Chess is a base of different skills

My best achievements

I place

**The Belgorod region junior
championship**

I place

**The Belgorod
region championship
(between adults)**

III place

**The World school championship
(Greece)**

My plans

But to be the best of the best it is necessary to be strong. And consequently I have many plans including my results in chess. Thus, I want to be a financial director or a manager of a bank. My skills to give out credits to companies, working in a Bank or to construct cash flow of companies, having built production and sales, should be formed most of all by those qualities which I have got being engaged in chess.

George Soros

**The greatest American
financier**

Maybe the next one is me????? 😊 !!!
