

My country is small
country

- In my country there are many things.
- It has a small building of a post office and a little church, a bank in it.

- There are some monuments-monument to Lenin, Stella of soviet warrior.

- It's kindergarden. It has a lot of children. Children do not spoil the environment in kinder garden.

- It's white house. Many people work in it. It has many rooms. In this house solve the important questions!

- There are many houses in Gulyay-Borisovka . It is one of them.

- In our village there is the beautiful nature! The Birch – the most beautiful tree!

- It is administration house of kolkhoz. Office workers, head, economists, book-keepers, accounts department work in it.

- The water is polluted! It is bad! We have beautiful fields! Keep off the fields!

- It is my school! It has a lot of classrooms. They are not big but they are light. In it 500 people study. Teachers are kind and clever. I like to go to school.

- Trees are cut down. And I think children can help to protect nature. Often my friends and I clean the park and school yard. It's good! If people keep of the grass, they don't spoilt the environment.
