Entities

that comprise the economic structure
of a given society or community.

A decorative frame with a central triangle containing text. The frame is ornate with floral and scrollwork patterns. The triangle is divided into three horizontal sections, each containing text.

Agencies
and institutions

information flows
between them

the social relations within the
system

THE ECONOMIC SYSTEM INVOLVES

investments

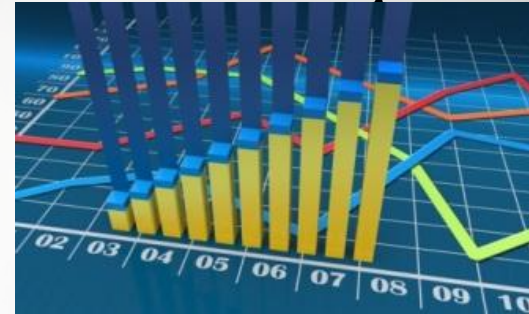

production

Illustration by

the allocation of
economic inputs

distribution of
economic outputs

land availability

households

It is the set of principles by which problems of economics are addressed, such as the economic problem of scarcity through allocation of finite productive resources.

people

rules

relationships

institutions

For example

the employee-employer relationship

socialist
economics

Islamic
economic
jurisprudence

actual
economic
systems

Economic system - the aggregate of all economic processes taking place in society based on the established therein property relations and the economic mechanism.
