* The great German poet Goethe once said, ***“He, who knows no foreign language, does not know his own one”***.

* That is why in order to understand oneself and environment one has to study foreign languages.

I. W. Goethe - German poet

I think it is not easy to learn foreign languages, because there is no one to speak with in everyday life.
To my mind, the easiest way to learn a foreign language is:

- **to have a good teacher,**
- **to have an English - speaking pen-friend,**
- **to read labels and instructions on everything you buy**
- **to watch videos and films in English.**

I study English because I want to make friends in different countries, I want to read English books in the original and I would like to get a better job in future.

Also, I study English because I'll need it
for my future education.**

Thank you for attention!
