

My dear teachers

Dormidontova Liza
Lyceum 4

Let me introduce myself. My name is Liza.

I'm a third-year pupil of the lyceum. There are 25 pupils in our class: 8 boys and 17 girls. We are nice and smart, crafty and sporty, friendly and funny, but sometimes we are tricky and naughty, lazy and noisy. There are 12 teachers who have to work with us. And I'd like to tell you about them.

First and foremost, Margarita Viktorovna. She is our form monitor. She is young and beautiful like a flower. She is like Mummy who takes care of us, brings us to excursions and checks up the day-books. Besides, she teaches English. Her hobby is camping and horse-riding.

Natalya Yurievna is our teacher of Physical Education.

- She is tall, stately and energetic. She is as fast as a cheetah. I think she swims like a fish. Her slogan is 'healthy mind in a healthy body'. Her favorite sports game is pioneer ball.

Our Maths teacher is Lyudmila Yrievna

She is as wise as an owl. She is kind and with a sense of humor. She likes to say “ It's too late to drink Borjomi”. I can tell you secretly that she perfectly runs the house and cooks like a chef.

Irina Vladimirovna is our guide in the world around us. She knows many interesting facts about the war, the cosmos and animals. She is a person of principle. Only one pupil is allowed to go out during the lesson.

Svetlana Gennadievna is the teacher of Economics

- She's diminutive like a humming-bird. She is cordial and kind. She is never raises her voice. Pupils like to solve riddles and do crosswords at the lessons. She believes her subject is very topical in the contemporary world.

The craft teacher is Andrey Victorovich.

- I can say he is of all trades because he can make everything with his hands. He is all in one : a carpenter, a joiner, a machine operator; he is even good at needlework and embroidery. His favourite saying is “ He who would catch fish must not mind getting wet.”

□ Now about Yury Vasilievich, the teacher of Music.

He is sensitive and creative. He sings and plays the accordion beautifully. Pupils go to Music classes with pleasure: they like to sing, listen about composers and get fives. Yury Vasilievich often says "The way we live, the way we sing."

□ Nadezda Petrovna, the teacher of Art, is also creative. She is good at painting landscapes and telling stories about China and Japan. Arts is one of my favourite subjects. I wouldn't mind to have Art classes every day. As you can judge by the photo Nadezda Petrovna is a good actress.

□ Russian is very important in our life. Lyubov Valerievna believes it's the most important school subject. Lyubov Valerievna is literate and well-read. She is not pleased with pupils who hurry and make a lot of mistakes. She says: «Haste makes waste».

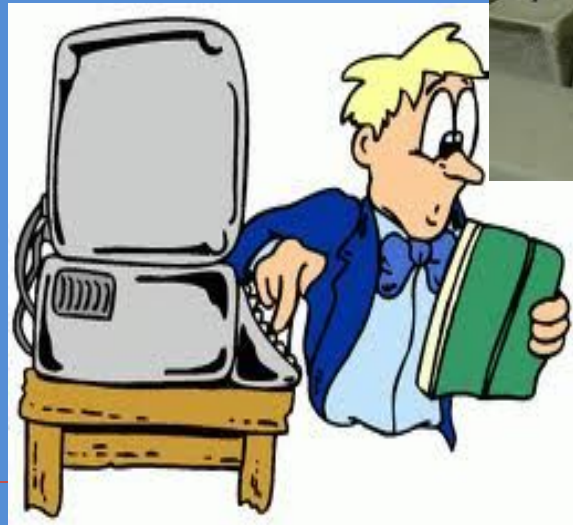

Tatiana Borisovna ,the teacher of Literature,

is womanly. She always well-read and knows a lot about writers. She wants her pupils to be well-read too and she says competently "A book is the best present"

The teacher of Information Technologies is Marina Alexandrovna. She is also womanly and prefers

- ▣ blouses with a flowery design. Pupils like her classes because they can play computer games. She often says
- ▣ “Every modern literate person must be on familiar terms with IT”

And finally Julia Alexandrovna, the teacher of English,
my supervisor and inspiration.

- She is always elegant and well- dressed. She makes the classes interesting: we sing merry songs, play games, work with cards, watch presentations. Julia Alexandrovna is strict, but just, with a sense of humor. She likes to say:
- “He, who wants to find his place in the sun, can’t do without English”

▢ Thank you for your attention
