We are from the Earth planet the Milky Way Galaxy

Our planet goes round the Sun.

- It's blue,
 as there are 5 oceans,
- green,
 as there are many forests,
- bright,
 as there are many flowers on it.

Our planet is very beautiful. But there are a lot of problems:

- wars,
- poverty,
- pollution.

We are trying to overcome our difficulties and we hope people will be

hanny soon

Our planet is inhabited by animals and people. We are people. We study, play, write poems, compose music, cure other people,

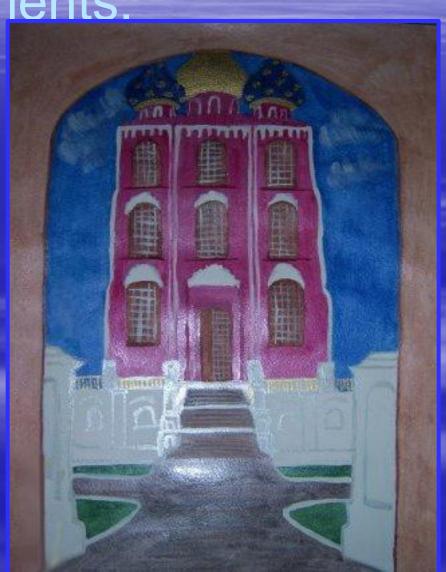

Our culture is very rich. We have constructed wonderful building, towers, monuments.

We designed different cars, planes, ships.

We would like to show you our planet and share our knowledge

We would like to learn about you!

We wish you peace and love!

The pupils from the Earth, School № 63.
