SWARZĘDZ - ŻALASEWO

SWARZĘDZ – the Town

The documentary evidence for a settlement of Swarzędz comes from 1366.

Today Swarzędz has ca. 30 000 inhabitants and has a common border with Poznań – the Capital of Greater Poland Voivodeship. Swarzędz has a land area of only 8.58 km², therefore it is the fourth most densely populated city in Poland.

Below we present some information about the places of interest in our town and the surrounding area. At the end we will give some information about our school.

Welcome to 52°24'30"N 17°04'17"E

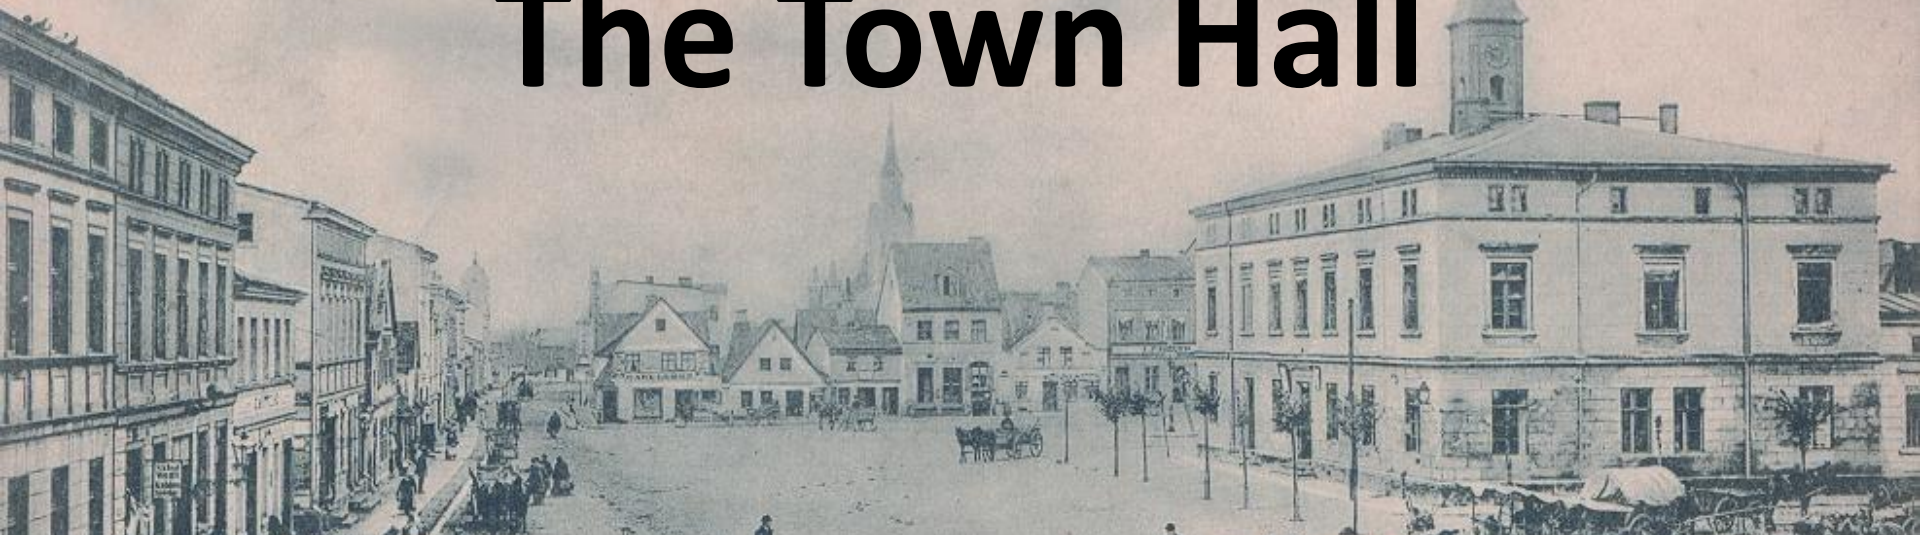

Enjoy the presentation!

