

A black and white aerial photograph of New York City, showing a dense urban landscape with numerous skyscrapers. The Empire State Building is the most prominent structure, standing tall on the right side of the frame. The sky is filled with large, fluffy clouds, and the city extends to the horizon. The text "Once upon a time, in New York" is overlaid in the center of the image.

Once upon a time, in
New York

A black and white aerial photograph of a dense city skyline, likely New York City. The Empire State Building is the most prominent skyscraper, standing tall in the center-right of the frame. The sky is filled with large, fluffy clouds. The foreground and middle ground are packed with various other buildings of different heights and architectural styles. The overall scene captures the vastness and verticality of a major metropolitan area.

My house is quite a large flat in the centre of a big city, on the top of a high skyscraper. The project of the flat is called «Once upon a time, in New York», and it is designed in a retro style.

First, we can see a living room. It is a large room decorated with retro pictures, modern wallpaper, a glass door and lamps. In the middle of the room there is a white soft table and a big green sofa with cushions. Near the sofa we can see bookshelves, and there is a TV-set on the wall.

Then, we can go to my bedroom. First, we can see a big bed with small green cushions and a violet blanket. In the corners there are two armchairs. This room is decorated with Marilyn Monroe photos, black curtains, a mirror-lamp and pictures of New York on the wall.

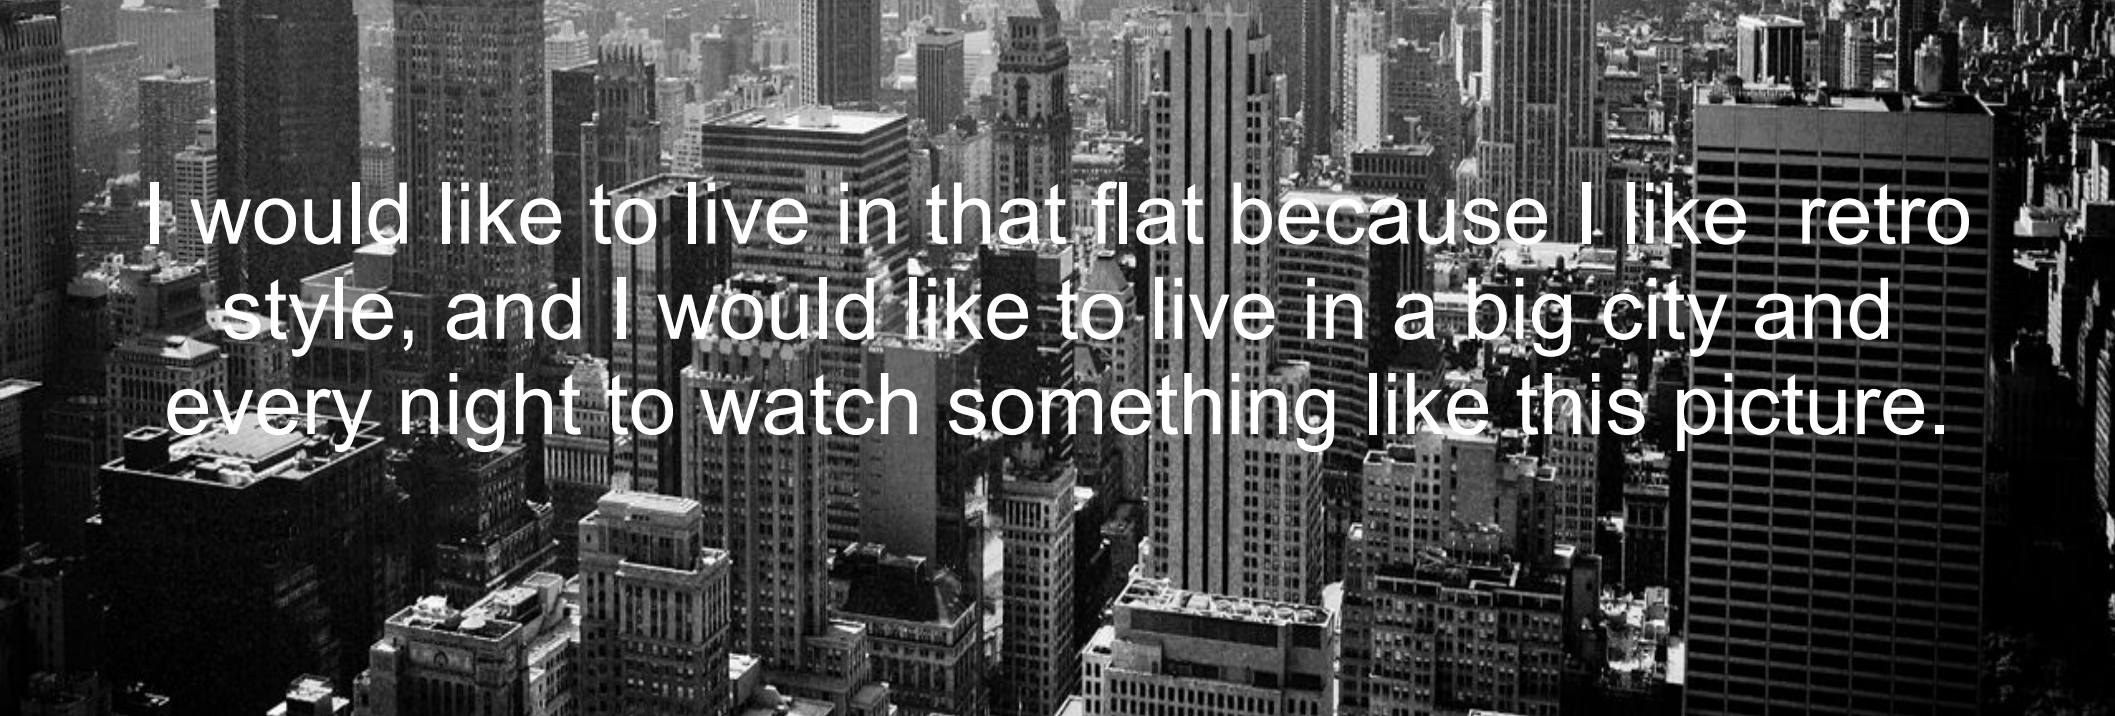

Now, study. This is a very light room, because of a big window and a white ceiling and walls. In front of the window there is a computer and strange black lamps. In the middle we can see a white sofa, a retro photo and modern lamps on the ceiling. On the floor there is a carpet that looks like a tiger.

And what about the kitchen and the bathroom.
The kitchen includes a dining room. In the
bathroom we can see a beautiful washbasin,
made of glass.

I would like to live in that flat because I like retro style, and I would like to live in a big city and every night to watch something like this picture.
