

The background of the slide is a solid green color with a faint, stylized pattern of overlapping leaves and branches in a slightly darker shade of green. The leaves are scattered across the frame, creating a natural, organic feel.

2009

Aims:

- Practical application by teachers and pupils at school.
- Enlarging outlook.

Earth day

April 22 is a special day around the world. On that day inhabitants of Earth celebrate Earth Day. The first Earth Day was held in the U.S. twenty two years ago, in April 1970.

Earth Day is a time when many people show that they care for our planet. It is a day for people to learn what they can do to preserve the planet EARTH.

Hug The Earth

Walking along feeling free
Feeling the earth here with me
And I love her, She loves me.
I hug the Earth, the Earth hugs me.
She's our friend,
We'd like to be together forever...

Lorraine Bayes

An Apple as the World

Lets imagine that our planet is apple. Cut the apple into quartes. Three-quarters $\frac{3}{4}$ of Earth's surface is water and only one-quarter is land. Cut the piece representing land in half. Only one-half the land is habitable. The rest of the land is the deserts, mountains and other places people cannot live.

And if you want to know, that would happen if this part of the world were destroyed, eat the piece of apple.

Eco-Experiment Back To The Earth

What you'll Need

- an apple core
- a traffic ticket
- A wooden stake
- A plastic bottle

What To Do

1. Find a sport to dig a few holes.
2. Dig four holes.
3. Put the apple core n one hole, a traffic ticket in the plastic in the fourth hole.
4. Mark the sports.
5. Wait a month, then go back and dig them up.
6. You will find the plastic and stake, but the ticket and maybe the place of apple will gone.

What You Discover

The apple core and the traffic ticket are biodegradable; they can become part of the Earth again.

But the plastic packaging is still there. It is made from the Earth's resources, but we have changed them into something that cannot become a part of the Earth again.

Adopt A Piece of The Earth

Pick up litter. Put up signs that say, «Please don't litter»

Make it nicer to look at by planting flowers.

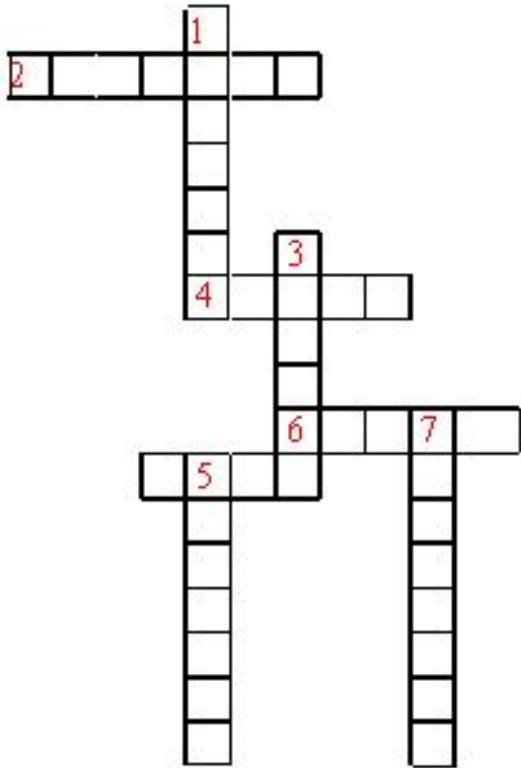

Plant shrubs or tree on your plot to provide food and shelter for birds.

Hang a birds feeder to give birds food all year round.

Test your EQ

Down:	Across:
1. A species that no longer exist on Earth.	2. A packaging material
3. We breathe it in.	4. Another word for poison
5. Spray can.	6. Kids for saving _____
7. Rush-hour
