

The School of the Future

Lena Alifanova

3A2

Our future schools will have glass walls, lasers and a wonderful

Classrooms

Will be supplied with equipment: modern computers and comfortable working place.

There will be a large auditory, where the principal, staff and governing body can have a heated discussions and solve a vexed questions

The schooling process will have a full-time education. The class-divided and selective system will be based on child's ability and aptitude. Children will have the right of choice of educational system.

Every pupil can serve the Internet with the help of the Electronic Library and has an electronic book. You can find EVERY book in this Library!!!

- All the students will have iPads except books. iPad can be used as a walkman and a reader. Pupils can connect with the On-Line Librarian

Students will always
have an opportunity to
have a meet with
psychologist and doctor
in the school

There will be places for doing sport

**Thanks for your
attention!!!!**
