Зимой –
белый,
а летом –
серый!

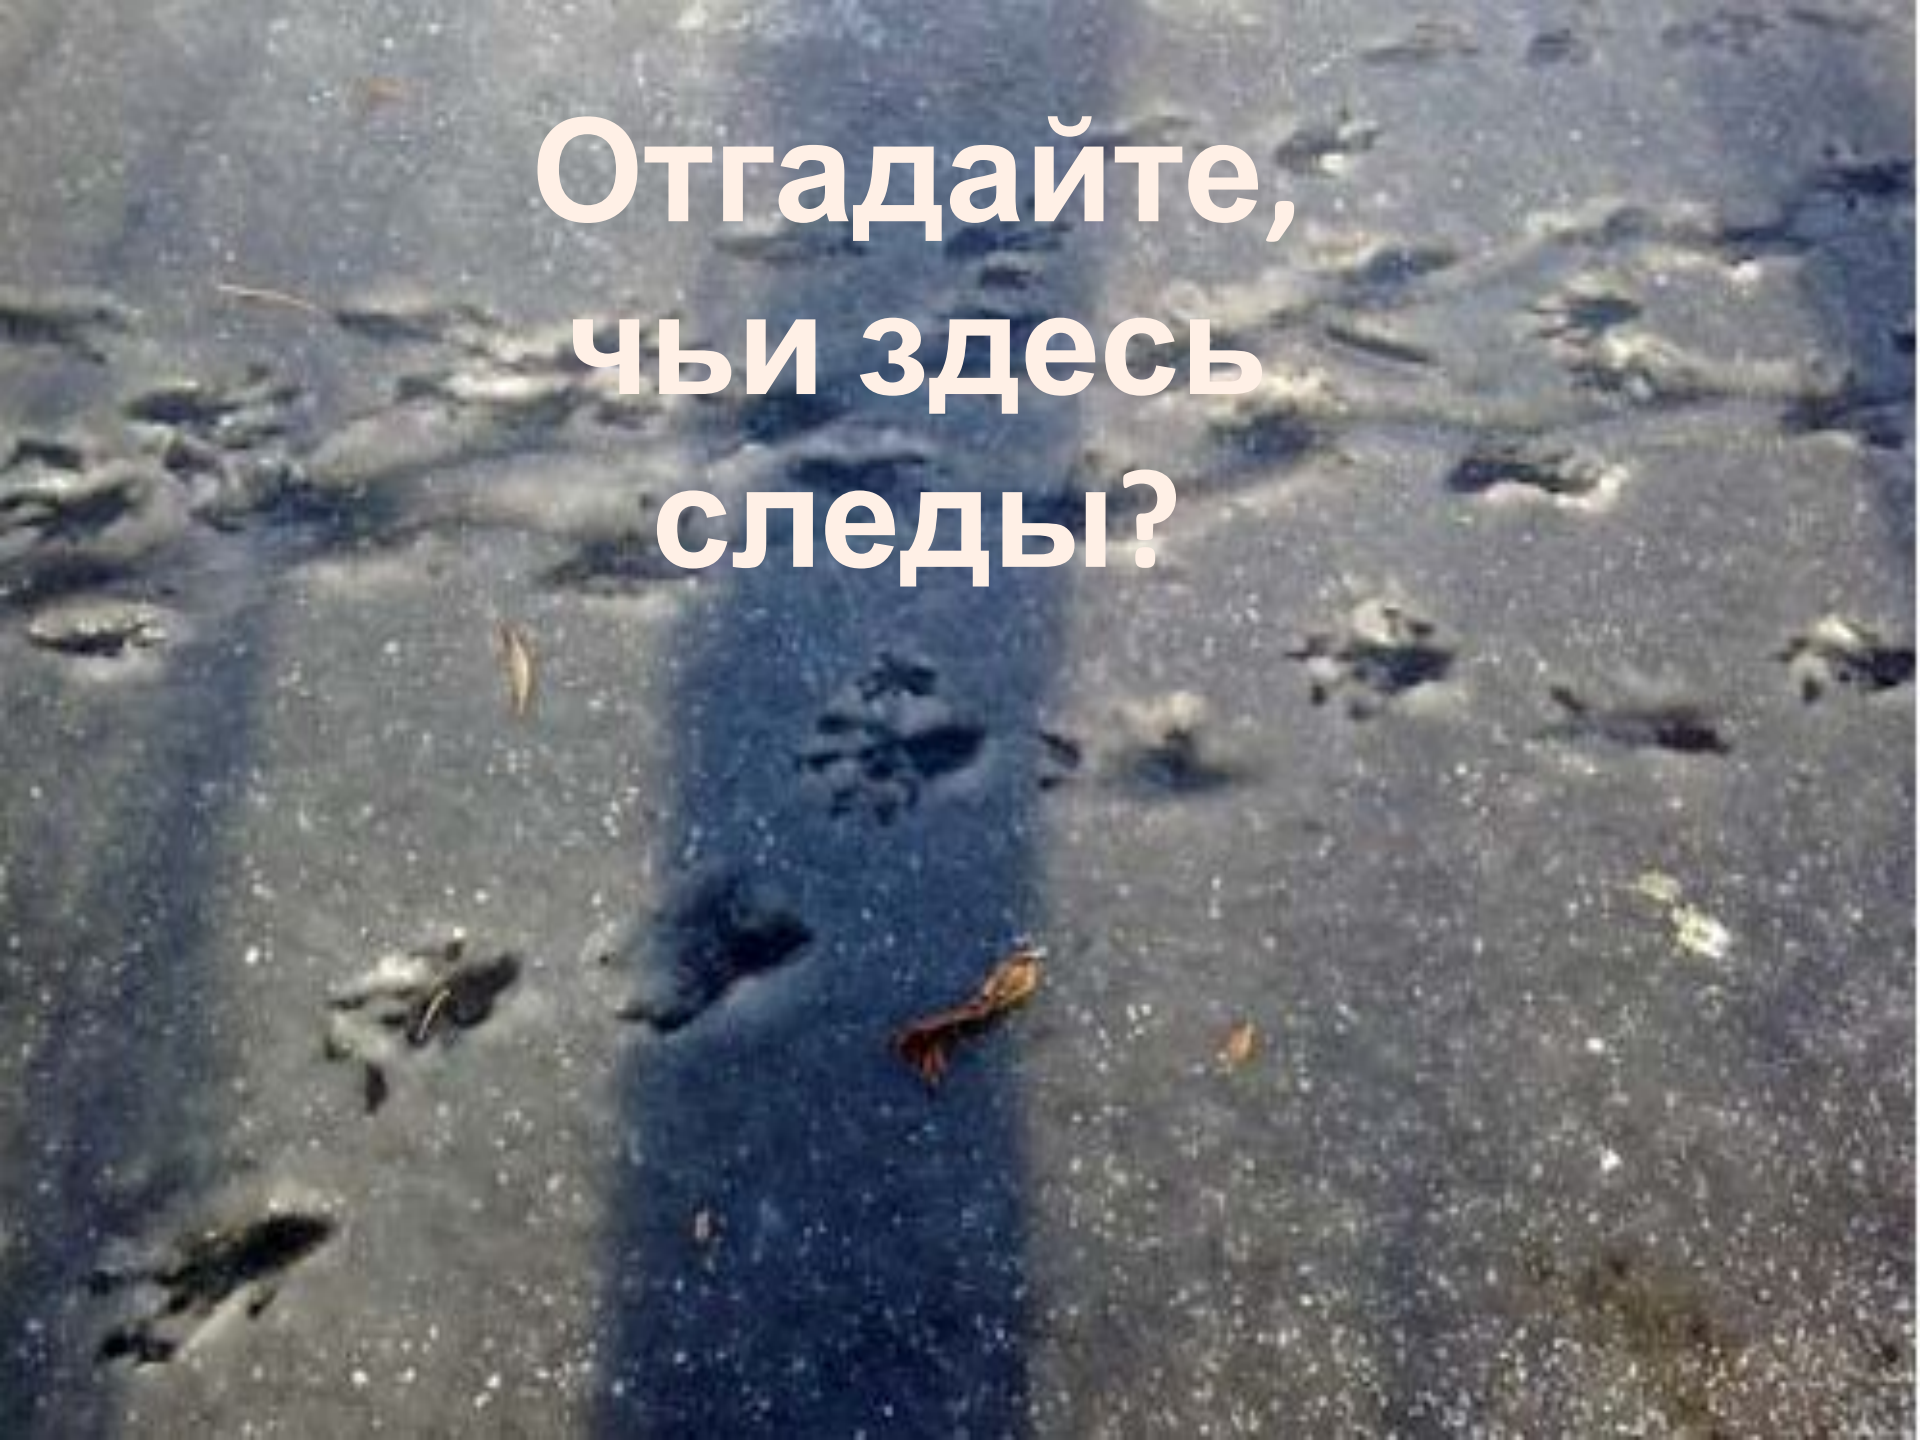

Отгадайте,
чьи здесь
следы?

A photograph of a sandy beach with various animal tracks and a blue shadow cast across it. The tracks are scattered across the sand, some appearing as distinct paw prints and others as more general impressions. A prominent blue shadow, likely from the person taking the photo, is cast diagonally across the center of the frame. The text is overlaid in the upper left quadrant.

A photograph of a snowy landscape. In the foreground, there are several sets of animal tracks in the snow, leading towards the right. On the right side, a thin, bare tree trunk stands in the snow. The tracks appear to be from a small animal, possibly a squirrel or chipmunk, as they are small and close together. The snow is bright white, and the overall scene is quiet and still.
