Washington, D.C.

The Nation's Capital

History

In 1800, Washington was established as the Capital of the United States of America.

A small governing body moved from Philadelphia to Washington to carefully plan the young republic's new capital.

Starting from a frontier-like town, it has gradually become to the metropolitan community we know today.

Places of Interest

Washington Memorial
National Air and
Space Museum
The White House
The Capitol Building
Lincoln Memorial
Washington Cathedral

The Capitol Building

The Capitol Building, whose cornerstone was laid in 1793 by then President George Washington, is the symbol of American government.

The Capitol Building

Deemed as one of the most stately buildings in the world, it is constructed of Massachusetts marble and Virginia sandstone, with a cast iron dome to complete the building.

Completed in 1865 by Constantino Brumidi, the Frescoe covers the 4, 664 square feet inside the dome of the Capitol Building.

The White House

Was originally designed by James Hoban. Construction began in 1792 and was completed in 1800.

The White House

The president meets members from the Office of Homeland Security and other White House staff in the Oval Office.

The State Dining Room is currently used for formal dining.

Lincoln Memorial

Modeled on the Greek Parthenon, the Lincoln Memorial was designed by Henry Bacon and completed in 1922. Its 36 columns represent the number of states in the Union at the time of Lincoln's assassination in 1865.

Lincoln Memorial

In the center hall of the structure sits a 19-foot tall statue of Abraham Lincoln.

The memorial is located at the west end of the Mall on the banks of the Potomac River and is the site of many historical events, such as the Dr. Martin Luther King “I have a dream” speech.

Museums

National Air and Space Museum

The 23 galleries here trace the history of flight from Kitty Hawk to the current exploration of space. It is the most visited museum in the world.

The national Museum of American History

Exhibits the cultural, technological and industrial developments of the US, from the colonial era to present day.

Washington Cathedral

“House of Prayer
for all People” is
built of Indiana
limestone
without the use of
steel in its
construction.

Washington Monument

- Stands 555 feet high
- Was built in memory of George Washington the nation's first President.
- Was designed by Roberts Mills
- Has an observation platform at the 500 foot

Washington D.C.
is waiting for you!

Welcome