The Market Square

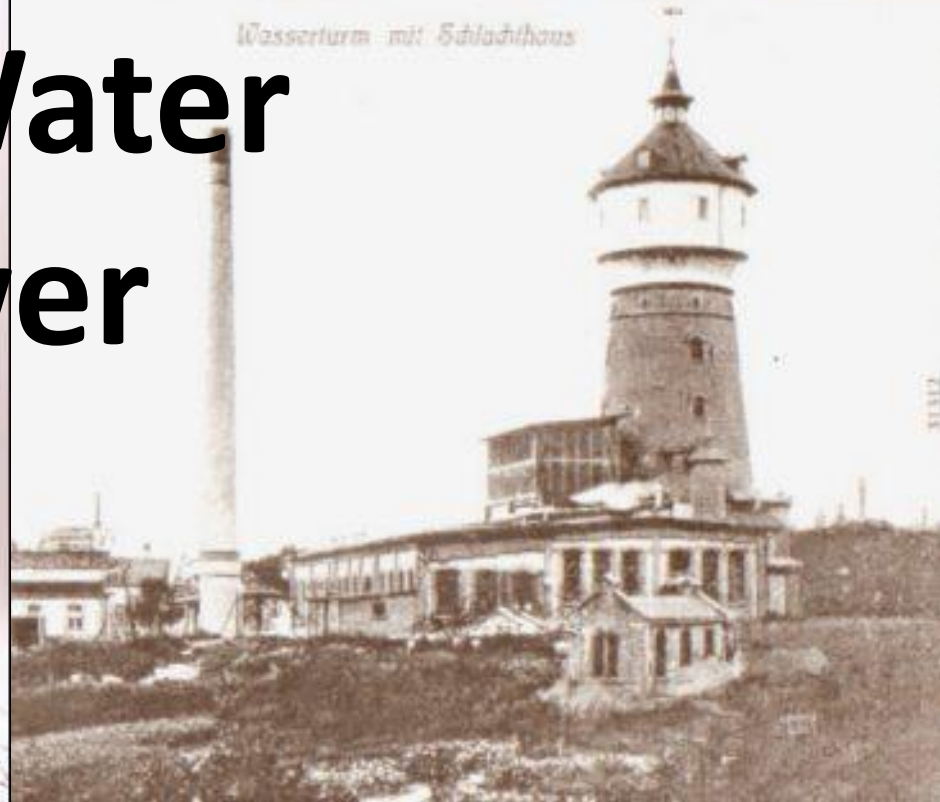

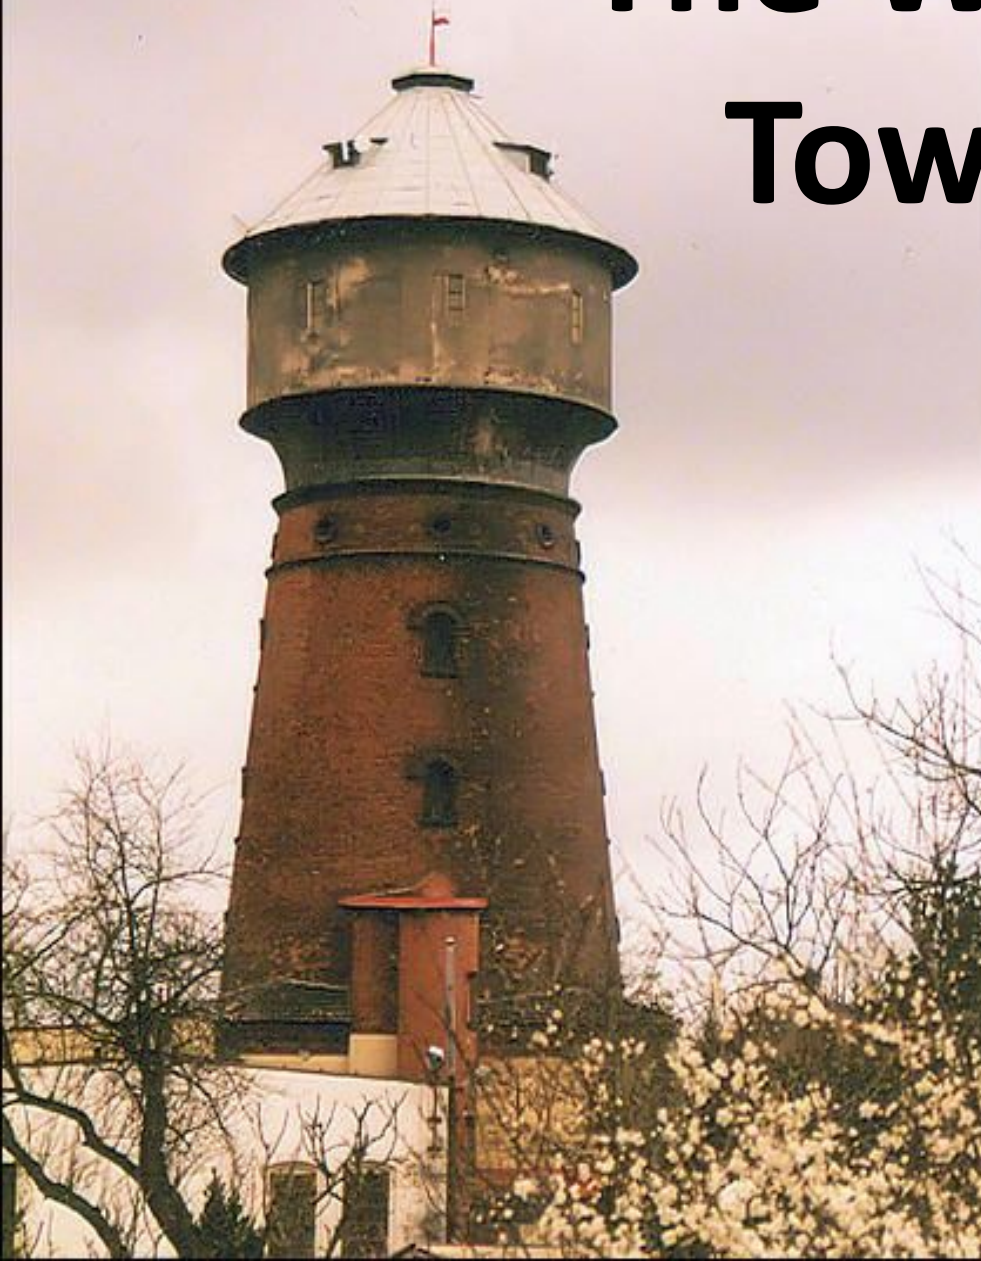

The Market Square is the main point of the town. The social and commercial activities have focused here over the years. A large number of local handicrafts caused a systematic development of the town. The central point of the Market Square is the Town Hall with the office of the Mayor of the town and the local authorities.

The Town Hall

The town hall was built in 1860. During the German occupation from 1939 to 1945 it was rebuilt by the Germans. Today the town hall is the office of Mayor of Swarzędz

The Water Tower

Built around 1903.

The water tower is a building in the form of a tower. At the top there is a water tank, used to provide a stable pressure in the pipe.

The water tower covers a temporary increase in demand for water. The tank must be located high above the ground to ensure a proper water pressure.

On railway stations the water tower was used to supply steam locomotives in the water.

The Town of Carpenters

Swarzędz is known as a town of carpenters. In 1905 Antoni Tabaka grounded a first furniture factory. After the WWII the factory has been nationalized and continued to produce furniture as „Swarzędzkie Fabryki Mebli” with a green logo, well known in many countries. The factory existed until 2009.

Fabryka mebli A. Tabaka w Swarzędzu, ok. 1934r.

The railway station

The railway station in Swarzędz was previously called Schwaningen, Schwersenz
Swarzędz railway station is located on the European railway route E-20 connecting Paris with Moscow, via Berlin, Poznań and Warsaw

Aero Club Ligowiec

07 Poznań-Kobylnica Airport
Known as: Ligowiec Airport.
ICAO code: EPPK
Owner: Aero Club Poznań
Grounded: 1919
Runway 07: 750x100 (grass)
Runway 20: 870x200 (grass)

The Cascader Park

cp
cascaderpark

The Cascader Park is an adventure park in Kobylnica near Swarzędz. The park offers unforgettable experiences on ropes and zip-lines for everyone. All paths have a graded levels of difficulty. You don't have to be super-fit to enjoy it.

The Miniature Park

A wide-angle photograph of a miniature park. In the center, a large brick church with two towers and dark roofs stands prominently. To its left is a white building with a red roof. In the foreground, a pond with lily pads and reeds is bordered by a blue tarp. To the right, there are several small wooden houses with thatched roofs. The park is surrounded by lush green trees and manicured lawns under a cloudy sky.

