

FAMOUS PEOPLE OF GREAT BRITAIN

- There are many outstanding people in Great Britain. Britain produced statesmen, thinkers, explorers, musicians, writers, scientists and other people who are well known around the world

Isaac Newton

- Isaac Newton one of the greatest men in the history of science was born in a little village in the middle of the 17th century. He studied math at Cambridge University. Newton's contribution to physics astronomy and math is so great that, he may be considered the founder of the mordent mathematics and physics.

Charles Darwin

- Charles Darwin was born in the beginning of the 19th century. He was a great biologist. He created a new theory of evolution. Once there were only simple organisms living in the seas, hundreds millions of years they have developed to produce all the different kind animals and plants we knew today.

Charles Darwin

- He discovered the law of motion and the universal law of gravitation. He studied the nature of light and colour and came to the conclusion that white colour consists of many different colours known as spectrum. He died when he was 84 and was buried at Westminster Abbey .

Michael Faraday

- Michael Faraday was born at the end of the 17th century. He was interested in electricity very much and spent long months studying this strange force. He discovered that electricity passed from the magnet to the wires and cowbell become a strong electric current. So he opened many laws of electricity and magnetism.

Rutherford

- Lord Rutherford the great pioneer of nuclear physics received the Nobel Prize in 1908 for his investigations into decay of elements chemistry of radiated substances.

Alexander Fleming

- Alexander Fleming discovered penicillin in 1929.

William Shakespeare

- William Shakespeare, the greatest and most famous of English writers, and probably the greatest playwright who has ever lived, was born on the 23d of April, 1564, in Stratford-on-Avon. In spite of his fame we know very little about his life. At the age of six he was sent to school, but had to leave it at the age of 13. His father, John Shakespeare, was a glove-maker, and when he fell into debt, William had to help him in the trade. Just what William did between his fourteenth and eighteenth years isn't known.

William Shakespeare

- At the age of eighteen, he married Anne Hathaway. Ann was eight years older than her husband and the marriage wasn't a happy one. When Shakespeare was twenty-one, he went to London. We don't know why he left Stratford-on-Avon. There is a story that Shakespeare's first job in London was holding rich men's horses at the theatre door. But nobody can be sure that this story is true. Later, Shakespeare became an actor and a member of a very successful acting company.

William Shakespeare

- It's highly probable that The Comedy of Errors, Romeo and Juliet and some other plays by Shakespeare were performed for the first time on this stage. Very soon, however, the actors were told that could no longer use the land that their theatre was built on and the company had nowhere else to perform. There is a story that in the dead of night the whole acting troop took down their theatre, timber by timber, brick by brick. They carried it across the river and rebuilt it. The new theatre was called the Globe. Shakespeare's Globe was rather different from modern theatres .

William Shakespeare

- The plays were performed in the open air and the audience got wet if it rained. There was no scenery, very few props, and the only lighting was the daylight that came from the open roof above. Women in those days weren't allowed to act in public and all the parts (even Juliet!) were played by men. Much of the audience stood to watch the performance and moved around, talking with each other and throwing fruit at the stage if they didn't like something.

William Shakespeare

- Shakespeare wrote 37 plays: 10 tragedies (such as Hamlet, King Lear, Othello, Macbeth), 17 comedies (such as As You Like It, Twelfth Night, Much Ado About Nothing), 10 historical plays (such as Henry 4, Richard 3). He also left 7 books of poems and sonnets.

William Shakespeare

- **William Shakespeare** died at the age of 52 and was buried in fine old Parish Church in Stratford-upon-Avon.

Margaret Thatcher

- **Margaret Thatcher** was the longest Prime Minister of the 20th century. Her style and her views appealed to many British people who had lost confidence in the welfare state and in the direction the nation had taken. In some ways she was the first genuine leader the nation had had since Churchill.

Margaret Thatcher

- **Margaret Thatcher** began her career in politics, when she became a Conservative Member of Parliament. In 1979 she was elected as Britain's first woman Prime Minister.

Margaret Roberts was born on 13 October 1925

- Margaret Thatcher's birthplace, in Grantham

- From the start, her autocratic style earned her the nickname of "The Iron Lady". Her abrasive manner has attracted some criticism. During the Falklands War of 1982, however, **Margaret Thatcher's** militant patriotism found her many supporters, and she became something of a popular hero-figure, much as Winston Churchill had been in the Second World War. **Margaret Thatcher** was re-elected Prime Minister in the general elections of 1983 and 1987.

