

Leisure in travelling

There are a lot of means of leisure

**But I'd like to tell you about
travelling**

Hiking

We can admire the wild nature only on foot ...

By train...

It has comfortable
carriages. We can
just go home –

or go travelling for a long
distance, for example,
to Moscow

By car...

It would be also a good idea.
We can go along the big city
or across the flower field.

By air...

It is really breathtaking travelling: watching the earth from height and being near clouds

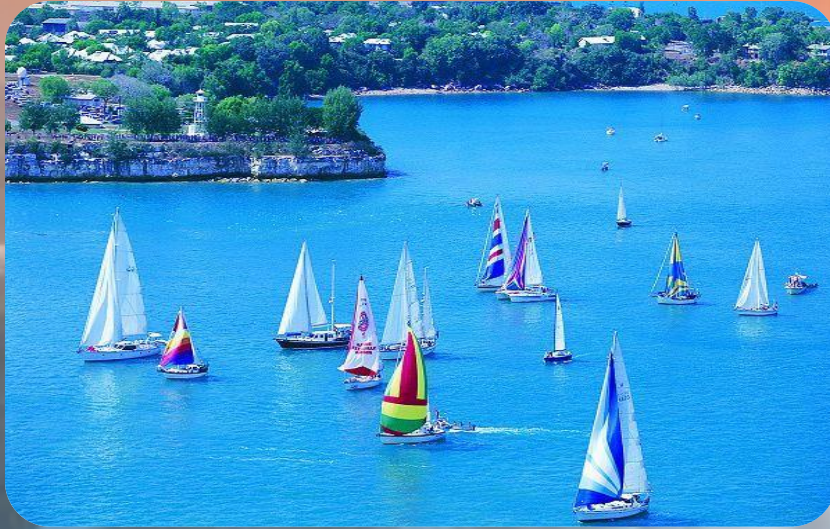

I could visit even Australia by plain: it's the most beautiful country with those landscapes of its. Also I like France...

By ship or boat...

But I'd rather not rise to the sky, and visit my favourite countries by ship; or just enjoy sea views, rivers, ports

**What a good adventure to sail
in dawn!**