An open space miniature park is located in Pobiedziska, near Swarzędz. It shows 35 miniatures of well known buildings from our region in scale 1:20. Opened in may 1998

Volkswagen

In Swarzędz is located a warehouse of ready-made cars from Volkswagen-Poznań factory.

If you have an VW-Caddy you can be sure, it is made in Poznań, because the VW factory in Poznań is the only one in the world, that produces VW-Caddy

In Swarzedz there is also the factory of special vehicles such as ambulances, postal vehicles, etc.

The IV. Exhibition „Under the Lime Tree”

The hunting style mansion "Under the Lime Tree" was built in early twentieth century. It is located in the old park, which features a unique and Europe's largest open-air beekeeping museum.

The exhibition shows the environment of bees, beekeeping history, and a rich collection of equipment related to the work carried out in an apiary.

The Open-Air Beekeeping Museum

The open-air beekeeping museum is the main point of all excursions to Swarzędz.

The museum presents the history of beekeeping in Poland. In the museum you can arrange a presentation, where you can taste all sorts of honey and do your own souvenir-candle from the bees-wax

The "Water Paradise"

The big attraction for the whole family is a swimming pool „The Water Paradise". This modern sport utility has a large car park (also adapted for the disabled) and is located in a convenient place near the Swarzędz Lake.

