What should we do?

Fair

We also calculated some investments for charity.

80 rubles

If there are 25 students in a class, each student should give a little bit more than 3 rubles.

3000 rubles

If there are 500 students at school, each student should give 6 rubles.

50000 rubles

If each student can give 125 rubles, we can buy an open-air cage for the shelter!

Let's count again! 3 rub + 6 rub. + 125 rub. = 134 rub.!

NOW THINK HOW MUCH MONEY ALL OF US SPEND ON:

140 rub.

25 rub.

350 rub.

36 rub.

29 rub.

A photograph of a dog, possibly a Golden Retriever, standing on a beach at sunset. The dog is silhouetted against the bright, low sun, which is partially obscured by clouds. The dog is facing right, looking out over the ocean. The water is calm, reflecting the golden light of the sunset. The sky is filled with large, dark clouds that are illuminated from below by the sun, creating a dramatic, high-contrast scene. The overall mood is peaceful and contemplative.