The Beatles

- The English ROCK MUSIC group The **Beatles** gave the 1960s its characteristic musical flavor and had a profound influence on the course of popular music, equaled by few performers. The guitarists John Winston Lennon, Oct. 9, 1940; James Paul McCartney, June 18, 1942; and George Harrison, Feb. 25, 1943; and the drummer Ringo Starr, Richard Starkey, July 7, 1940, were all born and raised in Liverpool. Lennon and McCartney had played together in a group called The Quarrymen. With Harrison, they formed their own group, The Silver **Beatles**, in 1959, and Starr joined them in 1962.

The Beatles

- As **The Beatles**, they developed a local following in Liverpool clubs, and their first recordings, "Love Me Do" (1962) and "Please Please Me" (1963), quickly made them Britain's top rock group. Their early music was influenced by the American rock singers Chuck BERRY and Elvis PRESLEY, but they infused a hackneyed musical form with freshness, vitality, and wit. The release of "I Want to Hold Your Hand" in 1964 marked the beginning of the phenomenon known as "Beatlemania" in the United States.

The Beatles

- The **Beatles'** first U.S. tour aroused a universal mob adulation. Their concerts were scenes of mass worship, and their records sold in the millions. Their first film, the innovative *A Hard Day's Night* (1964), was received enthusiastically by a wide audience that included many who had never before listened to rock music.

The Beatles

- Composing their own material (Lennon and McCartney were the major creative forces), The **Beatles** established the precedent for other rock groups to play their own music. Experimenting with new musical forms, they produced an extraordinary variety of songs: the childishly simple "Yellow Submarine"; the bitter social commentary of "Eleanor Rigby"; parodies of earlier pop styles; new electronic sounds; and compositions that were scored for cellos, violins, trumpets, and sitars, as well as for conventional guitars and drums.

The Beatles

- Some enthusiasts cite the albums Rubber Soul (1965) and Revolver (1966) as the apex of Beatle art, although Sergeant Pepper's Lonely Hearts Club Band (1967), perhaps the first rock album designed thematically as a single musical entity, is more generally considered their triumph. The group disbanded in 1970, after the release of their final album, Let It Be, to pursue individual careers. On Dec. 8, 1980, John Lennon was fatally shot in New York City. In 1991, Paul McCartney's classical composition Liverpool Oratorio was performed to some acclaim in Britain and the United States.

Benjamin Britten

- Benjamin Britten (English composer)
- Benjamin Britten was a famous English composer whose name is known in many countries of the world. He was born in the 1913. He was only five when he started to play the piano and compose music. By the time he was nineteen, he was already both a musician for a film company and a composer. He wrote music for the plays of several English writers. In 1962 Benjamin Britten finished a very big musical work: the “War Requiem”.

Agatha Christie

- Agatha Christie is known all over the world as the Queen of Crime. She wrote 78 crime novels, 19 plays and 6 romantic novels under the name of Mary Westmacott. Her books have been translated into 103 foreign languages.

- She is the third best-selling author in the world (after Shakespeare and the Bible). Many of her novels and short stories have been filmed. The Mousetrap, her most famous play, is now the longest-running play in history. Agatha Christie was born at Torquay, Devonshire.

Agatha Christie

- Agatha Christie became generally recognised in 1926, after the publishing of her novel *The Murder of Roger Ackroyd*. It's still considered her masterpiece. When Agatha Christie got tired of Hercule Poirot she invented Miss Marple, a deceptively mild old lady with her own method of investigation.

Agatha Christie

- Her last Poirot book, *Curtain*, appeared shortly before her death, and her last Miss Marple story, *Sleeping Murder*, and her autobiography were published after her death. Agatha Christie's success with millions of readers lies in her ability to combine clever plots with excellent character drawing, and a keen sense of humour with great powers of observation

Agatha Christie

- Her plots always mislead the reader and keep him in suspense. He cannot guess who the criminal is. Fortunately, evil is always conquered in her novels. Agatha Christie's language is simple and good and it's pleasant to read her books in the original.

Agatha Christie

- She was educated at home and took singing lessons in Paris. She began writing at the end of the First World War. Her, first novel, *The Mysterious Affair at Styles*, was published in 1920. That was the first appearance of Hercule Poirot, who became one of the most popular private detectives since Sherlock Holmes.
