

Underground shopping centre

Antonic Irina

Introduction

Я, Антоник Ирина, ученица 11-а класса МОУ СОШ №9 города Новочеркасска Ростовской области. По окончании школы хочу стать программистом. Я хочу создать свой необычный торговый центр, который бы находился под землёй.

Живя в Новочеркасске, столице Донского казачества, я хочу, чтобы мой родной город был экологически чист, благоустроен, современен. Поэтому я предлагаю Вашему вниманию проект подземного торгового центра. Это необычное сооружение, на мой взгляд, поможет разгрузить улицы города, создаст макет будущих сооружений, строений 21 века.

При создании этой работы огромную помощь мне оказали учитель английского языка, Литвинова С.Л. И учитель информатики, Рыжикова Н.Б.

Dear buyers, we represented for your attention the new underground shopping center. You and your family can find everything what you wanted. Our center contains three underground floors. On every floor magazines contains a special sort of goods. On first: Butcher's shop, grocery store, shop of vegetables and fruit, flower shop and dairy department. Second underground floor contain shops of clothes of Russian & Foreign manufactures, and jeweler shops. On third floor you can see magazines with soft furniture, audio apparatuses and CD's, drugstore and more many others. All center looks very beautiful. New design of shops takes you attention to his form & color.
