Твердое вещество

A stylized tree diagram with a brown trunk and green foliage. The trunk is labeled "Строение вещества" (Structure of matter). The branches are labeled with various scientific terms: "пар" (steam), "вода" (water), "лед" (ice), "агрегативное состояние" (aggregative state), "диффузия" (diffusion), "атомы" (atoms), and "молекулы" (molecules). Several green circles with question marks are scattered among the leaves. At the bottom of the trunk, there is a small circular icon of a person. The entire diagram is set against a yellow cloud-like background.
