

Brown bear

Dashkov Danil, 3a

Brown bear

The brown bear likes to make its home in a tree

Brown bear

- The bear lives in the forest
- It is a big animal
- It is very strong

Brown bear

- It likes to eat forest berries, honey, fish, small birds and animals too.

Brown bear

- In winter the brown bear can't see any food in the forest
- So it goes to sleep

- When it gets warm, the bear gets up and walks about the forest
- It is very hungry and angry

Brown bear

- The brown bear is very smart.
- People can teach it to dance, to ride a bike and to play hockey.

Thank you for your attention!
