

«Impact of media on shaping
the world and behavioral
characteristics of adolescents»

- Everyone of us living in the modern world constantly face mass media. It occupies a very important part in our life. They affect our world outlook and very often completely develop social opinion. We get some news every day, reading magazines, watching TV or just spending time in the internet, but we cannot be sure of their reliability. Teenagers are the largest consumers of this kind of information as the most intensively a person develops till the age of 18.

The most popular of them are:

1.TV

2.Press

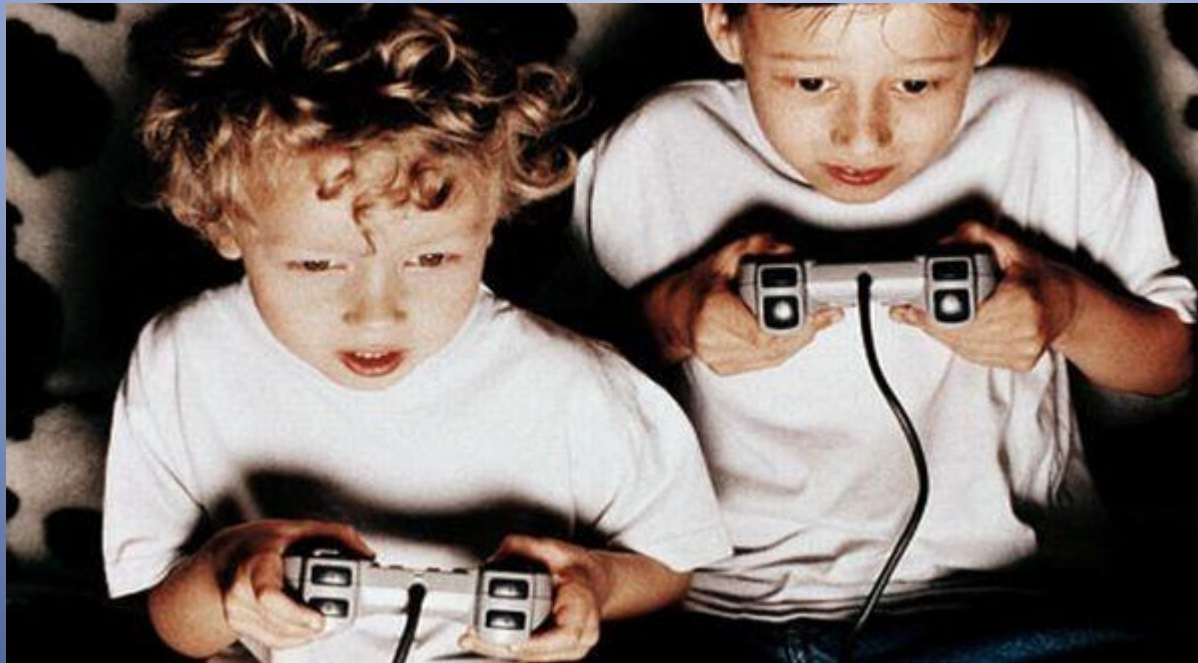

3.Internet

A large group of young people, likely students, are seated in a lecture hall or classroom. Many of them are using laptops, which are open in front of them. The students are diverse in age and appearance, and they are all looking towards the front of the room. The text "What attracts young people most in this huge treasury of information?" is overlaid on the image in a white, serif font.

What attracts young people most in
this huge treasury of information?

As it turned out the most popular activity in the internet is to view funny videos and spend a lot of time playing games.

I also decided to make a survey and find out what games are popular at school “Bayard”. I divided games into 3 kinds: strategies, shooters and quests.

The results are the following:

№	Name, class	Age	Strategies “Starcraft”	Shooters “Call of Duty”	Quests “Sam and Max”
1	Fattahov Oscar,6A	12		✓	
2	Kashapov Artem,6A	12	✓

According to the table we can say that 40% of students are fond of fights, 23% of students like videos where people play different musical instruments and 37% of students enjoy other kinds of videos.

**We should solve this problem in spite of the
fact**

**that someone may not like it. Our future
depends on young generation. They should be
sensible both mentally and physically.**

Thank you for attention!