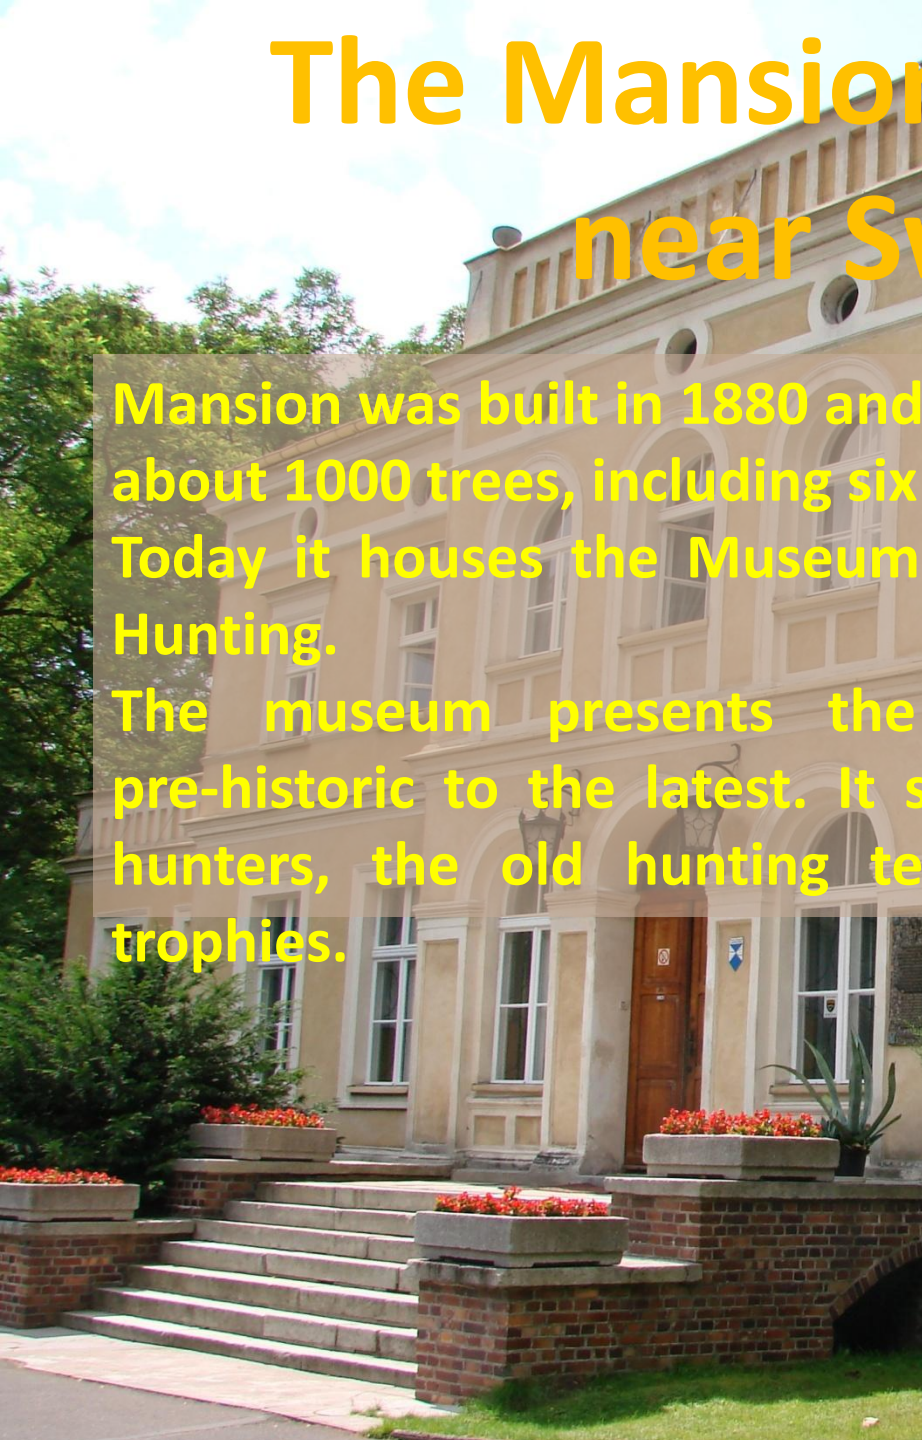

In addition to various water activities there is a bowling course, coffee shop and a beauty center.

The Mansion in Uzarzewo near Swarzędz

Mansion was built in 1880 and is surrounded by a huge park with about 1000 trees, including six very old monuments-trees. Today it houses the Museum of the Natural Environment and Hunting.

The museum presents the history of hunting from the pre-historic to the latest. It shows the equipment of the first hunters, the old hunting techniques, weapons and hunting trophies.

Swarzędz - Zalasewo

52°23'23,36"N 17°

04'31,65"E

Zalasewo is a small village within the Swarzędz municipality approximately 3 kilometres south of Swarzędz. Today Zalasewo is a part of Swarzędz and is therefore described as Swarzędz-Zalasewo. It consists mainly of the newly built houses of people who previously lived in Poznań or Swarzedz. Zalasewo is a sleeping room for them and they commute mainly to Poznań to work. The number of new buildings grows very rapidly.

One of the new buildings is our school.

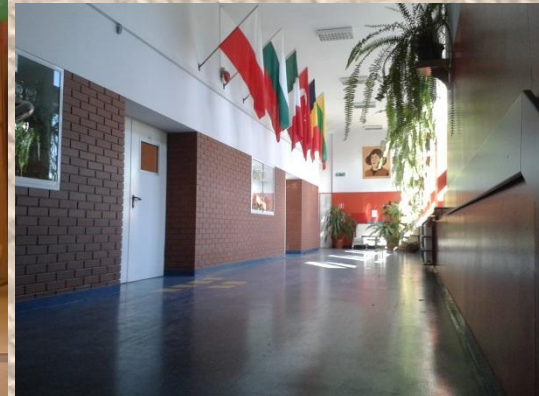

Gimnazjum im. Mikołaja Kopernika
w Zalasewie

Our School

The new building of our school was built in 2005, so the school has been relocated from Swarzędz to Swarzędz-Zalasewo

Today we are 399 pupils

Our School

We learn in a very modern environment with access to the latest technology

We have many different activities

- Sport
 - Theatre group
 - Choir
 - Handyman club
 - Journalist club
 - Language (English, German)
 - „You can be Einstein”
- and many others

We take care about our environment

We learn about how to take care about our environment, because we know that it is our future

Our projects

We participate in many different projects:

- Meteorological - We have our own weather station equipped with the necessary equipment for basic measurements of weather. We publish our observation on <http://www.meteo-zalasewo.cba.pl/>
- "Climate Project" an international project, in which we work together with schools from the other countries such as Great Britain, Sweden, Slovenia, Turkey, the Netherlands, Italy and Spain. The main objective of this cooperation is the exchange of information on climate impact on social life in different countries.
- We are going to participate in project „GLOBE” (The Global Learning and Observations to Benefit the Environment) very soon!
<http://www.globe.gov/>
